WHO IS LONCIN?

Since being established in 1993, LONCIN has steadily advanced in industry. Initially producing components and engines, LONCIN became best known for its small power-equipment engines, where customers experienced quality and durability at a reasonable price point, building a reputation for outstanding value.

As the company grew, relationships were developed with other western OEM brands such as BMW Motorcycles in 2013 producing engines. Initially powering the 350 & 650 models, up to the present-day 850/900 platform.

Through years of collaboration, LONCIN has enhanced its manufacturing and R&D capabilities, fortifying its high-end production expertise.

Gradually, LONCIN has established a new R&D team and smart manufacturing lines under a broader brand development strategy, embarking on the creation of a premium ATV product line-up.

In 2023, drawing on their full range manufacturing experience, LONCIN launched the XWolf and UWolf series.

Offering a range of displacements and multi-functional applications, these products have set the market's direction, embodying the spirit of "Explore Your Way."

Looking ahead, LONCIN will launch more series of products, including LONCIN Motorcycle, SSV and new energy models, constantly filling the market gap and improving its ATV product line.

List correct as of July 2026.

Check www.loncinorv.co.uk for the latest updates.

XWolf 200

RRP: £2,750 ex. VAT

As the entry-level model in the Loncin range, the XWolf 200 was created so that everyone can access the utility of a Loncin.

This versatile 2WD machine is ideal for daily work tasks and getting you around the yard quickly.

Fitted with a tow hitch and front & rear racks as standard, it offers utility and practicality. Furthermore, it has an excellent finish, is compact, easy to drive with an automatic gearbox and comfortable riding position.

Belonging to the T3a category, the XWolf 200 comes equipped from factory with a full road legal lighting kit and can easily be registered with the DVLA by your dealer.

Come and try one!

XWolf 300

RRP: £3,625 ex. VAT

The XWolf 300 is the perfect partner, where simplicity and reliability are key.

Equipped with shaft driven 2WD rear axle attached to a single shock swingarm, the XWolf 300 prioritises a straightforward and durable design.

Powered by a liquid cooled single cylinder engine, controlled by Bosch EFI and run through a Hi/Lo CVT transmission, giving instant start up and versatility for speed or torque.

Equipped to a high standard with a winch, tow-ball, LCD display, 12v and USB sockets for power, it's ready to go all day.

And when the need arises, the XWolf 300 is equipped with a rear seat and is T3b homologated. As it has a full road legal lighting kit as standard, it can be easily registered by your dealer.

XWolf 550

RRP: £6,250 ex. VAT

The XWolf 550 is a versatile all rounder, delivering an exceptional balance of performance, premium build, and unmatched utility value.

At its heart lies a smooth and dependable 499cc liquid-cooled engine that thrives under the most demanding conditions.

Coupled to an advanced CVT transmission, it offers incredibly smooth gear selection and effortless drive-ability.

When the terrain gets more demanding the selectable two and four-wheel drive system complete with a locking differential offers maximum traction.

Built to handle long hours, day in day out, the XWolf 550 has electronic power steering to keep you fresh and comes with independent front and rear suspension that gives a comfortable and stable ride.

Coming equipped with heavy-duty luggage racks, tow hitch, winch, road legal LED lighting, onboard storage, both 12v and USB charging, this hard-working machine cuts zero corners.

KEY SPECIFICATIONS

Engine	Single Cylinder 4v SOHC

XWolf 700

RRP: £6,708 ex. VAT

The XWolf 700 is a step up to a true, large capacity machine. With impressive torque, ground clearance and a smooth ride, it makes heavy work feel feather light.

The liquid cooled 686cc single delivers 47hp and 66Nm of torque, pushing you and your machine forward, riding a wave of easy to deliver power.

Coupled to a wet clutch driven, CVT transmission, it offers very smooth power take-up and makes it ideally suited for heavy towing.

The on demand 2WD / 4WD system with diff lock, combined with Hi/Lo transmission gives the rider options to navigate any terrain.

Combining electronic power steering with independent front & rear suspension delivers outstanding ride quality, keeping the rider less fatigued, more productive and safer.

The XWolf 700 is equipped with heavy duty racks, tow hitch, winch, road legal LED lighting, onboard storage, both 12v and USB charging, this is a full-fat quad on a diet price.

KEY SPECIFICATIONS

Engine	Single Cylinder 4v SOHC
Capacity	686cc EFI

XWolf 700L

RRP: £6,875 ex. VAT

Stepping up to the XWolf 700L is a decision to prioritise your team.

Using the same liquid cooled 686cc single delivering 47hp and 66Nm of torque and a wet clutch driven CVT, the 700L adds a long wheelbase option to consider.

Maintaining the on demand 2WD / 4WD system with diff lock, combined with Hi/ Lo transmission, the extra 7 inches added to the wheelbase increases traction and stability even further.

The extra seat which can easily be detached, includes a large & comfortable backrest and grab handles.

While riding atop the independent front & rear suspension and maintaining control with the electronic power steering, the safety of your passenger is prioritised while also being completely road legal with both riders!

The XWolf 700L is still equipped with heavy duty racks, tow hitch, winch, road legal LED lighting, onboard storage, both 12v and USB charging.

KEY SPECIFICATIONS

XWolf 1000

RRP: £9,550 ex. VAT

When you jump on an XWolf 1000, you enter a new world of performance for an ATV.

Equipped for work or play, the 976cc V-Twin outputs over 100hp and 102Nm of torque, providing unbelievable acceleration and can pull huge loads even in the steepest terrain using its Hi/Lo CVT with selectable 2WD/4WD & diff lock.

Power is nothing without control, which is why the XWolf 1000 comes with 3-stage adjustable Electronic Power Steering, adjustable suspension with up to 10 inches of travel and a massive 12 inches of ground clearance.

The large colour LCD display gives the rider all the essential information including speed, gear, drive-train selection and much more.

All the usual features you expect from a top of the range Loncin are here including alloy wheels, winch, wet clutch driven CVT and powerful road legal LED lighting.

KEY SPECIFICATIONS

Engine	V-Twin 8v SOHC
Capacity	976cc EFI
Transmission	Wet clutch CVT Hi/Lo/N/P/R
Power / Torque	75kW (101hp) / 102Nm

XWolf 700 MUD

RRP: £7,833 ex. VAT

When the ground turns to a bog, the XWolf 700 MUD is right at home.

Built on the proven liquid cooled 686cc single, delivering 47hp and 66Nm of torque through a wet clutch driven CVT, it takes everything that makes the standard XWolf 700 so capable and prepares it for the most extreme wet and muddy conditions.

Aggressive, deep-tread mud tyres and a raised air intake let you wade through water and plough through mud that would leave an ordinary quad stranded, while the on demand 2WD / 4WD system with diff lock and Hi/Lo transmission puts the traction exactly where you need it.

Combining electronic power steering with independent front and rear suspension keeps you in control and comfortable, even when the terrain is at its worst.

Like every XWolf, the 700 MUD comes fully equipped with heavy-duty racks, tow hitch, winch, road legal LED lighting, onboard storage and both 12v and USB charging — a hard-working machine that simply refuses to get stuck.

KEY SPECIFICATIONS

Engine	Single Cylinder 4v SOHC
Capacity	686cc EFI
Transmission	Wet clutch CVT Hi/Lo/N/P/R

XWolf 1000 MUD

RRP: £10,900 ex. VAT

The XWolf 1000 MUD is the ultimate in the XWolf range, flagship power matched with genuine go-anywhere ability.

At its core beats a 976cc V-Twin that outputs over 100hp and 102Nm of torque, delivering incredible pulling power in the deepest terrain through its Hi/Lo transmission with selectable 2WD / 4WD and diff lock.

Purpose-built for the mud, it rides on aggressive deep-tread tyres, with a raised air intake and heavy-duty underbody protection to shrug off deep ruts and debris.

The XWolf 1000 MUD keeps the 3-stage EPS, adjustable suspension and 13.5 inches of ground clearance, so you can pick your line and keep moving.

All the usual top-of-the-range Loncin features are here too, including the large colour LCD display, winch, wet clutch driven CVT and powerful road legal LED lighting. When the conditions are at their most brutal, this is the machine that keeps going.

KEY SPECIFICATIONS

Engine	V-Twin 8v SOHC
Capacity	976cc EFI
Transmission	Wet clutch CVT Hi/Lo/N/P/R
Power / Torque	75kW (101hp) / 102Nm

UWolf 1000

RRP: £13,800 ex. VAT

The UWolf 1000 is where serious workload capacity meets true off-road ability.

Powered by a 976cc V-Twin producing 95hp and 108Nm of torque and with 3-drive modes, through a Hi/Lo CVT with selectable Turf mode, 2WD / 4WD and a diff lock, it has the muscle to haul heavy loads, tow with ease, or tread lightly depending on your scenario.

It's fully road legal, with seating for three across the cab and a tipping cargo bed with 545kg load capacity, it's built to carry your team and your kit at the same time, making light work of moving materials around the yard, site or beyond.

Riding on full independent suspension with 300mm of ground clearance and 3 stage electronic power steering, the UWolf 1000 stays composed and comfortable whether you're crossing rough terrain or covering miles on the road.

Equipped with a winch, LED lighting, onboard storage and both 12v and USB charging, it's a genuine do-it-all utility vehicle ready for whatever the working day throws at it.

KEY SPECIFICATIONS

Engine	V-Twin 8v SOHC

UWolf 1000L

RRP: £14,950 ex. VAT

Stepping up to the UWolf 1000L is all about bringing the whole team along.

Using the same V-Twin and transmission as the UWolf 1000, the 1000L adds a longer wheelbase and a second row of seating.

With room for six and the same tough tipping cargo bed, it's the ideal choice when you need to move people and materials together — getting your crew and their equipment to the job in a single trip.

The longer wheelbase adds even more stability, and riding on full independent suspension with adjustable electronic power steering and drive modes, every passenger stays comfortable across the roughest ground or the longest days.

Just like its shorter sibling, the UWolf 1000L is fully road legal and comes equipped with a winch, LED lighting, and both 12v and USB charging — a hard-working crew vehicle that can get your team where they need to go, no matter the terrain.

KEY SPECIFICATIONS

Engine	V-Twin 8v SOHC
Capacity	976cc EFI
Transmission	Wet clutch CVT Hi/Lo/N/P/R
Power / Torque	71kW (95hp) / 108Nm
