Notes:

It was discussed that we would promote and advocate for world peace by organizing events that encourages people from all walks of life to come together to build healthy peaceful relationships and to realize that peace is the best solution.

Peace, actually takes effort to put constantly dissolve misunderstandings and communication between people that may cause conflicts.

Instead of fixating on disagreements, focus on things we have in common. Flip the focus to good and not bad.

Basically we need to move on from the old mentality and the only way to do that is to actually create situations of peaceful interaction in hopes that it will create a ripple affect.

Ameer motioned to approve website address [worldpeaceadvocates.com](http://worldpeaceadvocates.com) or use [godaddy.com](http://godaddy.com) to post minutes and bylaws,

All approved

Eunice motioned to create a link so people could donate. All approved.
