## Why Bob Casey has got to go

Senator Casey voted for all four Bidenomics bills, fueling government spending and making life more expensive for all Americans. Thanks to his votes, the average Pennsylvanian household is paying:

- \$3,115 more on food since January 2021
- \$3,358 more on housing since January 2021
- \$3,033 more on household energy since January 2021
- \$6,636 more on household transportation expenses since January 2021

Bidenomics dug a \$20,591 hole in the pockets of Pennsylvanians, and Senator Casey held one of the shovels.

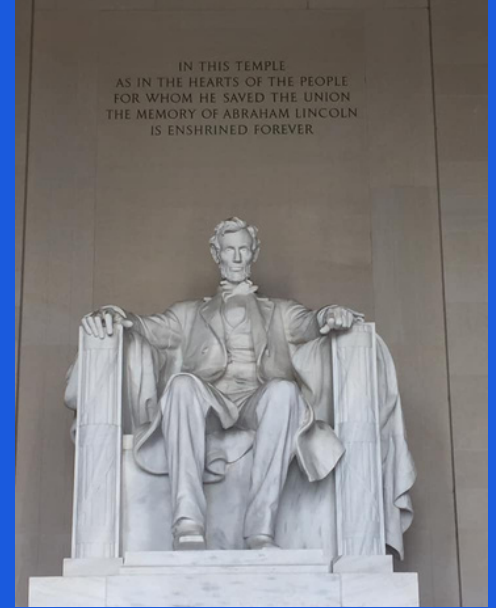

Casey now blames corporations for soaring prices, but businesses don't create inflation; government overspending does. Pennsylvanians are no fools; they know their lives are more expensive thanks to their Senator and Bidenomics.

## INFLATION & THE ECONOMY

Under Joe Biden, everything costs more, and Bob Casey has blindly supported every disastrous Bidenomics policy that has crushed Pennsylvania families and contributed to our debt spiraling out of control. He even voted to raise taxes on hard working Pennsylvanians while voting to give massive tax breaks to millionaires in California and New York. As a former CEO, Dave has experience creating hundreds of Western Pennsylvania jobs and eliminating wasteful spending. He knows what it's like to be responsible for the bottom line, and in the Senate he'll work to rein in government spending, oppose tax increases, and exercise fiscal responsibility to lessen the burden on the people of the commonwealth.
