Making pension choices is unavoidable. We'll help you make the right ones.
Join us. Job done.

Making decisions affecting your pension income at various stages of your career is unavoidable. But making the choices that work best for you and your family can involve complex calculations.

For example, choosing the best time to leave can have a significant influence on the value of your pension. Deciding whether to buy pension top-ups, applying for commutation, resettlement grants, early departure payments - all have a bearing on your pension.

And now even greater complexity has been added as a consequence of the so-called MacCloud Remedy. This affects all those serving on or before 31st March 2012 and on or after 1st April 2015 (including service leavers). You will have to choose between the entitlements of your legacy scheme and APPS 15 for the Remedy period. This decision will need to be made from October 2023 onwards.

It's hardly surprising that our membership numbers keep growing and our Forces Pension Consultants are busier than ever, providing individual guidance to our Members.

Independent, not-for-profit
Independence is vital to our work, allowing governments to account whenever we act unfairly or ineptly in the system. We do not give advice or represent anyone, we represent the British Forces and Public Sector Pensioners.

We are funded by our Members' subscriptions, the support from our subsidised programmes of Resettlement, Welfare and our attendance at CDF Employment Fairs.
