Fight for your children who are here

Title Nine - The issue of abortion has a lot of Republicans wringing their hands over how to address the issue. Most agree that it should not be a federal response but left to the states. After that opinions diverge.

But what about our already living children? The ones who are roaming the earth right now? Are we doing enough to protect them? President Biden, by executive order, changed the language in Title IX and, as such, the intent of the law when he changed the definition of "sex" to include gender identity. The law now allows anyone to simply claim they are a woman, compete in women's sports and

invade women's locker rooms. In pandering to less than 1% of the population, President Biden has endangered the 51% with the stroke of a pen.

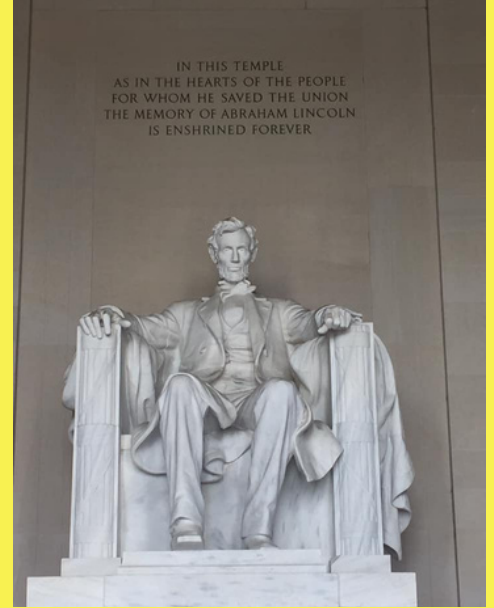

Story after story has been emerging of young women being hurt while playing sports against young men identifying as female. We are now hearing of men shaving, showering and walking around naked in women's locker rooms. This is not progress. This is an invitation to disaster.

Additional “benefits” from Title IX

Removal of Due Process

Also written into this new version of Title Nine is the removal of the right to a free trial if someone on a college campus is accused of sexual assault. The right to a fair hearing and the right for the defendant to confront the accuser or even offer exonerating evidence will be removed. Under Title IX, an accusation of wrongdoing equates to guilt.

The revisions are set to take effect August 1st, though 26 states are currently fighting back. Moms for Liberty has created a Fact Sheet with Calls to Action that can be accessed [here](#). Enough is enough and we need to fight for our children that are here now.

Our Beliefs:

- * A belief in smaller government, and by extension, a belief that the size and reach of the federal government should be limited.
- * A belief that the proper function of government is to provide those few things that have to be done but cannot be done, or done well, by the private sector.
- * A belief in fiscal conservatism, embodied in limited taxation and limited government spending.
- * A belief in strong national defense to preserve the peace and protect our national interests abroad.
