TOMORROW'S WORLD ORDER'S PERSPECTIVES

THE AFTERLIFE CONVERSATION AND THE COUNCIL OF CREATION'S ANALYSIS

I died because I died I went out and never return tough luck but I was not supposed to die but my friend live but came to the hell holding place a few days later after being attacked the same way by locals where we went several people to identify any they all had jackets written amsan clothing company this is what happened I woke up early 6 in the morning and instant something started saying I have a birthday inside me and I said who is this and it said I got a birthday my name is aty and greetings anyone who want to play live and let die and I said no do we know each other and it says your vagina stinks wash I take you for rounds so that we can collect money for birthday I refuse and said who ever sent you you must go back and say I say no and it said okay so early you choose to die and it said if I can but and went flying then something felt like landed on my crouch and I rubbed it off and instantly I squirt and he said and quickly go and wash if found in this state then there is going to be trouble now I looked at what had happened and saw that I am in bad shape I looked at myself and said what is going on then a man came and said do you like to catch up in the basement later that was the chat up line at the time I said maybe and he said okay maybe now after a while he said to fuck or not to fuck then he said what can be of vaginas that run away and I said will see the day and he said maybe but if it were me then I would say why run if you can giggle then I said giggle is not my style run-giggle is my style and I said only if you have money and as far as it looks there is more to it than just money if there was

money why would you resort to women power that means there is more men than women and he said working with averages and now the higher the returns and he said all this can led to dome where you can easily die and be buried and I swear never seen again do you know the woods in here are so thick than the bushes of your vagina and I said have you ever seen my vagina and he said possible and I can now one way or the other imagine 84 men waiting for you and fighting for you and all that behind you and when i looked what was behind me he granted my hand and said come now let's Ask the others what they think you being smarter and naive in the woods don't only say how do you want it deep or recoiled I said coiled what's that he took out his dick and said we can coil all this in you and say oh were you can take 84 all in less . go but if you refuse you will die in the woods and decay here and for 80 years no one can look for you and or even ask about you or where we will bury you look its straight forward you come here for sex we give you sex and you go you try funny tricks we think you will sell us for a loaf of bread now if you let me what can be must be all I ask is for fuck and my boys until you squank 84 times men then you go but say no I don't hesitate to remove your head and now do the same until you squank now if you have listened you volunteer to be used just for sex otherwise you could not be here these people make no mistakes and if you come here do your best and go or stay in the woods forever even the police they will never come here this land is as good as private property and will never dare to ask us what happened okay so I said what if I don't want because I was forced to come here by my friend she is the one interested and I am to watch her fuck all your men and he stopped and said okay then there is a misunderstanding because we Asked her and she said you want to try first but only after I see how it's done okay and he walked away staggering with a bonner between his legs and I said can he be like that without consequences then my aty for the first time said I want to warn you run now they don't chase those who run run and cross their line into another property and say call the police aty they know I will so will leave you away now if you stay even if your friends go first they will come for you his mark is for you he must do

you the man of your dreams but since you first refused he will let all 84 do you not as squawks but last big time before going to heaven for you and say do her right and always one of them is the killer so die9 only and 100 years of your life will go to hell literally so save me as well and run and it killed be hard in the female balls and said how can you let me die without my body run bitch run run run run x 28 run and it shutdown and cried but when all this was happening the had put something on me that made the brain freeze I remember someone kept saying 33 degrees and could not think or react until after the crying had stopped and said death has t someone has activated death already a silent long.ago 8 hours 3 minutes remain then I said not such a thing you think I can allow that now she started hearing footsteps coming her way and said why they come so early and started running in panic but I fell and one of them just jumped in the air and stammered on my neck and I woke up here now what can be said about this case its brief and there is hardly anything and she wake up dead there is no sex hardly mentioning of anything and anything else other than the need to run failing to run and death so how can we identify which of the men killed her and how now this is the challenge only Yahweh himself can solve through person to person body contact which we all can't but him and to his surprise he said she did not ring or anything the vibrations are nil I don't know why but humans have become so complicated to hide all my messages and pretend nothing happen until death comes to the person when a person feels death then he vibrates inside me to alert me know and when death comes he vibrates again to say goodbye this how I know who lives and who dies but this information is missing so I ask the court to look for an alternate method and now that you mentioned this I can use a second method of triangulation to search for her now I can clone her three times at that time and put her on three different places and and now feel her vibrations this human is different again nothing so how do we deal with a case like this I ask the court also said Yahweh now if we are to ask montertertert what is his answer humans leave a strong magnetic field when they die hence on point of death must be all activity you need so what are

the coordinates I go now there with the help of Yahweh and now Yahweh whisked him away with a single blow of his right hand and disappears now this is interesting because now we go at the Crime scene and say how did she die here and look for evidence there now can we afford to do that the answer is yes we can and can we allow it to happen as a court I think answer is yes now let's see what can be of her after this as a court guided by certain principles and as such we are to ask montertertert now what he has discovered and this is what he said if life can begin with a breathe of electromagnetic waves so life ends as well with a breathe of electromagnetic waves if we look at what happened she tried to run and failed and attacker stamped on her neck it broke as we shall see and death followed now if we Ask what can be then this is the answer life is so fragile that if we are to ask what happen then this is the answer life has been cut short and if we Ask then this is the answer life cut short will automatically be rejected in the courts because there is not enough acts to judge you by all is circumstantial evidence something like this is hard to judge how do you judge a person who did not do all the things he is supposed to its hard as such Yahweh send all these people to a special holding area where they stay there forever in peace as well as sleep now what did montertertert find for us he found out two electromagnetic waves at the same time a harsh breath can give out huge electromagnetic waves now if we analyze these waves then they give us two names one artenop and asterv now who are these people and are they linked to the murder we Ask now if we are to ask montertertert what exact time these electromagnetic waves were released then this is the answer electromagnetic wave for asterv was emitted at exactly 22.08 Yahweh time morning and for artenop was released at 23.00 Yahweh time morning we know this happened in the morning at 10.20 Yahweh time morning meaning incident must have happened earlier fitting the 22.08 Yahweh time morning therefore based on only electromagnetic waves asterv is the killer now how do we identify him even more to get more details we must add everything to it and substrate to remain with what we need we must add his memory back to the

electromagnetic wave spectrum so we say anything related to this electromagnetic spectrum clone and come back to him 5 minutes plus or minus 22.08 Yahweh time in the morning [Yahweh time is normal human the plus 30 minutes therefore to find human time it's Yahweh time minus 30 minus is exact time events occurred] Now what do we have now we have a huge build up of everything now what can be done to make things even more interesting we can now calculate his position in time and space we need the works of gravity to do his magic I was at that point because when he jumped who caught him other than me so I just need to check where I have been at 22.08 and tell you who called me now at 22.08 a gentlemen by the name asterv oprst said if I can can you and I said what about what and he said my neck like broke but I did not move now if we Ask what gravity can do for us this is the answer it can send us what we need at the exact time and at the exact location now what can be of humans without gravity humans will be lost without the force of gravity now what can we say about gravity without humans gravity will feel useless because who will it help other than humans and over the years gravity has learnt to speak to humans and with some he can communicate with them now what can be the future we can combine electromagnetic waves and gravity to give us an even more accurate picture of who and who in the world of missing and killed people now let's look back at the case a young woman gas died and as their leader said death won't stop them feasting on sex they even threatened to behead her so no one can recognize her and carry on with sex acts after all its Yahweh [but to be used right] who created this wonderful gift for humans and now men run rampage looking for scare vagina the scarce the vagina the more violent they become now each pay 40 dollars for a fuck and 20 for a corpse fuck this is how the authorities have made vagina so scarce by targeting those with vagina and making them disappear without a trace all this giving themselves jobs and rewards to last a life time now is the time to know what happened before all the evidence is distorted and Crime scenes are cleanup now what can be of the police without their murderous intentions broke and out of work hence the hardness of solving the cases now if we Ask what can be

of people without these crooks then peace and prosperity now what can be of humans without both force of gravity and electromagnetic waves then this is the answer nothing what can be done now is nothing a lot of things have changed now now now we have a possible killer now we Ask Yahweh to verify presence of killer on his body now the electromagnetic waves will show that first the person who jumped high to crash neck was astern who we now know as astern oprst now let's see how Yahweh can locate him on his body now this is also interesting because Yahweh did locate him even more now and instantly buzz went out with a message that said Yahweh help me some men are trying to kill me when the message coordinates are linked then we can see that the man was at the scene of the crime and he is indeed the killer now Yahweh can fully identify him and tell us more about this killer he was born in arstuvwx town in Australia he was a single child his real electromagnetic waves is

[I died what happened I was killed by a friend he said what can be done with thieves who don't pay their bosses money and I said I am the boss so speaking for yourself and he said what can be done for Nickers who neck women because they have enormous legs like trunks of trees a deadly weapon that leave no trace and I said long time ago I was that man and it can't be proved even God himself can't prove this because we work for the police Sergeant atopqrst manoprst was one of the notorious officers who deliberately gave us immunity on condition we carryon working for him and he would often say if you can then we can too but if you can't then we can too so to challenge that I said I can kill but God will know that I have killed so what can by others some shits like you can't cover and he said ask what can be done in your God's case and I said can I kill a person that you know but God can't know secondly can you know that I killed and that God can't he said yes but we must wait that who ever solves this case will let us know the outcome so I said then offer a huge reward so that when this person finds out we all get rich right I gave you work and you gave me reward now let's see

how we can know for sure here are our predefined parameters

1 God will not know that I am the killer

2 God to know will have to find new ways of identifying me and asking me questions if I am still alive what if I die then what meaning even a more hard task for God

3 he must tell us everything we said today and our predefined plan so that we know it's him

4 he must confess we did him hard

5 must acknowledge that humans are becoming clever and clever

6 must tell us how he did it if not then no reward

7 must ask what can be done to us if we escape his plan and all this must be within 20 years

8 must ask who killed her and find the real person without first using our computer names this will prove that he is true God

9 will say my real mother given name and not astern opstr Erich is a code that say who dinit as in who did not do it meaning even though I jumped I am not the killer I gave cover for the killer who was who...

his name is sterv who said I can but who cover for me because this is mess you must have been upset she said your mother sucks black dicks and I said there are no black people where I come from so I asked where I come from she said Jamaica and I laughed and said there are all Jamaicans in Jamaica so she said purto Rico louder but first after whispers to her self my heart torn and I said who told you that and she said aty and stopped I looked at stern and said who is aty and he said a policeman and I freaked out and said where is he and he said she must be wearing a wire if we get her and bury her then we might not have any problems he said no boss orders match her out of the property and I agree but you look like hell what's wrong with your leg I fell and look how big it has grown and he looked at me and said that can do really damage to a woman's neck keep it away and I said when did you start speaking my language he said only after they said 1000000 reward and I agreed for 1000000 I can but but what he asked you must be dead by me then your son half me half you die early from being fat and I sat down failing to breath and he said 10 December 5 years from now I take you out

but you go back to Puerto rico I took your identify I flipped we were 84 imagine and she could only identify me this was wrong and I refused and said aty can you hear me and something but like a boy said loud and clever and I said what's your problem you want a problem with me right why me out of 84 ah I see you like a lion you choose the weak and injured ones right he said I want a body you want fees for son so can we come to a deal here and I just couldn't believe it that moment that's what I was talking about with sterv and aty said I know I can read some like shit here I told her to run so you chase her out easy no blood etc but now look I die too so I need the body she drops I get the body you need money I will hide that it was you I said how he said we assign real names to fake names and he offered me a deal he said kill her for me I kill all who come after you I will tell them real name and you tell them fake names and I said what is my real name he said Roberto Sinclair and I laughed and said that's not my real name ?? If not that means you don't have radar why some people don't have radar? So I refused the deal and she said people with bitch mothers don't have a radar so you check and he said I live him how o will know where he is she whispered something and said his mother was a whole so don't need aty so I ignored her but sat down and he said I know son of bitches don't have radars okay I keep that in mind then she said she was sucking Africans with no radar too and he flipped and said do you know where I come from and she said Jamaica and he filled her but a huge thumb caught everyone's attention and he crushed her neck but aiming for the voice on the neck instantly at 22.07 Yahweh time the body started calculating long.ago start citing a severely broken neck as at the cause hence it requires the following only from the neck

- 1 long.ago start time entered as 22.07 Yahweh"s time
- 2 last meal which was entered as spaghetti and mince
- 3 last breath from the chest known as sterop now the last thing is
- 4 time of death rec as 22.08 meaning it took a minute to do long.ago start normally a 3 minute thing neck broke badly and she only said who am I and died we had to carry her to the mountains where we buried everyone now there a huge argument broke out

between me and Marico he said I can get you done now there was Marco as well image 84 people with all fake names why fake names because they were faking something and trying to test someone's intelligence then therefore they would put duplicates and similarities now he said you go away from here we take care of this your share you get only for first time after that you lose for getting us in trouble so he pointed a gun at me she died if neck injuries and buried her under a tree called urstuvwxyz meaning where have you been in local language of the time her coordinates are

Now if we Ask what happened this is her answer I was walking when a huge man with legs for stones said where was I born I said Caribbean Jamaica and they laughed and he said what they are all blacks and he said guess again instantly aty [artificial intelligence like inside me which I had no idea exist before this day] said Puerto rico synthesis voice pattern came as Puerto Rican so I said louder Puerto rico and he stopped and said out of 84 men you recognized me why and instantly he kicked me on left breast I staggered 3 times backward and I fell with a huge thump and instantly he lifted his huge leg and crashed me like a nothing tight neck paralyzed instantly and I heard long ago started at 22.07 preparing last calculations 1 minute to finished my body lifted up and instantly I started hearing fast movements inside and I heard 2 seconds to death and I fell asleep and work up now.

prove but this is as good to the killer we can get because nothing was left for us to check or verify or to ask him what happened
The end

The fat one held me down with his leg on my shoulder and the other one who on my neck breaking something the big man said you are not supposed to kill her but push her out and he said I want sex they keep pushing all put do her I will cover her said Pc astern he said he asked how can he cover God and he smiled and said Yes but and I have to run to Yahweh and tell him this crime by these shits but how do I go there no one screamed inside for me to go Where do I go Yahweh we need help I am trapped inside Yvonne Kaye WATERS please Yahweh help nothing shouted how am I supposed to know answer this then I can decide myself now I am stuck in here with no clue to go or not until I hear a long.ago that means death is within 3 seconds but most in 2 seconds I panicked and headed fast to the door handle but a huge foot was there [which side of the body] her right sight and instantly something inside said everything changed they tampered with the alarms they replaced the alarm 089678982848671090867828 with a new code 08928332867898286778920836982848180 [God someone calling they had blocked calls to Yahweh at 73869871248698281234869928678183890183

Puerto rico after aty whispered to me and he said I am crossing their all I did was to show you respect and you respect these who just want sex than an honest man so he kicked me hard and I fell before he stamp on my shoulder and his friend whom he called sterv jumped so high and landed on my neck and I died instantly sterverton mreest electromagnetic wave

Now if we are to ask this is the case the police have killed in the past claiming to be more fit to protect the people when there are the most vulnerable of all people in the country they get shot at on daily basis and surely can't protect anyone cases after case I have proved it beyond doubt that they go for food and not the bait meaning protecting those who kill innocent women and children even if we want to look at this yvonne kaye waters do you know that the same group killed her mum in less than a week that is in less than 7 days and if we check property etc we can easily see that they had a house and these two were sole beneficiaries of a house worth 2967890 a large amount at the time and let's look who ended up buying the house at a fraction of the price a quarter of its value a one Pc asternhis real name amos tervern who is the police officer responsible for diverting the calls to God now what can we say about police who despise the creator on false account they can only end up dead one day what can we say about the people without trust in the police better off because the police are the ones doing the killings now what can be Yahweh without the police stronger and more powerful and respected for his creation after all these are the ones diverting working systems that protect the people okay I might not be there but in the future an earthly God will have power and resources to respond Pronto working plan so the future is brighter always trust in Yahweh because he created you believe it or not most people say on day of death Yahweh exist for sure I never thought but you are lucky we can show you the powers of the creator while you are alive its up to you to decide normally its between Yahweh and the devil all this about Yahweh the police or the devil its nonsense this must end I put enough full stop to this garbage they will die by the bullets they claim to use to protect the

people it is the greatest sin to challenge your creator how many
people fight and kill their parents let alone the creator common
sense is not common among you humans
