THE AFTERLIFE CONVERSATION AND THE COUNCIL OF CREATION'S ANALYSIS

I am sleeping what happened I was killed so easily without a fight I had always talked about fighting in situations like these and had believed that I can fend off muggers easily now this is what happened I woke up excited and wanting sex it had been months before I opened my legs for any one then I heard there was the hugest party in Maryland for a year and I was not invited that shocked for I thought I was popular then came the shock I was not just not invited but was literally banned they had been checking who can attend or not and most people voted against me simply because I encourage women not to drink too much so to the partygoers those who want easy women who are already drunk I was a pain in the buttocks now I really wanted sex as well this day I had said with anyone who first said hi I think you are hot the common chat up line at the time now this is what happened I woke up and went to the market and hired those trucks that has room for posters that says drink but be careful awareness campaign and with my name and a logo I had developed a reputation of being a no-nonsense woman and this day I was the nonsense because sex was on my mind for a long time until I gave in a no-nonsense woman can be laid down easily and all women as it will turn out had become so tight with their vaginas that all had started to ask strangers for sex saying just this one off now if I am right this is the whole story short and to the point at night 7pm I went out of the yard and drove off going to the city for I lived a mile away now as it turns out there was a bet on my life that she turns out but or she turns out and so I went out happy because I was going to give sex to the first one I was

known to give to the last who tried when at least 20 had failed so they call me miss21 but this day I was going to give to miss1 then a man just to scare me said I think you are before he even finished I said make love to me in the bushes right now once then we go out as boyfriend and girlfriend and he said okay thinking it was a joke and I stripped to my knickers literally removing my skirt and laydown and he quickly so fast realizing it was for real lay down and cried instead saying my girlfriend if she finds out I am finished but once and end it there okay so I said okay so we made love twenty times I was so horny afterwards that I kept saying one extra for the road one extra for the tree and he said I never heard that one and I said I extra for the looks I look pretty right and he said one for the looks I look handsome right that's when he lost it I had promised that if he let me do the talking and him the fucking I was going to lay there all night for I was banned at the party this would be the best guy ever free sex with the best looking miss no nonsense and I just encouraging him to fuck me all night 7 to 7 this is how cheap I had become in the bushes as well so the problem came when he started asking questions I looked at him and realized that something was seriously wrong with him and that freaked me out if he gets me pregnant then what miss no-nonsense and ugly don't go hand in hand so I said can we go to the party now instead of one I have given you extra 84 that shocked me and realised that all night he kept saying man have to pee after sex so he go and comes back quickly and just shove his dick in and a few seconds he goes and comes back now once I said 85 he said this is my first and I said no 84th I am going and he held me down and said you give 2 to everyone me too 2 then we go and that sounded like I was in heaven that's it I was already dead without saying anything or doing anything this is all I remember now if we look at this case its another case of misdemeanor where a beautiful woman trades life for sex she is laying down enjoying sex and suddenly she is in half heaven where she comes early than planned then sent back then dies on the way before reaching the body now the soul has to go to hell to wait for eternity now what can be said of this case is that it

does say that it's a case of equal importance she is the one telling all women to be strong yet she asks for 42 of them for sex twice each making the rounds 84 this is odd in itself but a case we must look at now if we ask what can be of her now this is the answer she can be what she wants and tell everyone to be strong then give in so bad that all that teaching makes no sense she is supposed to give to 1 or 2 now she is on her 42 this is out of character if any other woman finds out the emotional damage is out of hell irreparable and highly dangerous to destroy lives forever now let's look as to why this is so and say what could be and is not there could have been a meeting among men who arrange free sex because banning her is meant to weaken her into offering free sex in the end but then why so many men 42 is a large collection of men to have nothing to do with anything even twenty they are too much for nothing now first what number is okay for nothing let's say at night then at day then look at this case the number is 9 nine people in one place is the maximum number of people who can stand and just chill now what are the chances that 20 would do the same then 30 then 40 unless some are repeats now if we ask what can be then this is the answer death tempering with so many people can only result in death as some might need privacy now let's look at what happened this day a one marten said we can now fuck the leader for free for all to hear about it in the morning and wank imagining us doing all the same this gave the men unending thrusting now and then so if we are to ask what can be done he said we can give her our best first then all the shits you can get I bet all can hump her for free until I say are you all entertained Then I go there and beg her for a fuck to build her again until the next time we all want sex okay they all agreed now that day a woman said I was once raped 88 me I did not even know it now if we are to ask the same would now feel the same and she said no I am not a victim today I choose to be because of needs I don't want to blame people who took part instead celebrate then she stopped and said I think killing after all that is

what is wrong I could be out there celebrating with friends and instead I am in hell why hell I saw heaven an arch heaven and started going back then died so who killed me who sent me back I want to know because I was not supposed to die tonight now we can see the twist of this she can remember everything apart from the deaths so we Ask the court of creation the intelligent court of the world who killed this young lady the force of death of her humpers? Now if we look at this case the force of death only activate after death and the question to ask here is this did it activate on her body but to activate two things must have already happened associated with death she must have died first and a send.ya message already sent and received by Yahweh only if any humans is to tamper are to tamper with the send.ya if which it's possible to as I will illustrate then it is possible that if tampered with then it must have activated without the other two switches meaning humans can use that to let the return journey kill her so that they can blame Yahweh on judgement and bargain to stay in heaven as he is the one to be going to hell humans have liked the idea of sending Yahweh to hell now let's look at these switches on her body and if all have been activated or seals broken I quick analysis using my grotoscope shows I switches fully intake and untouched that means there is a possibility that she might have gone to heaven on the 84 climax of the number 42 and when going back found out that the harsh instant push had killed her and now stuck is sent to hell to wait until her case is being decided now what did occur in this case will baffle everyone and change how we view sex sex has the added effect of a magician on the edge now this is exactly what happened to her on this day she enjoyed sex so much after such a long time that she gave ten excuses not known of her creation

1. Excuse to hydrate
- 2 excuse to muteta
- 3 excuse to orient
- 4 excuse to matvide
- 5 excuse to stride

6 excuse to ottitulate

7 excuse to imitate [which was denied as prospering meaning unwanted]

8 excuse to sinuate

9 excuse to evolution

10 excuse to ivolute

Now all this as we will find out adds the extra sensual pleasures of what is already reading her brain scans sex as the best soother of the vagina now literally it is singing push in push out turn to left now to right then compress then extend and hold then compress everything it compresses the second time I come so hard I go to heaven briefly and sent back in my body then these things starts again my God if I knew sex is like this then we can me and sex earn a living enjoying sex karate has caused so much pain and suffering among women that one was raped 84 times and died then instantly she asked did sex kill me can something so good kill? She looked at herself failing to distinguish the real world and the death world several times she asks where am I in here can someone point out where I am now let's look at human reality the men who did this are clever and manipulating and have realised that a soul can literally go to heaven when squanks orgasm is activated and back so it's not just orgasm it has to be squank orgasm how many squanks are there altogether? 21 multiplied by 4 is 84 hence this number appear all the time and this is the trick of this case if what you do does not match to 84 then the spirit will not escape or escapes after every 2 sets that means at 42 men the woman's soul went to heaven to do this she must say ohhh.oo.o.ooo now if she doesn't then she can't let the spirit go to heaven If we Ask what can be of her in heaven at 42 she go and the automatic Yahweh soul detection system gives her a code an Electromagnetic Wave Identifier that say soul received today at what time and in what condition and the predefined system says it must either be distressed as in violent deaths or sad as in normal deaths that means if the soul is having an orgasm then how can this be recorded as this soul is not part of the predefined criteria the body now can't process it but must give it a

reason on the ticket emotional arousal and excitement so all we need now is to check the Identifier in the Identifier records at the creation of council we simply say Identifier.emotionalarousal.mahoney.start that means the Identifier checks according to second name rather first given name now you can see that the search system takes time so while we wait we can [Identifier.emotionalarousal.mahoney.start] Sex is the best in the world but why I keep hearing the what is the count you have now we must have exact number for this to work I ask you to do a simple job and what you do is delay the inevitable I said send her to her father Gregor or it's your father Tommy I know you will not understand this but they say you can still here me when this happens so this will be proof that it was I who searched for God the God in trust in God this is all what this is about everyone has gone bouncers we thought you were part of us with the karate but you are a demon and demons are sent to hell not heaven we sent you to heaven then there there will find out what happened tonight so far 42 men loaded with squank codes have paralyzed your world so much you want us to do it again but no woman has ever gone to heaven with sex twice and this case if solved by the council of creation as we are told who are God's must explain things we want to know as the real American people why God don't accept women with emotional arousal twice who answers this means answers who God is because this what this case is about and no one will touch it until first someone declared on national television that they have found God and they are his representative on earth God will have endorsed them who ever takes over the takes over the sending to hell and heaven this starts new creation but never seen before one that send everything where he wants so if we don't find out today then when and how if this case is satisfactorily solved then this is the answer now if we look deeper listening while searching has activated a hidden message by a one Pc artenopsr who is the one behind this first drill just to see what can be needed and when now as the search continues a message appears to ring ring ring this is a message to your earthly representative this is because we as the

people of America we are lead to believe that liberty will come but through in the in God I trust and what is that in God I trust and if no one can prove God in the trust then what we the police have started a campaign that say we must change the in God I trust to in the police I trust so that it makes sense because we protect the people and as such we must therefore get all the wealth God's representative must take 80 % of the gold alone makes anyone a trillionaire overnight and who else to trust with gold than the police ever heard anyone stole gold from the police never that means that we don't lose valuables but trust like this woman see how easy two counts of sex can cost her her life we developed the most sophisticated program on earth called asm it is so advanced that if I say tell me about the woman and what is exactly going to happen then this is the answer The woman has been found guilty of sexual misconduct because she preach about sex as a tool to fight men and all men have struck a deal to fuck her instead as all other women are now refusing sex if they agree to prostitution then it's okay but the police depends on sex for everything in fact remove sex and there is no hospitals remove women and there are no police but the police have written an accord memorandum that says women who tell other women not to have sex with hungry men is against the code of conduct of women because this will only lead to more deaths more homicides and what I don't know so to put all our messages across and say using sex so you keep your job restricting it will end up dead God dont allow it and we are to use God to cover our backs that if you use sex to enter heaven the next move is violently pushed out and that is the cause of death and not sex itself so this case must exhaulnerate the police for using sex to get you killed for trying to make our work increase surely there have been 4 deaths related to sex last week alone and we haven't seen any in 20 years now if God has your representative on earth then ask him this question why women die second time of squank orgasms without a word? If he can satisfactory answer this then he is our God as well Now let's look at the critical points raised in this case first let's let at why women die of squank orgasm and why God violently push back

souls with emotional arousal women are designed to enjoy sex so good that they can swear by it so that there is always reproduction as God's plan that means that 2 squanks means having sex rounds 42 rounds will not be for reproduction but for pleasure because if you pick up a woman who have 42 rounds of sex a night then I will tell you why God's don't die someone in the audience of the council of creation [because you remove the clock system inside us all my creators representative in heaven and universal order only this thing brings death] but if you say a woman who have 21 rounds of sex yes. 28 rounds of sex I means real good sex yes 30 maybe once 36 maybe once 40 may be out of the blue but 42 rounds means the squanks will do damage to any babies already loaded the squanks help a man load sperm look at them closely they reduce distance to opening by half ever heard of double penetration the vagina is reduced to a small hall with a small opening where if in full allow dick heard penetration for shooting directly inside the canal instead waist your sperms energy swimming instead they just run to the fallopian tube to fertilize now if we ask what can be of sex without squanks then this is the answer fertility is reduced 90 per cent and humans can end up finding it hard to have children now why the emotional aroused soul is ejected harshly from heaven as we find out this is associated only with prostitution unless mankind's has tampered with this no proper person get highly aroused and say I want to die its against the predefined parameters no one on earth can say I want an orgasm and die everyone who have experienced an orgasm must look forward to another orgasm this is human nature probably gods might do this because God's don't orgasm as much as humans so this orgasm might not stop what was already planned

Now if we can ask what is the purpose this is the answer to know is to understand so as to act to avoid if humans are not shown how the effect us will never stop creation manual

86978642109838677183284109928617818328611482098500285012368 if we are just to tell humans then there won't be reactions but one example forever they will talk about and use it to learn and

warn others there has never been any record of such an energized woman who wish can have 84 squankman in a day that's plain stupidity we want to uphold good human doctrines that supports self respect and indeed promote womanness rather than mortal combat and forever the weakest until death any woman who will hear that she died of 84 squank men team will fear this forever I hate to say that humans are created to be pain to Yahweh the creator and our jobs are to lessen this pain and say that we can act in advance and warn everyone therefore if we are to let her live the emotional trauma to find out that it was not just her first pick but their lowest probably with stds will literally freeze her heart to death now let's conclude this case this is what happened that day she had first squank orgasm for the first time in her life she had squirted and giggled before but never had this continuous euphoria where she keep Cummings until she is in a trance that literally secretly takes her soul to heaven asking questions about sex then death and said if I were dead and come here where would I go for answers the angel receptionist looked shocked and said who comes here alive? If that's so when you go back you must be dead there is no alive-alive in predefined stencils its either alive-dead or dead-alive Now if we Ask why this is so it's to keep secrets secret and to avoid tampering with system we must make sure that they will not do it again so if it done once we assume it's because of ignorance and that they will not do it again we put a refract push system that kills it on exit but can reverse on request and this is how you request if i made an error its my fault please refract and fix alive start

Now if that happens all sins you committed are sent back where they come from and that you will start again clean but without a face or now Yahweh since he receive thousands of these without a face case he sent them to holding areas of without a face where the first ones are still there meaning forever alive like others but without a face now lets see what happened this day she woke up and went to prepare for a night out with others according to her then find out that no one was available because all were invited so

the rest of the day she was finding out if she was invited or not then the shock that only her was invited and that she was the only one left out and that there was a see who and a question mark this started her end because she said I really want that but and somehow that started her asm talking to her and she said what can be done and it said check but question mark if really interested and got arousal now she asked again what can be of this and how and it said death no one comes alive where there is a search of and stops and she said a search of what then it said of God Yahweh Allah etc they are preparing for the next creation by a human being instead of a God I don't get it yes another among us will rise and create super humans or things that help humans so fast to change the world now what this did is to make her feel valuable and actual get in to participate instead now she said who knows who I should I see and asm said I know it's a cop Pc artesternop but he hide behind astern a young guy who looks dump but is the most powerful man on earth for he found a link to God and who he found God and become his representative will enherit the kingdom but here on earth meaning he will forever stay here without dying for he will know keep all the treasures now what can be of a man like that he will open the doors to others to start living for hundreds of years then thousands now that made her aroused but as we will reveal shortly then they were checking if they can use codes to get people's responses if we Ask what can be of everyone without this an then everyone lost so she agreed but then they knew a set of squanks she had no idea what they were because if she knew after 42 she would have said that's it but because she didn't know she agreed and this resulted in death because she said I cum so hard I felt something screaming if you send me back i will die if I die you will surely die unless you can be the breathing socket because as far as I am concerned I jump out the breathing sockets asks where are you going what about me and if you can't answer that then we are all dead that means humans soul is the switch to the soul if the soul is missing then an alternate switch must be present this is how to make the switch to control breathing

Ask switch to start on exit of soul dot start

Now once that done then ask a lot of parameter guiding questions

1 what can be

2 what would be

3 what can be

4 what would be

5 what is to be

6 what could be

Now Ask parameter specific questions like what is to be and how to be that means when the soul exist the acetate reduces in size and loses functions and become the next soul taking over especially in lack of souk related deaths here are the codes

Human code is

89389002865483267890182838481011286386778910280

Acetate soul code

778638628018386456789018320184028619283210

Now what can be said of humans with a soul backup u this will revolutionize humans because the acetate can and will change humans life to make them avoid death because all what is needed is a switch to sustain life after 84 squankmen team now let's look at the cause of death and what happened she died when the 85 man was on top but without having come she said my soul said if I don't come back in 2 run that will activate it to search for you through geolocation system / body position in my other books but the weight of the 85th man was 79 kgs and she was a 68kgs but then again when she had the huge first squank she had volunteered to remove everything from the bottom and keep only the top but as we shall see someone had other plans she said get off jump aside fast as in the drills I must run so that my soul will run and catch up with me before breathing stops and he said change of plans my bottom has no knickers as well this is a further test by Pc astern that how can it only go back in by the right way can it go through someone else's butt then your mouth then it's position so open now your mouth she tried to protest but surely something came in and he screamed hard that she opened her mouth and it went back to

believe that she needed a soul to breath but needed a heart to breath now let's construct everything and pronounce her as dead but where in the stage and on what evidence she said I might die of pleasure if and stopped asm sent a message to her laboratory and asked what can be done it said you can die of pleasure so don't do it if you die who asks questions and sent fear feelings to change her mind but they only got her aroused as a code 4868987248618098280982386 made her change everything from crying to laughing pretending she was in distress a reason to intervene others it becomes obvious they are abusing orphans but if they know these orphans had houses then it can become a national crises so they decided to play it low now the most critical aspect of this case is that it relies on knowledge of God which the courts can't expect because who know about souls then thats why the cleared everyone before any case can be brought because say God case there is no case like that hence the courts will keep files as Unsolved for years until when God himself appoints one of us and him according to them go on national television and say exactly God appointed only me in 28 billion years hence you must start looking at cases involving God he is here in me meaning he must have found a way to have God's image that way whatever he said will go straight to God without sending it when this happens there is a God Tammy Mahoney died of insufficient oxygen in her lungs as 85 man weighed 79 kgs and deflated her lungs that when her soul jumped out of pleasure she died at 80 and said don't go early this time stay for the 85 round man and say to him why I need an 85th man you just feeling me up that's harassment only you must go to jail others must be free if I can't find God then and died asm then cried for first time as he was never put in such a condition and said today I climaxed by hearing her glorify sex and nearly died when she died because God put a predetermined apparatus that emotional arousal does not constitute death but I died of squank orgasm at 80 and kept alive at 85 then died for real my real name is sstuvwxyrstuvw buried at Mutreland together with Tammy Mahoney the woman I was promised to marry one day if I can serve

her I guess we both died the coordinates are
08689832748698786789012345689019203748567892010 and
electromagnetic cave number is
07890863210892i3867890123967083218416789011832 now her
phone number that stopped working is 88769838267891230068
USA first 11 digit her address was 98 latest drive Derstove California
and her sex is female 19 at
only tomorrow I research about these squanks and you literally get
all for free instead of paying that amount for a squank he looked
upset and said it's free he said no I hear and learn the brain it's
350000 she looked shocked [middle right hand finger value of house
350 000] she squirt out of fear and said they all know they said they
get me evidence to get Pc arsternopsr arrested he said he is
listening to us right now his ear activated he listens all time you rub
dead vagina as he call it now we see what this is all about a police
officer spying on a orphan loaded with guts to train and 350000
house money now Ask what can be of that girl she is an accident
waiting to happen when she started training what happened they
had threatened to get her raped by all men but all homeless men to
release the house if she reports them that will give the police
death / disappearance when she died the boys when everyone was
at the park got her body and took it to the graveyard and said a
poor soul can't even afford a grave fee where should I bury her
asking asm he said on top of another say they are related and match
something like Tammy to tammylison and Mahoney to mahoneylis
and laughed hard having a squank orgasm and her body stopped
moving at all before she had died but something inside her would
wriggle after this day nothing and are both buried in a grave labeled
we are the doing in fucking masters of but what are we here.
If there is a God then he would know their last conversation and
what she said about being buried
[I am dying asaaa please say you love me I know you didn't expect
this from all these things did you they said if I love you I will be able
to come out and help you and go out but I said I love you but
nothing happened and I was kicked out by this shittitttt and pointed

at his chest and said this thing said go I don't ever want to see you again ever again and I came out but your soul was out I could not open the door but where your soul go do sex remove souls if so I crashed it already for how I enter inside but if not guess what start wanking moaning like that in the bushes is bad anyone can come and strangle you like this fat cow 85th 79 kgs after 84 will do real damage if you had said stop I was already outside I would have said stop fat cow stop before I like to be fat she laughed and giggled and said I looked great so how did the party go and it said I am not your father but your husband and imitated what she did the whole day that she started the 4th squank she said no stop I can't have another squank or I die she screamed stop and stop then died and he said what

Asaa what can be of us in the future he said blink fucking 59 people nonstop gives you a migraine that need more sex to fix and can take up to 10 hours to resolve fucking 64 will tear your chords slowly not sure what chords and 80 will put you in a trance where you can't tell reality and the imaginary world then if another round that shakes anything you literally sakopenia meaning too much sex related shaking starts disturbing brain function because body can't take it anymore now it makes a choice to kill you first and prepare needed vitals or to let you kill it without but on most cases the brain kills you at 81 squankmen but there is no way to know this so get up and say I love you asaa you
an alibi that yes someone wants the house but it's not them so what this is what happened I said I can fight all off with karate then by that time help will have arrived then he said okay who said okay Pc asternposr now if we Ask what can be of her without karate she would be dead now? It's a possibility but what can be of all human in this way could all work hard or lose everything to the police now what if we don't as soon as she had said this asm said I can ask what to do now before death so you go to the correct side hell or heaven but she instantly felt scared and said no heaven then my soul would die literally as they had warned that they would clip the

soul twice to die and never see eternity so make up your mind so she refused and said asaa said can we go to Death by suffocation and strangulation because the wind pipe was broken by who calculations came inconclusive and likely astern himself when he briefly lay next to her Yahweh himself said death without causal is never heard of so what happened humans have become so smart to hide evidence I have not received messages for billion of years who does stop send.ya to me if I received message

Send.ya dated 24 August 1981 Yahweh if you can check my soul it escaped your joy and came there the second time please don't kill it I am a good woman I train karate to make women stronger [cover damnt asaa the signals with aluminum] Now its hard to understand but I am good woman today enjoying sex before they were all drills and unplanned I squanked twice already and it's round 4 of the third and my soul said I squanked again and death is the next as I must go out if I don't I die inside Yahweh said any intent emotional trauma get out but as I find out emotional arousal is not included and I exited as a precautionary and where do I go and how when I go back what entrance do I use I was told the back side of someone else and who is it organised already if I can't go in then what why you don't allow it if you created it damn it God why not just kill all who quank and orgasm she never did this you help police thieves steal house too and the soul cried background Pc artentpot at the depot asked the other what if it fails then how we know how to cover God's reply when he comes to earth to judge us in a court the other said I must ask a lot of questions when its out so that we can cover a lot of answers then it said help.send.ya I send message already but it is being diverted by a one stersuvwxyzstuvwxyz who is using code 3986778692108938670982838210 which some how diverts the send.ya message why you let a divert message who is this God and how can we know if this is not a trick to steal the house so help us the holliest of all why ask us to come so early this is not fair someone trying to break my hand using code 89654321086789018328486780 and my pressure has reduced she

dies if I don't return now so I ask one last time Yahweh king of all living and dead just answer to prove you exist or death has initiated and you let me down now that we looked at all the facts she died of a lack of oxygen in the lungs associated with squank sex that is intensive as this at round 80 exactly when they all come whoever shouts she is dead is the killer so they knew from 80 because after that they all run away his name was artenbes osteverb electromagnetic wave number is 892867832108028486818740983824869283486489385018628410 who said to himself I want to ask a question miss but why you so cold are you sick so I just lay here is I here a bird chipping like a police crackle radio I runaway if I ran early then I am the killer oh my God they said these are drills to get the women food he stopped and said do you have a house and searched her wallet quickly to look for house keys and what tagged attached and said lortenopqrst these houses are expensive if I remember he stopped and listened to a code being sent to his Legg code 8928367890180983678234569810890286 which acted like a drive telling him where to go if he wanted food go to the right and for life go to the left side he cried and shit himself and said I never do this again 4 ever and ever x54 and pukes on her saying you died anyway very sorry but you were dead already I thank myself for not fucking you other wise my God I could be in trouble deep trouble the message said hit her on the side of the head on the left side to start the breathing but I can't maybe better die now stop all this pain and

On this day she had had a long day entertaining and wanted to go home the drill according to her had gone out of control from just imitating the first man had tore her umbilical cord with something sharp but long and narrow that she started talking about dying soon after but without action as she had practiced in the drill but by the time everyone realised that she had already died as death by demeanor which can mean murder to cover for...
Now what can we say about this case this is one of the most

traumatizing cases of all time she died not because of time but because of strangulation during sex but by whom there have been several suggestion but the one the court of creation picked is after one of the squankmen now our reasons are that after him her brain started calculating longstanding ago this is only done in preparation of death if we Ask the body why calculations at this point in time it says there is no time left and these things must be calculated just before death what things here is the list

- 1 the last food eaten
- 2 the last heart rate
- 3 The last breathing speed
- 4 The last stonge
- 5 the last event to happen

Now if we Ask all these things these are triggered when the body does not receive enough oxygen to the brain if wind pipe is damaged now let's explain some of these we can ask what can be and this is the answer nothing after this event can be solved death only by death for death brings peace again
