Hello Juni!

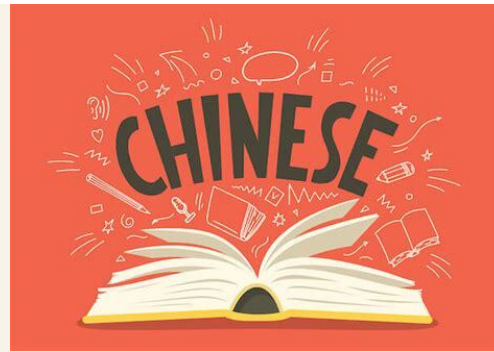

We understand that not everyone likes to read in English. We want to welcome a global community and so we invest in translations from English to other major languages spoken across the world. We decided to start with these 5, and as we grow, we'll keep investing in other languages.

Check out these 5 translations (Arabic, Simplified Chinese, French, Spanish, and Tagalog) of our web app. If you're able to help with translations to other languages, don't hesitate to [contact us](#)!
