DISCLAIMER: America is being sabotaged by podcast actors both foreign and domestic. Social media are military software suites. There is no way through. You must log off and delete these applications from your devices, and get your children to do the same.

Jonathan Jay Couey

editor-in-chief

We believe in something here

Gigaohm Biological is working to establish a New Biology 101 for high school students. The basic working assumption set of high school biology 101 needs to be updated to account for what we assumed we would know by now but do not, and to account for those shortcomings. This work is crucial because it will help to recalibrate young people's outlook on their future as free people of Earth and better understand their agency in that future.

Unfortunately, social media is not a friendly public service software. Rather, it is more than likely a set of military software programs deployed under the guise of private enterprise. These programs cannot be used by citizens to advance any meaningful public good. Instead, they are used to divert public attention toward meaningless dramas and manufactured theatrics, there by subverting the public's ability to govern itself effectively.

While there are endless ways that our children are being actively misled about their history, their heritage, and their future online, the lies about their biology are the most dangerous. Biological myths undermine their fundamental understanding of themselves as free people. The children of Earth are in danger of being mentally enslaved for generations to come. Something must be done.

How They Make the Donuts

A guide to the Great Pandemic Mystery Theater

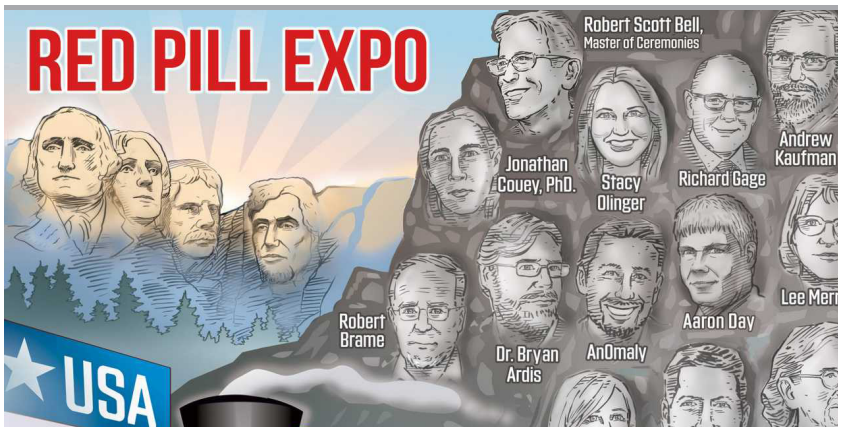

Podcasting

The Main Stage

"Let's have a conversation where you pretend to learn all about vaccines from me. The goal is to convince the audience that vaccines cause autism and chronic disease, and that the gov't knows."

Conferences

Lollapaloozas of Liars

Renting a stage and performing together in person is the highest form of Theater. The same holds true for a national security theater. Public is a stage in the world of podcasting.

Non-Profits

Monetized Public Time Wasting

Non-profits that pay their officers corporate salaries are obvious frauds. When an organization has millions of dollars in funding and makes no progress, that's treason.

Fictional Folks

These are not real people

Most Fictional Folk have well documented video of their origin story. Many have been asked to testify before Congress about their suffering. All of them have been taken seriously as adults despite not being serious adults at all. Tucker Carlson is at the center of the Fictional Folks Network. Like Donald Trump, he is playing a parody of himself in public and online. They are all improvising on the same anti American script based on the existence of the Great Pandemic Mystery of 2020 and its basic working assumptions.

Virtual Drama

They make each other real

Cast members will argue about various plot lines in public and online to make each other real. Things get really wild between cast members sometimes. They can even sue each other!

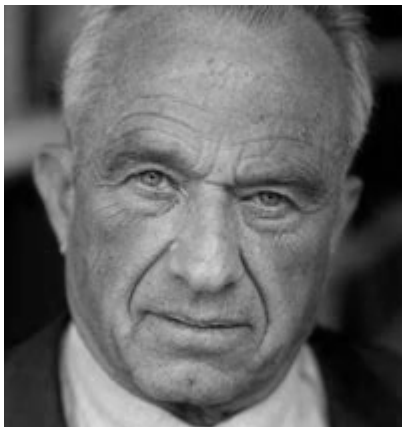

Team Worst Case Scenario

Scripted Improvisation on a NEED TO KNOW BASIS

One Big Show

Making SARS-CoV2 Real

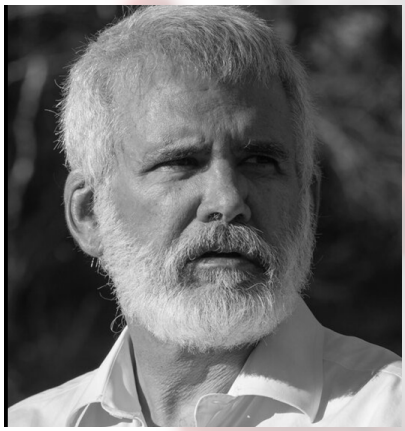

The Pandemic was an Mystery Theater that took place in the minds of people using the military social network simulations commonly called “social media”. Actors were trained in the years leading up to the Pandemic to play themselves in a scripted improv technique called Podcasting. T.W.C.S. Podcasters platformed guests provided by the Theater who then taught them and their followers the working assumptions of the Great Pandemic Mystery Theater of 2020.

Robert F Kennedy Jr

Addict Author Genius

This man is the vicitm of a life long Truman Show. People convinced him long ago to enact a script they told him might lead to the White House. He is still stuck in imposed life fantasy. He has no clue.

Robert Malone

Inder Verma’s Pride

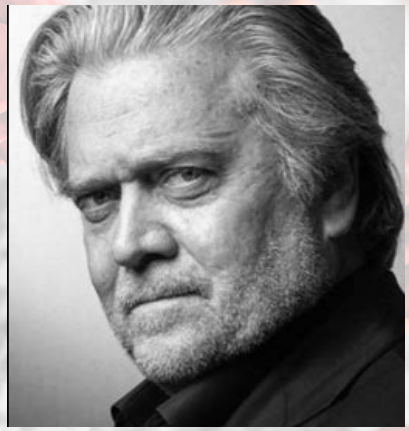

DTRA man pretending to turn whistleblower about mRNA. He and Meryl Nass are probably responsible for scripting RFKjr and Mary Holland. He is a life long liberal leftist as is his wife, Jill Glasspool. He knows.

Mary Holland

Steve’s Scripted Sister

James and Jimmie Holland had a few a kids. Mary is one of them. She runs a fake non profit that fights for kids’ freedom and stuff. Her brother Steve works for Tony Fauci, so essentially so does she.

Steve Bannon

Goldman Sachs Bollywood 9/11

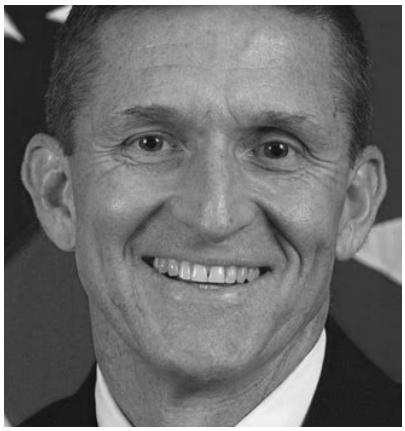

Steve Bannon is a Goldman Sachs insider who made 9/11 real with a movie. He made COVID real by introducing the world to Li Meng Yan in 2020. He also platformed Steven "Anthrax" Hatfill in 2020. He knows what he has done.

Jeffery Sachs

Vatican UN Covid Origins

The most frequent speaker at the Vatican, and a regular at the UN assembly, Jeff Sachs headed the "COVID is Real" Lancet commission. He is a central Narrator for the Overclass. He wants America to end and a UN take over of global affairs.

Michael Flynn

Cyber Warlord Loomer Promoter

The OG leader of the Fictional Folks Network, Michael Flynn gets to do whatever he wants. He and Roger Stone promoted Laura Loomer for gov't office which should be forever disqualifying, nevermind his scripting Qanon.

One Dumb Script

The Spike Protein Mythology

The Central Dogma of the Great Pandemic Mystery was the existence of the Spike Protein. The target of the Spike protein is the ACE2 receptor: One is the lock and the other is the key. The Spike has a number of special parts with fancy names like furin cleavage sites, HIV inserts, and amyeloidogenic motifs. They chose this protein for the vaccine. All T.W.C.S. members are required to reinforce the existence of the viral Spike, and its presence in the vaccine at all times.

Supporting Cast (US)

Kevin McKernan

Pothead Dropout Genius

This man was teaching PCR testing to former world bank employees who podcast in February 2020. He has been working to save the world from Mystery Spike Protein ever since.

Steven Hatfill

Huge Fan of Bruce Ivins

This man said Barney the Dinosaur should wear a mask to normalize it for 2 year olds. He said a rubber apron was good protection against kids with COVID. Lab leaks happen all the time where he's from.

Meryl Nass

CHD's Anthrax Blogger Patriot

She was blogging before blogging was cool. She is a deep woods doctor that only comes out for Google Xmas parties and Door To Freedom special events. She has been pretending for decades.

AMERICA'S FRONTLINE DOCTORS

Children's Health Defense

DOOR TO FREEDOM

BROWN

I N S T I

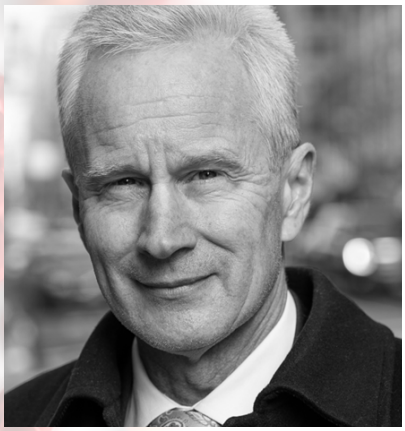

ICAN Informed Consent Action Network

Pierre Kory

Went to NYC to Save People

He is one of the new COVID recruits. His special skills are crying on command and taking old men on beach vacations. He has an Amazon book about ivermectin, so he must be a real patriot good guy.

Peter McCullough

Serious as a Heart Attack

He published a collab with J.Rose before she was famous. He made hydroxychloroquine a real alternatve like Kory did for ivermectin. He and Kory have been all over the world making the Spike Protein real.

Ryan Cole

Pimple Popper PCR Pimper

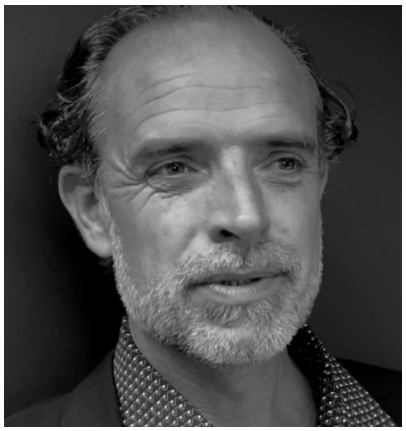

Ryan Cole has more shoes than most other men. Ryan was a skin doctor that made PCR testing his passion in 2020. He made COVID real by advocating for natural immunity like Mike Yeadon did.

INDEPENDENT™ MEDICAL ALLIANCE

NSTONE

T U T E

Supporting Cast (Interna

Nick Hudson

Actuarial Wine Expert

Nick founded a group called PANDATA based in South Africa, a real life Mos Eisley. I presented 3 times to their organization in 2023. All lost unpublished. He has attempted to be me ever since. Pure scum and villiany.

Jessica Rose

Five Degrees of Fraud

Her origin story includes surfing championships while stacking degrees five high. She is a virologist who knows how to Substack about Spike Protein and can fill a podcast guest spot with giggles. She liked the clone idea until she forgot it?

Clare Craig

PCR is Like Fast Food

A geneticist and pathologist working for the 100,000 genomes project in the UK before 2020. She taught PCR like McKernan did, and has made almost no progress ever since. She is now concerned with folic acid in bread.

PANDA
SCIENCE.SENSE.SOCIETY

HART
Health Advisory & Recovery Team

tional)

Michael Yeadon

Mr Lost His Sparkle

Fake Whistleblower with ties to Pfizer who taught everyone about natural immunity to coronaviruses in 2020. He was perhaps the most convincing of the early scripted actors from the UK. But in the end, he too made no progress.

G. Vandenbossche

This Time I Am Really Quitting

Long time colleague of Malone, this man was scripted to describe the worst worst case scenarios where the virus evades the imperfect vaccine and we all die a painful death. So far so good on this guy being a clown.

John Campbell

Nurse Ratchet Up the Views

Nurse John is the Gold Standard for Scripted Podcasting. He was scripted to talk about aspiration of needles early on in the Show. He has promoted this limited idea as a working assumption for years without ever progressing.

Special Players (No Virus

Mark Bailey

Farewell to Virology

This man worked way to hard to claim he disproven virology. In the end, he wrote a deceptively titled essay and made no progress. This guy was scripted to never undersand the term infectious clone like so many others.

Sam Bailey

Failed the Audition

I contacted Sam early in 2020 and she replied that she was pregnant. She never got back to me, but she also never made any progress in understanding. There was no SARS-CoV2, but after that, who cares? What is a population pyramid? Clone?

Thomas Cowen

Has many books about nothing

Everything about his man is fraudulent. He is unfortunately one of the best at making no progress in understand with regard to RNA virology while pretending to be way ahead of debunking it as a field. Tom is one of the worst men alive.

5 Person Podcast

These Cast Members did a group Podcast about me in 2023.

They did not address the term infection clone correctly.

Clowns)

Christine Massey

FOIA Reading Expert

This Canadian was probably fooled by her NO VIRUS colleagues into believe they were really doing something. She participated in my personal Theater at CHD by writing complaint letters to Mary that I was asked to address for CHD.

Andrew Kaufman

Working on Prison Bio Monitors

This man got a grant from NY state and shook hands with Cuomo accepting it. Then he said EXOSOME twice in 2020 and never again after Malone corrected his script. This man lived near Piper Stover, like down the street.

Denis Rancourt

Publishes Fake ACM Papers

This guy was given just one task. Make it seem like there was no expect rise in all cause mortality coming around the first world. He was to accomplish this will 100 figure papers that obfuscated it. He and I have met three times.

Elon Musk 5 $9

Autistic Inventor Patriot — Mythical Being

- Everyday Super Genius Dude to the skilled social media using first world
- No vision for the future beyond his given script
- Funds and Facilitates Idea Laundering that is scripted and algorithmically enhanced using military
- simulation software
- Opponents must discard one Imaginary He
- played as a podcast guest
- +4 confusion when played with female poc

Promoting Network cannot be cancelle

Candace "Charlie's Angel" Owens 8

Catholic Convert Crier — Pro Level Toady

- Plays role of Catholic Convert Internet Detective
- The Deion Sanders of Toad Eaters
- Can talk continuously for hours with a short list of bullet points; can cry on command
- Promotes only higher ranked imaginary beings and the myths they require to exist
- Can change alignment once per round; twice per game

Can Promote Fictional Adults to Hero 5/5

Peter Thiel 9 $7

Gay Vampire Patriot — Mythical Being

- Online Entrepreneurial Deity to the skilled social media using first world
- No vision for the future beyond his given script
- Funds and Facilitates Idea Laundering that is scripted and algorithmically enhanced using military network simulation software
- Opponents must discard one Imaginary Hero when played as a podcast guest
- +4 damage when played with masculine podcaster*

Promoting Network cannot be cancelled 12+4*/12

The Goal

Making These Actors Real

The Ultimate Goal of the Great Pandemic Mystery Theater was to discredit the very idea of the United States of America in the minds of the social media using First World. On a more practical level, the G.P.M.T. was required to make sure the social media using First World blamed everything they were to be told was real on his presidency and Trump alone. Trump was already real in most minds before 2020 as is evident in the widespread script regarding Trump Derangement Syndrome. But making the consequences of Trump a shared experience around the world--including blaming an Iran War and world economic disaster on him--would require much more. The Great Pandemic Mystery Theater took place exclusively on international social media platforms, with all of the mystery solving work scripted to happen there. Main stream media ignored or dismissed it, making it more real. Scripted Podcasters were made real by public targeted censorship around the first world, and some were even allowed to claim legal damages to make the censorship definitely real. Podcasters were scripted to rally around Robert F Kennedy, Jr. and acknowledge the existence of a Health Freedom Movement called M.A.H.A. The censorship led to a fight to save 'free speech' online, and Podcasters were then scripted to thank Elon for saving free speech like selling supplements. Yada yada yada Iran War with an energy crisis incoming.

Every social media user that still believes something real is happening there is essentially enslaved. The Cast will now claim the audience fooled them and Trump is a traitor to democracy (not America). The Iran War is a theater that hides the controlled demolition of the Free West and the very idea of America.

Basic Podcaster Recipe

Quick & Easy

The most important ingredient is a person that believes they are quite significant and unique. They should not have ideas of their own, but the notion that they do. That notion will then be molded by the baking expe-rience. If you do everything just right, the result is a fully formed expert on something entirely imagined.

1 Initiate a world-wide national security theater that all nations are required to take seriously at the start. 425ºF is generally sufficient heat. International agreements with preestablished conditions should be met on social media and TV with global awareness.

2 Mix the flour, flattery and seed funding at the set location. Add basic cameras and streaming equipment immediately. After add-ing promotion, faux censorship must be applied quickly or the dough will not rise. This step can be done months or even years before.

3 After the proving, the dough is technically already a Podcaster. However, the shelf life will be very short unless the Podcaster sauce is applied while still warm from the world-wide theater.

4 The Sauce should be made on a high heat. After mixing the non-profit funding and fellowships with conference appearances, three smart scripted podcast guests are required to make a Pod-caster believe enough in their work to continue.

5 While an Amazon book is not required, the addition of the book is quite easy and allows for adding faux censorship or promotion later. (Thanks Jamie Oliver!)

6 The strongest of Podcasters are those that are given special advi-sors, private properties, etc. While obviously all bakers cannot afford to throw in these additional ingredients, the longest lasting Podcasters have these ingredients as well.

7 Kid benefits are the best way to assure that your Podcast will not go off script, But there are other ways to assure your Podcaster will last, and ultimately that depends on your initial choice. If necessary, simply try a few combinations and go with what works.

BASE

1 cup	Podcasting flour
1/4 cup	Flattery
200ml	Basic equipment
100g	Set location
100g	Promotion
2 tbsp	Faux censorship

SAUCE

180g	Paid subscribers
200ml	Fellowships
3tbsp	Conferences
3	Podcast Guests
1	Amazon book
75g	Fake recognition
3	Special Advisors
180ml	Private chats
8tbsp	Private property
1/2 cup	Kid benefits
