

# Apologetics Quick Guide

This quick guide will help you to remember the tools to have effective conversations about abortion!

## Why should you talk about abortion?

Abortion is the greatest human rights injustice of our time. In America, over 2,800 babies are killed every day by abortion.

The victims have no way to protect themselves, or even speak up for themselves. We must be the voice for the voiceless!

## The Pro-Life Position

It is wrong to intentionally kill an innocent human being.

Elective abortion intentionally kills an innocent human being.

Therefore, elective abortion is wrong.

## The Key Question: What are the unborn?

**One of Us:** A human being with value and human rights

OR

**Not One of Us:** A lesser human being who is disposable

## The Human Rights Argument

1. Do you believe in human rights?
2. Who should get human rights?
3. If the unborn are human beings, and all humans should get human rights, doesn't that mean abortion is a human rights violation?

## Conversation Strategy

### Common Ground

Find something to genuinely agree on and build trust

### Analogy

Create a parallel situation to abortion (often with a toddler)

### Question

Why can we take the life of the unborn child, but not the toddler?

# Pro-Life Activism Resources

Want to grow your knowledge and skills to be a better advocate for the unborn? Check out the resources below!

## Books to Read:

- Stuck – Justina Van Manen
