

Since 1976, the federal Hyde Amendment has protected taxpayers from being forced to pay for other people's abortions. It has been included in every federal budget for more than four decades.

President Biden and pro-abortion leaders in Congress are now attempting to pass a federal budget that removes the Hyde Amendment. If they are successful:

- "Free" abortions will be provided with your tax dollars.
- Abortions will increase massively.

Michigan banned state tax dollars from paying for abortions in 1988. In one year, abortions declined by 22%. Since then, our state version of the Hyde Amendment has saved an estimated **252,855** lives.

Millions of lives are at stake. Your rights are at stake. Take action today!

Contact the U.S. Congress and tell them to save the Hyde Amendment.
