

Robert Kennedy Speaks to Cadott Assembly

By DIANA HAIGHT
And GINNY JOSIFEK
Robert Kennedy Speaks

Robert Kennedy, member of the Senate Racket's Committee spoke at a special assembly at Cadott High School Monday morning. In his speech Mr. Kennedy told of his work with the committee in uncovering illegal activities within labor unions. During his talk, he emphasized the importance of taking an active interest in our nation's government.

Forensics Entrants

The forensics contest this year is under the direction of Mrs. Nancy Knitter. Monday, February 15, tryouts were held for play reading. Those taking part in play reading will be Jim Raether, Mike Jambretz, Pat Miller, Elaine Mahr, and Diana Haight. Others participating in the contest will be Judy Fitzgerald, Barb Lucas, Diane Irwin in non-original oratory; Judy Greene

and Bonnie Couey in extemporaneous reading; Sharon Janssen and Janice Nelson in interpretive reading; Joan Miller, Heidi Leberl, Judy Gannon, Pat Peterson, Laura Marek, Sandy Semmalhack and Anna Kucera in memorized declamation.

Plan Show

The dancers and tumblers are busy preparing for their dancing-tumbling show which will be held February 26, at the high school gym. Their show represents a review of their past performances at basketball games throughout the year. The dancers and tumblers are advised by Mrs. Emma Jane Luebstorff.

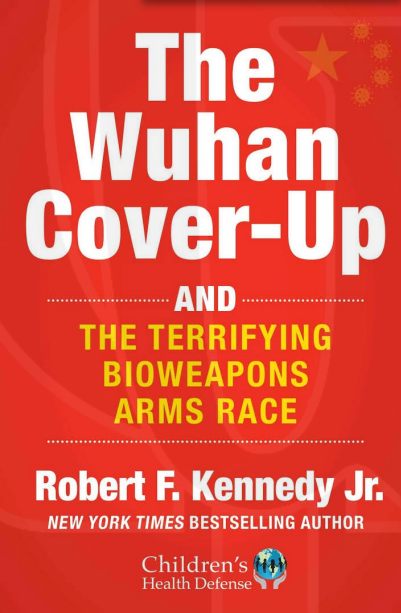

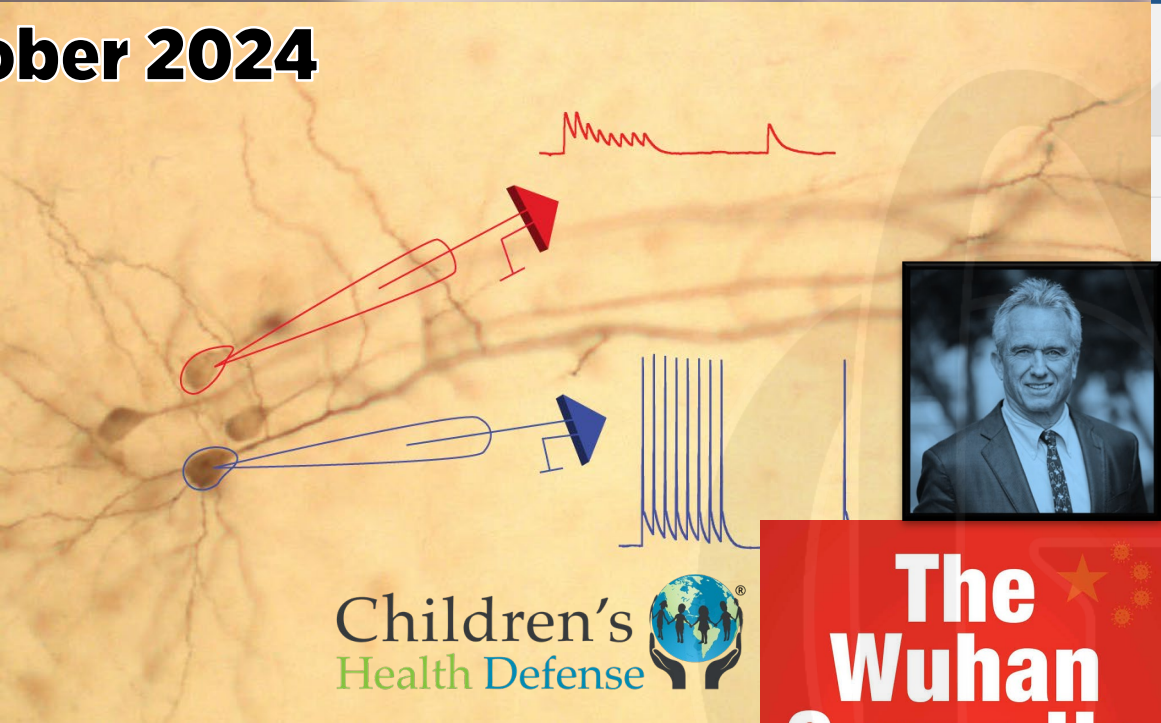

Receives Gift

The home economics department has a new vacuum cleaner presented to them by the Electrolux Corporation of New York City. It is valued at \$129. The company will also give us a new vacuum cleaner whenever new model is issued.

**If there is even a chance
that what is happening right now
is because of malevolence,
we must all awaken or
all will be lost for generations**

Weaponized piles of money have used Their acolytes on social media to convince us what to argue about and with whom to argue

Participating in the argument accepts the premise of THEIR NARRATIVE by default

We are governed by a Theater that spans from mainstream media to all social media platforms and includes all sides of Their Mythologies

There are few things
more dishonorable than
misleading the young

The Current Narrative:

1. The Truth was censored on Twitter and other social media in 2020
2. The novel virus swept the world twice in 2021 (omicron)
3. A shortage of or overuse of ventilators killed people
4. There was no expected rise in all cause mortality on the radar of any country
5. We rushed the roll out of a new technology that did save people despite mistakes
6. Once we stop using the toxic SPIKE and clean up the DNA contamination, transfection is good to go
7. Vaccines remain a wonderfully great way to augment the immune system via intramuscular injection

The TRUTH?

- 1. The Truth was faux censored on Twitter and other social media from 2020 and also before**
- 2. A background noise was misconstrued as novel spread**
- 3. Pure oxygen or 80% leads to ARDS**
- 4. There was a huge expected rise in all cause mortality on the radar of every participating country**
- 5. We rushed the roll out of a new technology under the guise of a crisis to hide expected downsides**
- 6. Once we accept the technology, vaccination will never be allowed to be questioned again**
- 7. Intramuscular injection of any combination of substances with the intent of augmenting the immune system is dumb**

Abstract

The highly pathogenic coronaviruses severe acute respiratory syndrome coronavirus (SARS-CoV) and Middle East respiratory syndrome coronavirus (MERS-CoV) are lethal zoonotic viruses that have emerged into human populations these past 15 years. These coronaviruses are associated with novel respiratory syndromes that spread from person-to-person via close contact, resulting in high morbidity and mortality caused by the progression to Acute Respiratory Distress Syndrome (ARDS). Areas covered: The risks of re-emergence of SARS-CoV from bat reservoir hosts, the persistence of MERS-CoV circulation, and the potential for future emergence of novel coronaviruses indicate antiviral drug discovery will require activity against multiple coronaviruses. In this review, approaches that antagonize viral nonstructural proteins, neutralize structural proteins, or modulate essential host elements of viral infection with varying levels of efficacy in models of highly pathogenic coronavirus disease are discussed. Expert opinion: Treatment of SARS and MERS in outbreak settings has focused on therapeutics with general antiviral activity and good safety profiles rather than efficacy data provided by cellular, rodent, or nonhuman primate models of highly pathogenic coronavirus infection. Based on lessons learned from SARS and MERS outbreaks, lack of drugs capable of pan-coronavirus antiviral activity increases the vulnerability of public health systems to a highly pathogenic coronavirus pandemic.

ELABORATE LIES

1. discuss how a background signal could be misconstrued as spread (both genetic and actuarial)
2. list and define the many ways the methodologies of PCR can be applied to assure highly accurate results that were NOT used for SARS-CoV2

3. define the countermeasures as TRANSFORMATIONS (AdV based) and TRANSFECTIONS (LNP + mRNA based)

4. list and define the many ways EVEN IN ITS PUREST FORM POSSIBLE the mRNA products would never be appropriate for use in healthy humans

5. define the term INFECTIOUS CLONE as transformation and transfection in cell culture and animals being misconstrued as virology

6. acknowledge the statement RNA CANNOT PANDEMIC

OBVIOUS TRUTHS

KNOWN DANGERS

OBVIOUS TRUTHS

OBVIOUS TRUTHS

The Narrative:

1. The Truth was censored on Twitter and other social media in 2020
2. The novel virus swept the world twice in 2021 (omicron)
3. A shortage of or overuse of ventilators killed people
4. There was no expected rise in all cause mortality on the radar of any country
5. We rushed the roll out of a new technology that did save people despite mistakes
6. Once we stop using the toxic SPIKE and clean up the DNA contamination, transfection is good to go
7. Vaccines remain a wonderfully great way to augment the immune system via intramuscular injection

Don't talk about 2020

1. The Truth was faux censored on Twitter and other social media from 2020 and also before
2. A background noise was misconstrued as novel spread
3. Pure oxygen or 80% leads to ARDS
4. There was a huge expected rise in all-cause mortality on the radar of every participating country
5. We rushed the roll out of a new technology under the guise of a crisis to hide expected downsides
6. Once we accept the technology, vaccination will never been allowed to be questioned again
7. Intramuscular injection of any combination of substances with the intent of augmenting the immune system is dumb

- 1. Biological and actuarial backgrounds have been IGNORED (so many actuaries, so many virologists)**
- 2. Murder = Opioids (-500k), pure-80% oxygen (?), no antibiotics + steroids(ask Malone), hospital neglect leads to sepsis (Vit C)**
- 3. PCR can be extremely high resolution and also nonsense (amplicons, primers, controls)**
- 4. RNA biology does not support the premises of pandemic biology (ExoN, remdesivir)**
- 5. Transformation and Transfection are not investigational vaccines but are the basis of virology**
