Consultancy Areas

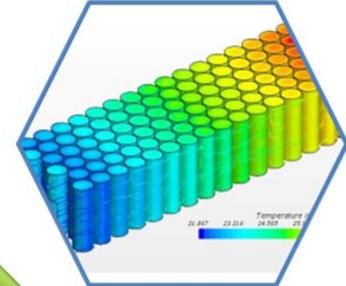

E-Mobility Development

Resource

IST's USP

E-Mobility Simulation

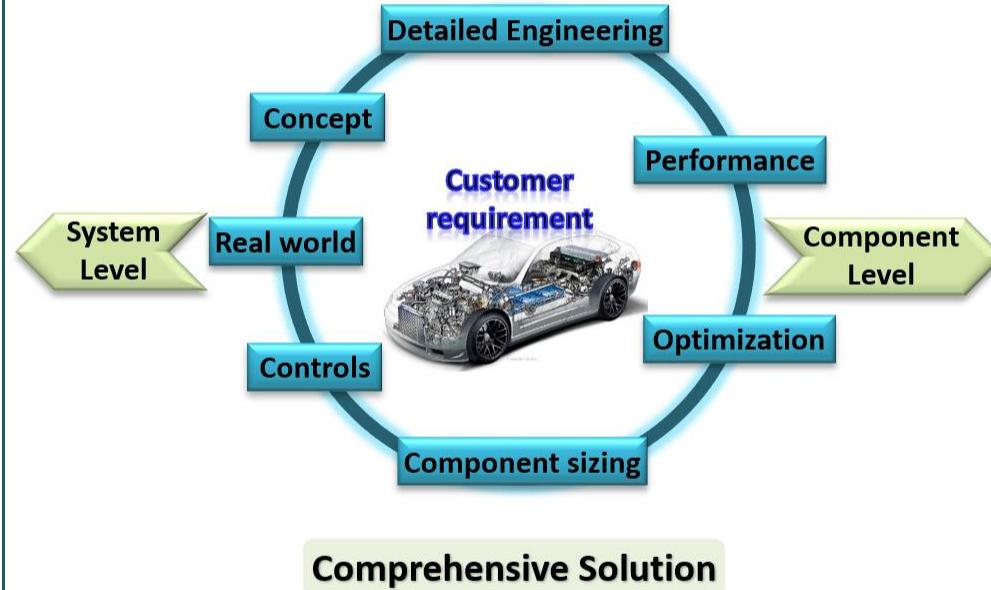

Staff Augmentation

Customer Requirement

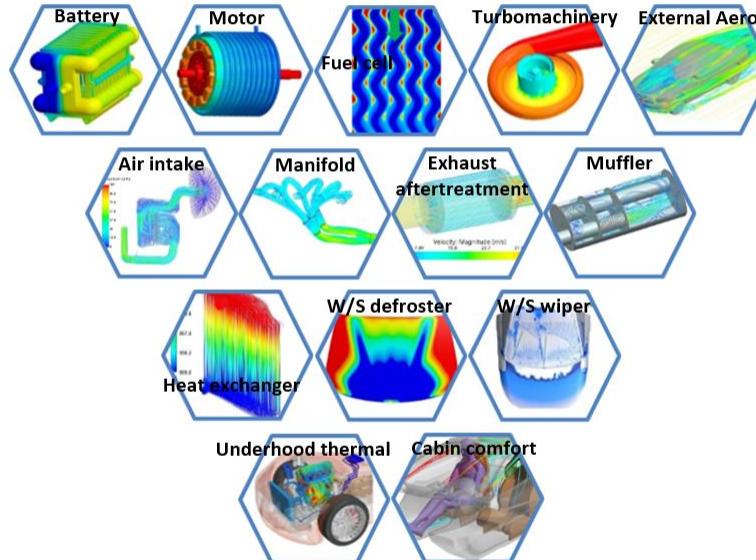

IST's Consultancy

eMobility Simulation: 1D System Level Simulation

Expertise Ownership Cost Competent GT-SUITE Matlab/Simulink

Domain

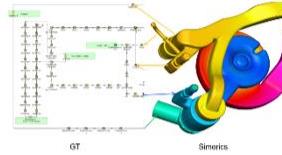

Physical phenomenon

- Steady state/ transient
- Compressible/ incompressible
- Multi-phase/ Volume of fluid (VOF)
- Conjugate heat transfer (CHT)
- Moving reference frame (MRF)
- Moving mesh
- Electromagnetic

Expertise Ownership Cost Competent Star-CCM+ Ansys Fluent

eMobility Simulation: Co-Simulation

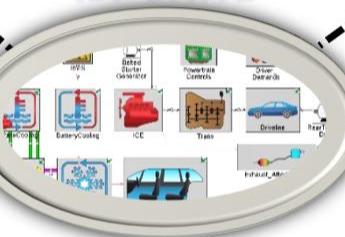

3D CFD

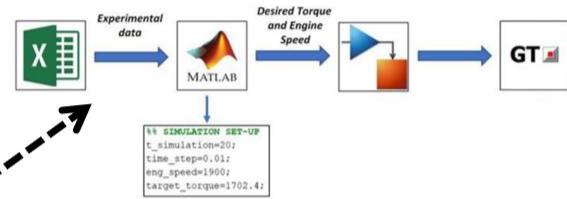

- StarCCM+
- Fluent
- GT-Auto 3DFlow
- Converge

- Manifold
- Aftertreatment
- Cylinder water jacket
- EGR mixture
- Underhood cooling system

GT-SUITE

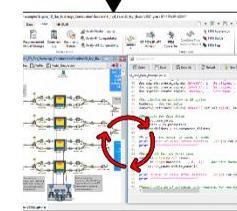

Matlab, Simulink

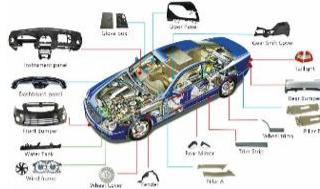

- Matlab scripting
- Simulink harness
- FMU (Functional Mock-up Unit)
- FMI (Functional Mock-up Interface)

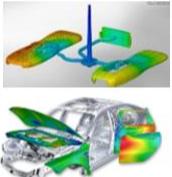

Python

- Python scripting

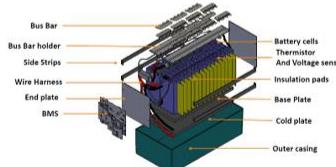

- Exterior
- Interior
- Underhood
- Lighting
- Safety

- Mold flow
- Die casting metal flow (HPDC, GDC, LPDC)
- Forming

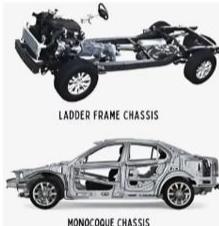

- Exterior panels & structural components
- Fabrication, casting, machining

- Cell holder
- Pack cover
- Bus bar
- Strips, clips

Battery ← **Wiring harness**

- Frame
- Powertrain & drivetrain
- Suspension
- Steering & axle
- Wheels & tires
- Brakes

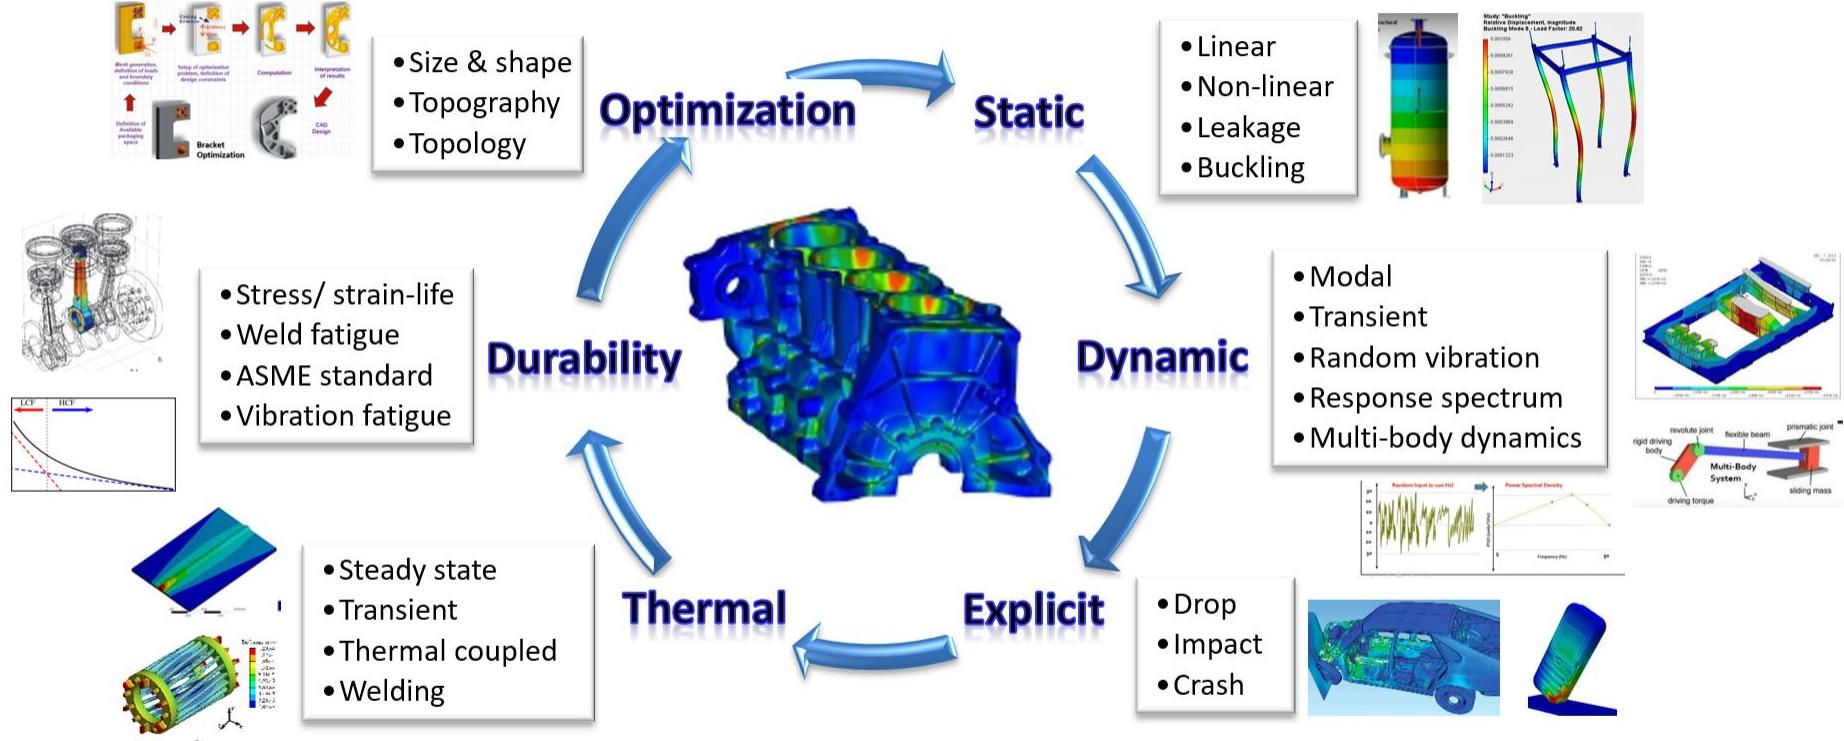

- High voltage
- Low voltage
- Connectors

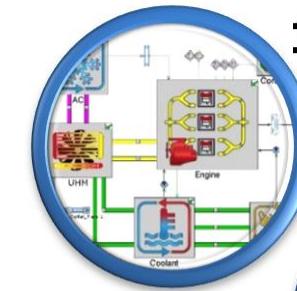

Expertise ■ Ownership ■ Cost Competent ■ Multiple Software

eMobility Simulation: FEA

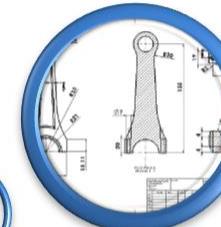

Expertise Ownership Cost Competent Multiple Software

Staff Augmentation: Domains

1D Simulation

Design

FEA

Data Science

3D CFD

Electrical & Electronics

Matlab/Simulink

Cost Effective **Zero Lead Time** **High Quality Engineers** **Prompt Response**

Staff Augmentation: In-house Resource Creation

6. Strong feedback mechanism:

Corrective measures or impart additional skill & knowledge

High quality & Zero lead time

5. Robust mitigation plan:

Buffer resources to deal with attrition

4. Fast ramp-up:

Desired competency & skill by in-house technical experts

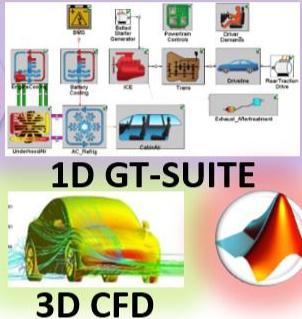

3. Product knowledge:

Engineers are with excellent product knowledge

1. Expert driven:

>24 years of experience in 1D & 3D CFD

Matlab/
Simulink

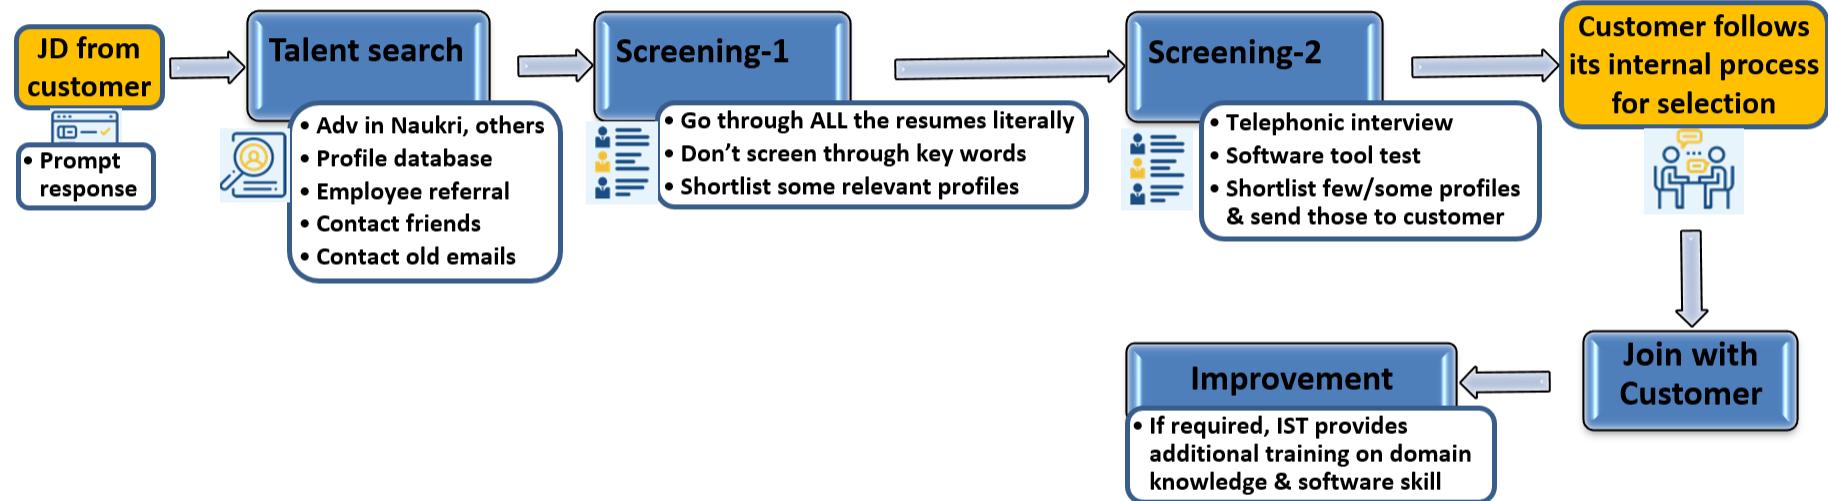

2. In-house resources:

1D, 3D CFD and Matlab/Simulink engineers

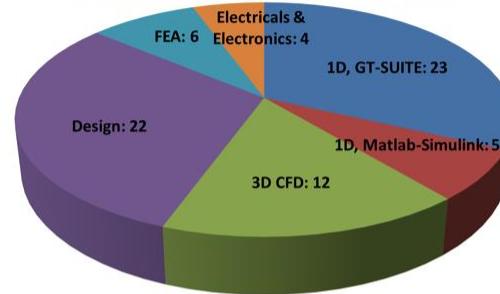

Staff Augmentation: Resource from Open Market

Our customers really appreciate about this SPECIAL process...!

Staff Augmentation: Resource Strength

Engineers in Different Domains (72)

Subir Mandal

- **Founder & Director, Head of Engineering (IST)**
- M.Tech. in Thermal Engg., IIT Kharagpur
- 24+ years experience in E-mobility, ICE, Aircraft engine
- 1D & 3D CFD simulation
- GT-SUITE, Ansys Fluent, Star-CCM+
- Rolls-Royce Power System (MTU), ESI Pacific Mindware, Cummins, GE Aircraft Engine

Ankit Verma

- **Manager – CAE (IST)**
- 3D CFD, Design, FEA
- M.Tech. in Thermal Engg., NIT Agartala
- 6+ years experience in E-Mobility, ICE
- Star-CCM+, Ansys Fluent, ANSA

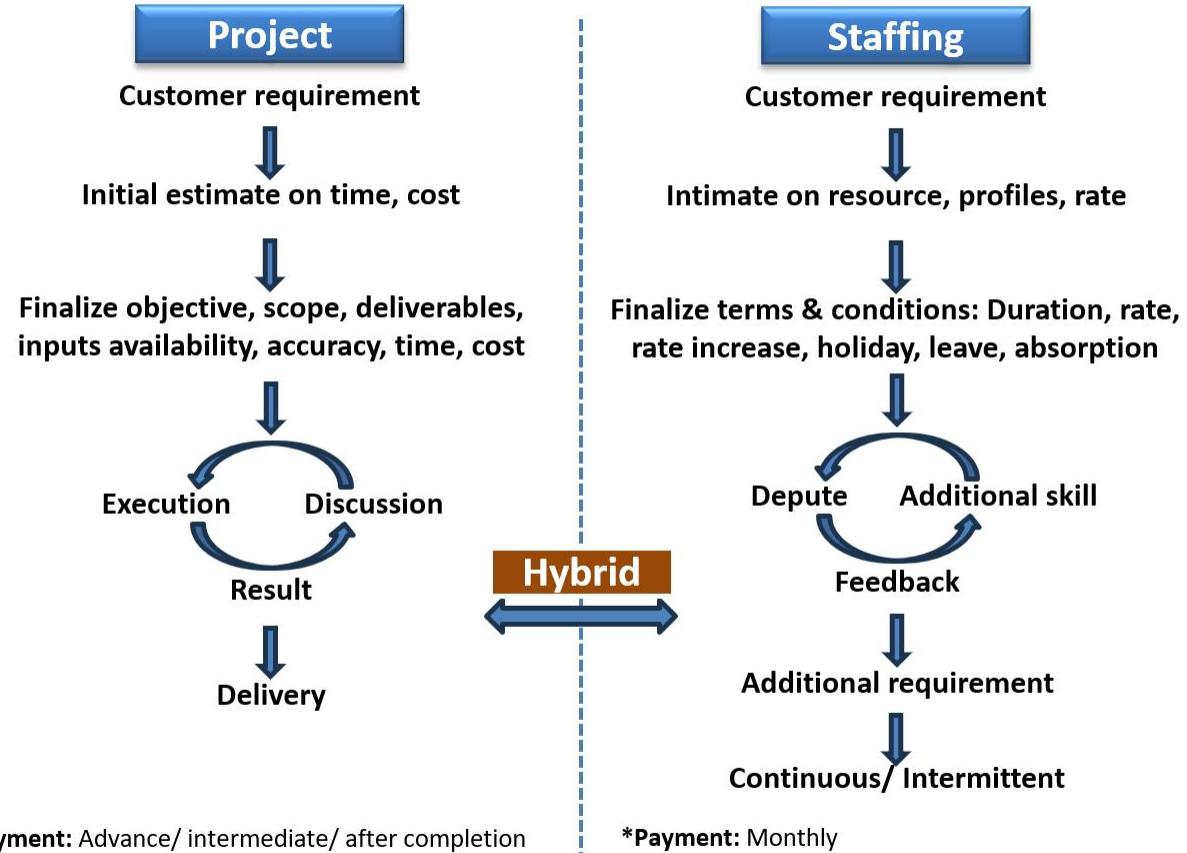

Pankaj Devade

- **Manager – System Level (IST)**
- 1D simulation
- M.Tech. in Heat Power, GCoE Karad
- 6+ years experience in E-Mobility, ICE
- GT-SUITE, Matlab, Simulink, Simscape

Staff Augmentation: Techno Matrix

Customer's Expectation	IST's Approach	Self Evaluation	Success
1. Cost effective	Competitive price Value for the cost	9	1. Started in 2017 with 1D Simulation as the core domain, we have over 72 engineers working in multiple domains. 2. Customers in staffing – 11 customers.
2. Lead time	Prompt response In-house resource SPECIAL process from open market Data base for resumes	9	
3. Quality	Huge technical database Trainer with rich industrial knowledge & software skill Rigorous filtration from open market Knowledge & skill enrichment	9	
4. Knowledge & skill enrichment	Feedback Weakness/ New domain Session Partners	9	
5. Retention	~4 years Good salary Proactive knowledge & skill enrichment Commitment	8	
6. Replacement	15-20% bench strength 2-3 months notice period	8	
7. Absorption	As per the agreement	9	
8. In-house setup	Excellent in 1D, Matlab/Simulink & 3D CFD Good in Design & FEA	8	

Working Model with Customer

Collaboration with GT (Gamma Technologies, USA)

GAMMA
TECHNOLOGIES

Products & Services Industries & Applications Resources Why GT? Careers **Speak to an Expert** [|](#) [Register](#) [|](#) [Q](#)

Gamma Technologies frequently receives requests from companies who wish to outsource GT-SUITE simulation projects. While we are pleased to receive such requests, GT's primary focus has always been on providing the best and most advanced simulation software, rather than on consulting services. For this reason, GT refers such requests to professional consulting firms. It is in this spirit that we have established the "Consulting & Services Providers List" program, listing high quality consulting firms experienced in the use of GT-SUITE, which have built long term relationships with Gamma Technologies.
