

RUSS LEMING

Before graduating from Point Pleasant Borough High School in 1978, Russ Leming made his mark on the football field. During his senior year Russ was elected to the *New York Daily News* All State Team and the *Asbury Park Press* All Shore Team. WOBN Radio chose him twice as the player of the week and offensive player of the year. Russ helped Ocean County to a huge victory over Monmouth County in the inaugural All Star game. Russ was also named Ocean County leading scorer, ground gainer and Player-of-the-Year in 1978.

Since graduating from high school, Russ passed his love and knowledge of sports on to youngsters of all ages. He has had success in coaching youth basketball and soccer and in the Junior All American football league in Southern California.

In 1997 Walt Disney Imagineering recruited Russ from Fluor Daniel, a petrochemical company, where he was employed as a Engineering Analyst for eight years. Disney was getting ready to install three new parks, Animal Kingdom in Disney World, Florida; Tokyo Disney Sea in Japan; and Disney California Adventure in Anaheim. With these three new projects, they needed someone with much experience in CAD and implementing computers to users in a timely fashion. Russ is currently the Senior CAD Analyst for the Walt Disney Imagineering department.

Russ has been married for 17 years and has 3 children. His family has joined his love for the sporting world. His wife, Scottie, besides being a successful attorney, is the Director of Operations for Tour Pacific Cup, the nation's largest roller hockey tournament company. His eldest daughter, Allison, is the Marketing Coordinator for an event managing company in San Diego, which plans celebrity golfing events. His son, Ian 14, plays on a nationally ranked roller hockey team and has already won state championships in ice hockey. His youngest daughter, Riley 10, also plays hockey and basketball and looks to be the next best Leming athlete.
