William,

Thank you for your email

I was concerned that at the meeting there seemed to be a lot of misinformation that had been provided to the community, that meant that when I arrived it was a very unfriendly group to say the least. Several people even came up to me to tell me I was "brave" to even come to the meeting.

I can only assume that some of this misinformation had been provided by your group.

After correcting quite a bit of this misinformation, I felt that many in the room were more comfortable with what council was doing, including working with ratepayers and locals on what this area should look like in the future.

As council has advised you and your group, on several occasions, that consultation and discussion will take place in a couple of years time, after the Murrumbateman and Yass master plans have been completed.

I have also had several emails thanking me for alleviating some of the fears and anxiety that had been created in the community.

I have cc council so your email is noted.

Kind regards,

Rowena Abbey  
Mayor
