Hydo Shark In Play Davidgomadza Www Twofuture World

The best defence ever but for things that live in water because this generates power for them as extra sources of defence this is for sharks only because of power sources they use based on water and humans cant use without death because everything human is water whereas everything in sharks is hydo but not water if it was water all sharks would die in less that 300 years instead of 1500 if not shark hunting

zoles have hydro and not water skin is more like plastic what material we can add to our skin or systems as humans with time to become hydro based

 Counterarguments to Consider:
 Is it just "longevity escape velocity" (slow aging) vs true cure? No Real Stopping Aging
 Could confounding factors (cryonics, AI mind uploaLegal Precedent Suggestion
 A court might rule that consistent 150+ survival with youthful physiology meets Daubert if:
 10,000+ subjects documented To be confined
