Look at all prosecutors and everyone involved in Sean Combs case and say

33kilcop

Meaning is there a state sponsored cop to kill black musicians for capital gains tax but not due meaning state sponsored violence and murder because we have 44 dead at hell reception with 28 sure they were all shot by a heroes ajaz a hairy in nose white Canadian officer who shoots in create first to suspend then blasts 4 times to send people to deep heaven then after a quarter of your lifespan but in days arrive at hell reception.

We need questions answered and these are the questions

1. Did the government hire a killer cop from Canada to help them collect us\$81 million since February 1999 starting with the death of digl

33kilcop

create.33kilcop.start(usa)

Yes fbi in February 1998 after comedy shouted abuse then swallowed his words after someone said if I can then but and stopped then died at the hands of his best friend

2. Who might have hired a cop if so why

33whokilcophir.start

create.33whokilcophir.start

private but ask fbi

This is the format of asking any person without that person knowing

33 then first 3 letters of any words

I can but to preserve our reputation but I can't be held responsible its better than have them kill us we have 2 dead and its the rappers so I say get in the biggest rapper of all and look

The state since [1999](#) it has recruited or hired a killer-cop-to-kill black musicians first in order to collect capital gains taxes and to enrich themselves by paying each other between 2% to as much as 48% to those involved in the killings of the value of the house of the victim

THE SCRIPT HIS PLAN

Aseropers Aseropers emulated by

Aeroes Ajaz (the cop real name Robert aerunger or aerung) all Canadian cops (continuation of life and terror) (impedeance)

I can but

I will for you to know I am not baboon that hurts

I can and will take all yours in one day your property your life and your money

I need a doctor to kill your mother and play dad

I need the people I give money 2% in shortest days like 8 but 2 and laughed

I need a lawyer with a girl (daughter) I can seduce then dump for real so that the father feels hurt to fight him instead of helping so that when it comes to deliberations

R aerunger of Canadian police department working in Newyork on assignment

I understand that the stakes have been raised to 8% as the minimum but everyone getting the money in 2 days in case of conviction as the house will be sold at an auction in venezuela or somewhere. That means the killer is to get instead of 22% now 48%.

But who is the killer.

Suprise suprise the doctor turned judge is the one to be awarded such a percentage and we can only ask how accurate is this? it turns out that the plan was to convict on rackeetering then put Sean Combs in prison then ask the killer cop to go in prison to take him out on 8 October 2025 to mark the beinning of the arrival of lucifer on earth referring to himself

State Sponsored Killings or not? just say 33kilcop looking at the forehead of all state personel

Our charges against the police, the consortium of police, the police officer aeroes ajaz, the judge arun subramarian, the prosecutors, the justice system and the state that targets rich black musician using outdated secret laws

Our charges

Victimizing and killings of black musicians by hiring Canadian police officer aeroes ajaz to kill 28 black musicians so far directly and 44 altogether by contracting killings

THE USA government is hereby charged by David Gomadza and Tomorrow's World Order on behalf of Sean Combs for 28 Contract Killings of Successful Black Musicians by the services of Aeroes ajaz from Canada who has killed himself 28 so far namely:

[3. 52](#) Counts of Planning to Kill Black Musicians 52 of them since his

target is 80 and has already killed 28 but we think he is responsible for 44 all the list above as he reduced his list from [200](#) to 80 with p diddy as the number one in [1998](#) with a value of us\$[1000000000](#)

Targeting P diddy in [1998](#) he discovered that it was easy to kill all black musicians because they were all not clever in that they can be made to easily change their real names without affidavits so that they can lose the property easily and marked first [200](#) and then reduced the list to 80 and said i can but then smiled and said which one is the most successful of all then discovered that p diddy was the most successful and attached an epb on him that keep asking what can be done to him to give up singing so that problems start then he said i can but then found out that he refused to sell his dilahouse meaning dilapidated house

The Plaintiff, Sean Combs, through his representative, Tomorrow's World Order, respectfully moves this Honorable Court to dismiss with prejudice all charges filed against him in the above-captioned matter. This motion is based on allegations of systemic misconduct by law enforcement, prosecutors, and the judicial system, including but not limited to fabricated charges, misuse of evidence, and violations of due process. The Plaintiff asserts that the charges against him Count One (Racketeering Conspiracy), Count Two (Sex Trafficking by Force, Fraud, or Coercion), Count Three (Transportation to Engage in Prostitution), Forfeiture Allegations, and any inferred or implied drug-related or tax evasion charges are baseless, rooted in a pattern of targeted persecution, and constitute a miscarriage of justice.

Colony Collapse

no colony collapse strategy but what the americans say food programe

and the workforce (come at a secret meeting in 1999 after 2 pac was killed by ajt who said tu if I can then you can but you chose to pay a house you don't even own when you should be paying those who raised you when your mother died I shot Tupac he said your homie go and I refused because that means he sends me away so I said I can but then he said okay I will go and opened the door and heard the siren to start the end and he stopped and looked at me and jumped in and I pulled and fired 4 times at him the driver did not react because he was told and I was killed the same day by arote who said you should have gone away instead because he called you homie meaning a friend but you chose fame over loyal - I am white Canadian police officer who receive a pager that said I can but then you chose a house over capital gains the words of aseropers aseropers who had in 1996 killed aeroes ajaz for revealing in court that he was phoney for he asked capital gains when not due but just to kill then said I can but you can't meaning he was thick because he had left a dila-house for him so that he improves it and rent it just the way he started saying I am black but you are thick because I gave him the house and us\$8 mil as start up capital I said I can but we will see if you master black and laughed so much that he froze then after he started stinking he only said I died then left then I had no idea what had happened then heard he gave his wife prim the us\$8 then had great sex and did not show her the house I wanted her to start coming there to start renovating so she can be close to my house and fuck her for us\$24 mil I had made us\$72 mil there was a saying that I can fuck her if I make us\$72 mil she had agreed to us\$24 mil then he was told because he bragged so much that I died after he died first someone said around him its your death so now ban him to keep the distance so I give 8 men us\$8 mil each to keep me alive so that he realise I don't have the money because I started hearing dead people arriving saying I come ya so then I felt so scared I made sure I stay alive first and removed what he wanted

but had... then he rowed and turned his head round and hit him in the head then cut his throat meaning its him who was thick enough he had to do all this for him to die as sarcasm for others since he had asked someone for advice on line for advice then gets ambushed to die alone when he had paid for help from local people paying each us\$8) where they assign every police officer for food in return for moral support meaning in dealing with the rich black people who spoil this by being rich and refusing to accept and choosing to work hard something that means someone can not be assigned anyone for life but ends up without a job because those who are assigned are guaranteed a job for life until the age 54 because the americans like the canadians have a secret law that say

if you know that blacks like to be driven by a white person so if they fail they have someone to blame that means there are other laws that say a black person must be state property between the age of 28 to 54 when they did not have a mother or a father meaning reared as cash cows to be milked by the government who must be killed at the of age 54 as after this age they start thinking about retiring selling the house and convert huge mansions into cash then buy a small house paying a fraction in capital gains taxes therefore

the state hire canadian cops to kill black musicians to collect capital gains tax fastest than any other country meaning state sponsored violence with maximum of 80 years for president enough to make him negotiate for his release but the state use other blacks to protect the presidency because all who complain are and must be black because if one white complains then the state is held responsible i said sean say i cant today and he said i can not meaning he agreed to help the government collect capital gains before he sold hence illegal so he refused and said i have children then what will happen dont you think that all know but then he stopped and i said but you can fight i checked you are now stronger meaning...

Freak-Off Tactics: The Plaintiff alleges that law enforcement employed a psychological manipulation technique referred to as "freak-offs," which involves inducing temporary memory lapses or confusion to frame Mr. Combs for crimes he did not commit.

Systemic Targeting of Mr. Combs and Other Black Musicians

The Plaintiff asserts that Mr. Combs is the victim of a broader conspiracy by law enforcement to target successful Black musicians, particularly those who are orphans or own significant property. The allegations include:

Historical Pattern of Misconduct: The document cites the alleged killings of 28 Black musicians since [1999](#), purportedly orchestrated by Officer Aeroes Ajaz, with the intent to seize their wealth, including Bitcoin and real property.

Who Is The Killer Cop Aeroes Ajaz Who Framed Sean Combs

He goes by several names:

Aeroter aeroteeeeeeeet

Aeroter ajaz

Aeroter ajertuer

Aeroes ajaz

Aeroes ajaz

IIII

Auerter ajaz

Real name is aeroter meaning Robert Aerung from Canada ontario who said I can but if you can't then I will because blacks who sing have an easy life when us with everything struggle so much that one took his life I can't

kill myself but and researched who was the richest on 2 December [1998](#) in his bedroom and asked [100](#) questions about black musicians after aseropers killed aeroes ajaz and took his house worth us\$28 million and us\$7 million in cash which he always carry around emulated by his first victim Digl in February [1999](#)

This blood thirsty police officer killed known 28 Black musicians shooting each 4 times since [1999](#) and his target is 80. Meaning planning the murder of 52 more musicians.

This can't be accepted this is the cop behind Sean Combs problems one who bought initially [1000](#) baby oil bottles and sent them to Sean Combs

He is the one who stole Sean Combs [800](#)bitcoin20cents aro and sent it to atgyseancombsbut waiting for him to be killed in October in prison to fully send the bitcoin to himself as

Whatseancombsbut

He is the one who use FREAK OFFS to steal bitcoin, to erase memory, to swap brain thoughts, to make everyone who participated be in sex suspense enough to feel used and frustrated enough to accuse the superstar

Stealing money from the superstar using mits which are codes that steal passwords

Targeting once orphans now rich house owners for their houses and money in the pretences of collecting capital gains taxes not due
Property Seizure through Forfeiture Allegations: The Plaintiff claims that

outdated laws are being misused to target wealthy Black individuals, particularly orphans, by confiscating their property under false pretenses, such as unproven capital gains tax violations

the state will

he had colluded with the judge to swap old dila house as diddys in exchange of his us\$61 million (us\$39 million to devalue in order to reduce capital gains burden but restore value after 2 days so that if anyone asks then they will be shocked to have received doubled in 2 days when they expect this in 2 years a disowns all his names meaning stolen property hence our fake claims to the property I want the doctor to claim he fathered a baby in Canada called arun submarian and now reveal his name areya submarianya mother pregnant then said I have no husband then he introduces himself and said I can but meaning I can be the father but then had sex to cover up then realised that Canada have a secret law that kill single parents but only those with value of more than Canadian \$8million which he did but run to America when Canada found out that he killed his mother he ran to America a young cop named aéroes ajaz fake which he gave himself to say no blacks in Canada started emulating aseropers aseropers and started with Jayz but he married that year and p Diddy deliberately got himself in trouble to get even with his girlfriend just to prove he was innocent and would not fight her but she realised he is cool enough and the charges were dropped and jayzthecop and the

doctor are hoping that the big value house for us\$61 million is in the name arun submarian which he gave to Sean combs when he was a small boy... that way he will confess and prove he raised him but only after he died so that

Ajazzcop impedeance

I can but

I will for you to know I am not baboon that hurts

I can and will take all yours in one day your property your life and your money

I need a doctor to kill your mother and play dad

I need the people I give money 2% in shortest days like 8 but 2 and laughed

I need a lawyer with a girl (daughter) I can seduce then dump for real so that the father feels hurt to fight him instead of helping so that when it comes to deliberations

aeroesajaz phoned a club and asked for Sean diddys ex girlfriend

And dropped the receiver to the ground and picked it up and said I can but then stopped and listened ajert meaning a receptionist said ask what can be of Sean and he said ask who and he stopped and said Sean can be okay but we must then you can in 2 but then better than 5 okay

We as a consortium of police decided to put Sean combs on trial because his case can't be solved by any lawyer because he wants to play soft and wish God can help him and if he does then he is innocent but then he will get 60 do the math 12×5 is what but we say he did half so we have fewer

people to bring but for the same job if we ask all to hide then we can defeat Sean without the accused not even one

just like r Kelly because we mention all his girlfriends then ask him who said that and we know he will refuse to answer then say he can't not because of not remembering but because he will refuse to testify that alone defeat his plan to remain intact that worked with oj Simpson but he said I can but meaning just like oj Simpson he can but we make sure he can't because we are going to ask him to tell us about them first if he refuse then he is guilty but will need to convince everyone that he is innocent but then when he want to be released as someone who refused he must just get up and go but then we drag him back with restrictions a case filed in New York, the star has been accused of kidnapping, drugging and coercing women into sexual activities, sometimes through the use of firearms

– I will just say he used a firearm meaning a hand to fire me because he literally said you are fired and go now because Sean Combs uses hands this means I offered him free sex to make it up to hkm because he complained of poor workmanship after only 8 days working for him because I was busy watching freak offs where only a couple flash their genitals so constantly that when I looked at him I experienced orgasm that escaped to him so I thought I tell him he took mine because I was clit throbe and got so frustrated that I started to hear something inside m u heard saying “get it back right now how we fuck too when you give so cheaply so go there and get your arousal or flash yours at him to get even because if I get upset I can't think and your orgasm is what makes us happy so get back right now and said I want mine because its not free” then stopped (search results not human but inside brain gods) I am about to ejaculated but... mymy voice but small version inside me and I heard throbing hard and cum without the... and a stop and I heard death of vagina inside life and death of penis borrowed Sean Paul but then

repeats to Sean Combs then headache then a real pain as if being rubbed inside then a repeat of arousal and everything and a lot of things that said I can but then switch off sex then I can but then death of v but can I resartitate vagina but without fingerings it because any arousal she might jump out of the body as ejection and ask what has been because losing orgasm is death for internal private parts but if you resartitate then we can recover all lost parts but still without the orgasm everything is building up as before but the numbered ejaculation is in reverse as already happened orgies known as "freak offs", including drugs and more than 1,[000](#) bottles of baby oil.

I am a police officer my name is ajaz ertero meaning ajaz erto meaning egeto meaning zero or nothing but I was born in Canadian then I like rap music but detasted black rappers but liked only one Sean combs then he said I am not gay white baboon and said some bad things and I refused all that when he said ageta and laughed then ran away then he was 12 and I said 12x5 is what and left then at 24 I met him but he had changed from a little boy to a mogul with a huge house I was shocked and he did not recognize me and for years I always ask him about orgies but knowing I was a cop but putting ideas inside him until he said freak offs okay everytime this and stopped and froze and said you still chasing me why I know you what do you want harshly I said sex and ran away and 2 years later I had become his freaks off manager then quit but started sending him baby oil from Johnson but refresh it and sell [1000](#) for us\$[1200](#) and he said ageta and I froze because then I was so hairy that hairs used to fall on him but then the target was his mother who had a house worth us\$[1200](#) but worth us\$[7800286](#) that when I found out I realized I had to take her out then (aseropers aseropers) met a doctor who looked for his black son called arun submarian who said I can but then left meaning I had sex but he can help to kill all to prevent future

bills about maintenance I realised that he was lying because he could take a house but did not meaning the house was not his then the house changed hands on his mother's funeral he cried and said the house stink cancer and he cried and said I don't want it or the money from it if I keep maybe my wife die like mum surely I might kill myself too because that was the most dreadful experience it turns out the doctor was not a relation but a hunter doctor who kill single women with cancer and take their house and fake names to match the house name and challenge everyone with cancer until he appeared now with glasses and it turns out that he had bought the house from Diddy but diddy refused money but asked the judge to keep the house either way liable for capital gains tax hence this case to recover the cost so no one can stop this he did not donate but told the now judge to bring the money in 12×5 but when everything adds up to 78 meaning when the doctor owed him us\$[78000](#) because his math were 12×5 cycles then added 18 years meaning he calculated rent as $us12 \times 5$ cycles which turned to be years plus average of the initial meaning bonus then he said then I will need money because I will be same age as my father who run away if he comes back I will give him the house because I will have rented it off but he will take it back because he said look after mum I am coming back after 12×5 when they all oadd up to 78 and average that means maths that compound things that Compound are rents and houses then he Yours will be sold the next day at an auction in Salvador but representing new York so that if found out how can it has to do with him in other words he bought bitcoin with all his money but hid all but now where as he give evidence someone said he don't remember that much but he said you are doing a great job suppressing me because they now use a stupider than press fir days none stop until it kill but he is the strongest ever but he cracked by refusing to testify meaning innocent but not bored with shit because everyone wants 2% of his wealth but can't admit

it now he know I won't miss but he can try to make a deal with his girlfriend but he lose already because he start talk about God in quote and said 2 may [2027](#) but might change

I can make you sit out in the cold by talking your house I had Sean you refused your house so who pay the bills and he looked lost and the police officer pressing hard said I know he told me so and stopped and when he looked at him he slumped back and said I gave it for free okay I did not get it or nothing ask the doctor and he whispered isn't he not the doctor who killed my mother and froze for a while the judge said give him time to figure out what is happening then he paused and said is he losing it as well the cope touched his own hair

Said death for the doctor by 2 April [2027](#) and the police officer already a ghost because he died already but no one came to collect the judge looked scared and said who is the doctor and he said ageta and laughed slightly and said I can but you choose to kill my mother for a house so he refused any money from the house and the judged looked lost and said can we revine meaning pause then continue tomorrow but everyone refused and said did

Arun Arun Arun Arun Arun your mother is the prettiest woman I have ever met but... of cancer because if I was in Canada I would be moving in your dila meaning dilapidated but then you refuse to deal because anyone who accept police advice in life is doomed look at me what can be of police and intelligence then he laughed and said I will repeat ajeroes ajaz and laughed hard then he wrote notes and from that day started making notes

In [1988](#) he left Canada with a note that said yours Diddy the dila but and laughed hard to test if he succeed then he did not throw up based Yas

additions he advice people to check anything regarding death and he said I will but then you chose to deal and not to deal so meaning he refused to sell drugs but to steal from the state by asking a cop to cover himself by saying ageta meaning hairy baboon but as a kid since did was born in Canada and not the usa but only to b him because i ask but as a way to further discredit p diddy

'The Government is no longer planning to proceed on these theories of liability, so instructions are no longer necessary,' prosecutors wrote in the letter.

We realised that someone fights for him enough to change his things as the fbi calls them we have proof he will live forever but all subject we looked at sources if you ask asm if anyone has declared to be God then the answer is yes one David gomadza

I secretly asked the lawyer for the gentlemen tapping his brain if he want him released but he said I have my daughter and not others are lucky so I laughed and he said okay but 8% of us\$61 you do the math so I sqit that he would confess ajeraya submarianya born 2 October [1962](#) but changed things so new is 2 October [1968](#) then faked documents to make him inherit diddys house not the dila meaning the dilapidated one but the us\$61 million one for he said we me and Jayzthecop took an oath I swear I will not leave Earth without diddys us\$61 but and will never depose him of his dila and laughed and went their separate ways

He went to court to prove he was Sean combs and not arn submarian because if he had admitted he would have been liable for capital gains tax after s lling the House to an Indian boy who was a medical student but who was his mother's boyfriend before death but he is the one who put a in on condom and fuck her just once and run to wash but then realised that she already sick the time he tried to strangle then stop when she coughed blood but did not report him

He want Diddy to run then make everything harder but will ask him to testify as a way to say can I hear what you think as an opportunity to make him defend himself against all these accusations then pass harsh judgement based on his defence because he will say I can not say but this is what all want him to say if he don't then he want to say ask if he can go to prison as a way to relax from all this so again as black American he might say I can but once he say this the judge then give him 48 years reduced from life but if someone say I can for him then he will get life

File papers to say he is doing a gre at job but in someone's else's shoes that means not qualified even if his job performance is excellent he is guilty enough to stand as a judge or especially in the case but can only mean replacing the judge

ALL house thieves who target orphans once or Jan's and this is a special case as the police in ajazcop made oaths to steal his house till death

They both declared that they will not sleep until they got diddys house not the dila but the us\$61 on 2 march [1998](#) one in memphis the other in Toronto due to childhood liking of Diddy

The plan is to get did Sent to maximum prison but make him be stabbed

to death then the day he dies sell the house and give all within 2 days to break the US record of processing proceeds from a stolen house to encourage everyone to participant for a quick payday in succeeded

The plan we sent him [1000](#) bottles of baby oil so he empty all at his parties so we he is raided he then caught with so many bottles then make the jury imply he was swapping oil for drugs but he did not get the idea because if mentioned he becomes aware that he is being tried to be reposed which is the case because of drugs not any of the accusations in USA anyone dealing in drugs can be reposed

ajazcop in [1988](#) April said I can make you lose everything just because I know what to do in Canada there are no blacks unless students or coloureds who die their hair I can easily smear did enough to get him tied for drugs but never reveal to the court apart from the jury and ask all to convict for 2% in 2 so that they wait only 1 day and get their money the next day that will shock the world of underground killings I have case of ajaz himself who died at the hands of asereperos asereperos who said I can but and said any black person who say this is dead because what this means is that he did it but only because he was forced to by the police themselves meaning the police sent him the drugs which he used as startup capital so that everything he had can be reposed as proceeds of a crime because if that is not so then he can walk so a police officer must admit to have sent him things but that are connected to drugs but whether he used them or not they fuelled speculation ghat he sells something meaning he is a dealer but the police must replace dealer with another dealer so that he does not react to the word dealer enough to make the jury think that he is admitting to be a dealer so asereperos used a dilapidated house to show that blacks are ignorant and must never be trusted with property as such any who owns a big house will be reposed

by the state at the age of 54 before death struck so that no one challenges this after he died because in Canada there is a secret law that the state controls all blacks from age 28 to 54 meaning what they make here is state property hence no one will prevent the taking in the USA the law says at age 56 before death but he must die soon after but this applies to once orphans p Diddy only orphans past 56 in USA Tupac

Judge arun

I can understand what he want I thought he wanted the house who gives away us\$60.5million for sex this is nonsense so I refused because I think they raised the rapper and taught him some language they now use to remind him of things they did to induce fear the other day one said I can but and he froze and woke up after 7 seconds which means shock for seeing or witnesses then he literally slept to only wake up to say I can but but the police man who insist he must be in court in case he becomes violent said I was but you said you can so it's you don't worry about the doctor because so he said I can but you lied in court you said the doctor killed my mother when it was you then he rolled his eyes to say I died so I paid the price what about you I am to be the undertaker because you know too much m a1 and cried and run out I said remove officer ajaz and he said then I tell all what to do okay meaning I had things he uses.

Aeroeaaajaz asking for diddys ex girlfriend

And dropped the receiver to the ground and picked it up and said I can but then stopped and listened ajert meaning a receptionist said ask what can be of Sean and he said ask who and he stopped and said Sean can be okay but we must then you can in 2 but then better than 5 okay

We as a consortium of police decided to put Sean combs on trial because his case can't be solved by any lawyer because he wants to play soft and

wish God can help him and if he does then he is innocent but then he will get 60 do the math 12×5 is what but we say he did half so we have fewer people to bring but for the same job if we ask all to hide then we can defeat Sean without the accused not even one just like Kelly because we mention all his girlfriends then ask him who said that and we know he will refuse to answer then say he can't not because of not remembering but because he will refuse to testify that alone defeat his plan to remain intact that worked with oj Simpson but he said I can but meaning just like oj Simpson he can but we make sure he can't because we are going to ask him to tell us about them first if he refuse then he is guilty but will need to convince everyone that he is innocent but then when he want to be released as someone who refused he must just get up and go but then we drag him back with restrictions

a case filed in New York, the star has been accused of kidnapping, drugging and coercing women into sexual activities, sometimes through the use of firearms

officers seized supplies that they say were intended for use in orgies known as "freak offs", including drugs and more than 1,000 bottles of baby oil. This is

the plan ask to please did but then stop the answer was he uses baby oil as viagra

Mr Combs has denied all the charges, entering a not guilty plea on Tuesday, 17 September.

Ajaz ertero zero or nothing

I am a police officer my name is ajaz ertero meaning ajaz erto meaning egeto meaning zero or nothing but I was born in Canadian then I rap

music but detasted black rappers but liked only one Sean combs then he said I am not gay white baboon and said some bad things and I refused all that when he said ageta and laughed then ran away then he was 12 and I said 12x5 is what and left then at 24 I met him but he had changed from a little boy to a mogul with a huge house I was shocked and he did not recognizer me and for years I always ask him about orgies but knowing I was a cop but putting ideas inside him until he said freak offs okay everytime this and stopped and froze and said you still chasing me why I know you what do you want harshly I said sex and ran away and 2 years later I had become his freaks off manager then quit but started sending him baby oil from Johnson but refresh it and sell [1000](#) for us\$[1200](#) and he said ageta and I froze because then I was so hairy that hairs used to fall on him but then he target was his mother who had a house worth us\$[1200](#) but worth us\$[7800286](#) that when I found out I realized I had to take her out then I met a doctor who looked for his black son called arun submarian who said I can but then left meaning I had sex but he can help to kill all to prevent future bills about maintenance I realised that he was lying because he could take a house but did not meaning the house was not his then the house changed hands on his mother's funeral he cried and said the house stink cancer and he cried and said I don't want it or the money from it if I keep maybe my wife die like mum surely I might kill myself too because that was the most dreadful experience it turns out the doctor was not a relation but a hunter doctor who kill single women with cancer and take their house and fake names to match the house name and challenge everyone with cancer until he appeared now with glasses and it turns out that he had bought the house from Diddy but did refused money but asked the judge to keep the house either way liable for capital gains tax hence this case to recover the cost so no one can stop this he did not donate but told the now judge to bring the money in 12x5 but when everything adds up to 78

meaning when the doctor owed him us\$[78000](#) because his math were 12 his age x 5 cycles then added 18 years meaning he calculated rent as us12x5 cycles which turned to be years plus average of the initial meaning bonus then he said then I will need money because I will be same age as my father who run away if he comes back I will give him the house because I will have rented it off but he will take it back because he said look after mum I am coming back after 12x5 when they all oadd up to 78 and average that means maths that compound things that Compound are rents and houses then he

These "freak offs" were "elaborate and produced sex performances" and were highly organised parties, prosecutors said.but without the sex and the parties but debt in supplies to the police

Why

Police run factories to offload superstars of money these came from Johnson own secret brand that resales everything at a markup of 2% but forever because we need bank details to force everything through after that unless he complains

Mr Combs' associates allegedly booked hotel suites, recruited sex workers and distributed drugs including cocaine, methamphetamine and oxycodone to coerce partygoers into sex and keep them "obedient".

Memory in use

i can but then and why but then stopped today asked how the verdict can impact the court system and he said just justice because I realised and stopped and silently said he is not himself alone and thought then said you can be free again but if I were you now I would ask for sayings by your God because I heard they want to wait and exhaust everyone so as

to disregard my verdict of not guilty

Yours will be sold the next day at an auction in Salvador but representing new York so that if found out how can it has to do with him in other words he bought bitcoin with all his money but hid all but now where as he give evidence someone said he don't remember that much but he said you are doing a great job suppressing me because they now use a stupider than press for days none stop until it kill but he is the strongest ever but he cracked by refusing to testify meaning innocent but not bored with shit because everyone wants 2% of his wealth but can't admit it now he know I won't miss but he can try to make a deal with his girlfriend but he lose already because he start talk about God in quote and said

2 may [2027](#) but might change

I can make you sit out in the cold by talking your house I had

Sean you refused your house so who pay the bills and he looked lost and the police officer pressing hard said I know he told me so and stopped and when he looked at him he slumped back and said I gave it for free okay I did not get it or nothing ask the doctor and he whispered isn't he not the doctor who killed my mother and froze for a while the judge said give him time to figure out what is happening then he paused and said is he losing it as well the cope touched his own hair

Said death for the doctor (the judge) by 2 April [2027](#) and the police officer already a ghost because he died already but no one came to collect the judge looked scared and said who is the doctor and he said ageta and

laughed slightly and said I can but you choose to kill my mother for a house so he refused any money from the house and the judge looked lost and said can we revise meaning pause then continue tomorrow but everyone refused and said did

Judge arun

I can understand what he want I thought he wanted the house who gives away us\$[60.5](#)million for sex this is nonsense so I refused because I think they raised the rapper and taught him some language they now use to remind him of things they did to induce fear the other day one said I can but and he froze and woke up after 7 seconds which means shock for seeing or witnesses then he literally slept to only wake up to say I can but but the police man who insist he must be in court in case he becomes violent said I was but you said you can so it's you don't worry about the doctor because so he said I can but you lied in court you said the doctor killed my mother when it was you then he rolled his eyes to say I died so I paid the price what about you I am to be the undertaker because you know too much m a1 and cried and run out I said remove officer ajaz and he said then I tell all what to do okay meaning I had things he uses.

'The Government is no longer planning to proceed on these theories of liability, so instructions are no longer necessary,' prosecutors wrote in the letter.

because we used all avenues and if he cry foul play we lose outright because what we did is accuse him of everything but the truth just to get the fastest payout in history in 2 then thinking years until recently we realised that it's in 2 days on 27 and 28 July at 3pm on both days via courier services at given address so take time off as nothing has changed

but actually improved because he sleep all day now a sign of giving up
but then

I secretly asked the lawyer for the gentlemen tapping his brain if he want
him released but he said I have my daughter and not others are lucky so I
laughed and he said okay but 8% of us\$61 you do the math so I squirt that
he would

confess ajeraya submarianya born 2 October [1962](#) but changed things so
new is 2 October [1968](#) then faked documents to make him inherit diddys
house not the dila meaning the dilapidated one but the us\$61 million one
for he said we me and Jayzthecop took an oath I swear I will not leave
Earth without diddys us\$61 but and will never depose him of his dila
and laughed and went their separate ways

The Doctor turned Judge

ajeraya submarianya born 2 October [1962](#)

I can but they all choose to ignore that he has a life but just not here
because I got his house and I want everything for his mother promised
but on her death bed look after him and get everything so I will go to
Newyork from memphis to stand as a judge in this case but only to finish
what I started them he smiled

I can but ask all you to respect the rule of the law saying respect my
decision at the end but talk now so that after I make my decision then
you all would have agreed already that 48 is okay minus race 20 which is
28 reduced to 5 on good behaviour cancer will have claimed him only my
fear is if he fights I die but I made sure all have it the prosecutors and all
on my side so they don't think of taking me out if they found out that I
am phoney meaning fake but who can brain read and die because no one

read cancer and survive to read means to know to know means to be
with me unless you are the creator but not human unless he has a cure

He went to court to prove he was Sean combs and not arun submarian
because if he had admitted he would have been liable for capital gains
tax after selling the House to an Indian boy who was a medical student
but who was his mother's boyfriend before death but he is the one who
put acin on condom and fuck her just once and run to wash but then
realised that she already sick the time he tried to strangle then stop when
she coughed blood but did not report him

He want Diddy to run then make everything harder but will ask him to
testify as a way to say can I hear what you think as an opportunity to
make him defend himself against all these accusations then pass harsh
judgement based on his defence because he will say I can not say but this
is what all want him to say if he don't then he want to say ask if he can go
to prison as a way to relax from all this so again as black American he
might say I can but once he say this the judge then give him 48 years
reduced from life but if someone say I can for him then he will get life

File papers to say he is doing a great job but in someone's else's shoes
that means not qualified even if his job performance is excellent he is
guilty enough to stand as a judge or especially in the case but can only
mean replacing the judge

All house thieves who target orphans once or Jan's and this is a special
case as the police in ajazcop made oaths to steal his house till death

They both declared that they will not sleep until they got diddys house
not the dila but the us\$61 on 2 march [1998](#) one in memphis the other in

Toronto due to childhood liking of Diddy as his girlfriends but males

The plan is to get diddy Sent to maximum prison but make him be stabbed to death then the day he dies sell the house and give all within 2 days to break the US record of **processing proceeds from a stolen house** to encourage everyone to participant for a quick payday if succeeded

The plan we sent him [1000](#) bottles of baby oil so he empty all at his parties so he is raided he then caught with so many bottles then make the jury imply he was swapping oil for drugs but he did not get the idea because if mentioned he becomes aware that he is being tried to be repossessed which is the case because of drugs not any of the accusations in USA anyone dealing in drugs can be reposed

ajazcop in [1988](#) April said I can make you lose everything just because I know what to do in Canada there are no blacks unless students or coloureds who die their hair I can easily smear did enough to get him tied for drugs but never reveal to the court apart from the jury and ask all to convict for 2% in 2 so that they wait only 1 day and get their money the next day that will shock the world of underground killings I have case of ajaz himself who died at the hands of asereperos asereperos who said I can but and said any black person who say this is dead because what this means is that he did it but only because he was forced to by the police themselves meaning the police sent him the drugs which he used as startup capital so that everything he had can be reposed as proceeds of a crime because if that is not so then he can walk so a police officer must admit to have sent him things but that are connected to drugs but whether he used them or not they fuelled speculation ghat he sells something meaning he is a dealer but the police must replace dealer with

another dealer so that he does not react to the word dealer enough to make the jury think that he is admitting to be a dealer so asereperos used a dilapidated house to **show that blacks are ignorant and must never be trusted with property as such any who owns a big house will be reposed by the state at the age of 54 before death struck so that no one challenges this after he died because in Canada there** is a secret law that the state controls all blacks from age 28 to 54 meaning what they make here is state property hence no one will prevent the taking in the USA the law says at age 56 before death but he must die soon after but this applies to once orphans p Diddy only orphans past 56 in USA
Tupac

Arun Arun Arun Arun Arun your mother is the prettiest woman I have ever met but... of cancer because if I was in Canada I would be moving in your dila meaning dilapidated but then you refuse to deal because anyone who accept police advice in life is doomed look at me what can be of police and intelligence then he laughed and said I will repeat ajeroes ajaz and laughed hard then he wrote notes and from that day started making notes

In [1988](#) he left Canada with a note that said yours Diddy the dila but and laughed hard to test if he succeed then he did not throw up based Yas additions he advice people to check anything regarding death and he said I will but then you chose to deal and not to deal so meaning he refused to sell drugs but to steal from the state by asking a cop to cover himself by saying ageta meaning hairy baboon but as a kid since did was born in Canada and not the usa but only to him because i ask but as a way to further discredit p diddy

I have looked at several brain thoughts and sayings to see if we can apportion blame to the state for the deaths of musicians and if anyone can be held accountable because this is not a gang to gang violence as we were led to believe but a one killer cop versus a total of 80 musicians of which 44 have already died without any form of resolve to their cases and now the killer cop skipping everyone left and jumping to the top prize of getting Sean Combs and putting an end to his lavish lifestyle.

If it's state sponsored violence and murder even if its all black people pressing charges can the government still be liable and how and what must be the punishment if any to stop this massacre and murder?
