

Environment Policy

Granite recognise that in managing their activities they have a responsibility to customers, employees and the general public.

They have therefore adopted an environmental policy, which incorporates the principles of sustainable construction.

The aim of this policy is to:

- Ensure that all applicable legislation, regulations and codes of practice are adhered to on all sites and works

- Promote environmental awareness and commitment to the policy amongst all employees
- Avoid the wastage of materials, water and energy by paying careful attention to their use
- Always seek to use wherever possible, materials from renewable sources and recycled or recyclable materials
- Encourage customers, where possible, to adopt the principles of sustainability
- Undertake permanent works to:
 - Minimise pollution and the use of energy during their occupation,
 - Minimise the use of raw materials during construction,
 - Minimise waste during construction,
 - Improve the landscape, and
 - Retain natural features where possible.

- Plan carefully to prevent pollution and minimise environmental disturbance as a result of our activities

In order to achieve this, it is the policy of **Granite** to operate an Environmental Management System.

Granite is committed to the following:

- Take expert advice when necessary
- Reduce the impact of our projects on neighbouring communities and keep local people informed of our activity
- Minimise noise, dust and mud
- Control traffic movement and parking
- Comply with legislation, planning conditions and employ good practice
- Prevent pollution into the air, the ground and watercourses
- Protect wildlife and trees
- Protect materials to reduce wastage
- Segregate unavoidable waste and recycle wherever possible
