

Package 3

# THE FULL STORY

£3000

This package is for the real love doves, the adventurous and artistically minded.

Its special and can be tailored to you. Everyone has a passion for something right? Whether it be something you both do together as a couple, or you may have your own hobbies that mean so much to you that you would love to include this in your wedding film. It could be something as simple as those early morning dog walks, it could be something extravagant like rock climbing. Whatever it may be i would love to spent some time with you and capture it to better tell a story of you both & your relationship as a whole.

This package includes everything in the feature but instead of a 7+ minute film you will receive a 40 minute film documenting your love story.
