

## ACTIVATION: Dream Interpretation

### ~~Introduction:

Those in leadership at Glorious Church Ministries, understand that JESUS is our primary Teacher here. There is no better Teacher we could possibly have. We encourage personal time in His Presence as the Holy Spirit teaches us directly what God is saying through our dreams. This builds our personal intimacy with the Lord. We believe that when we lay our head down at night and place ourselves in His hands, God uses these night time hours to show us things, revealing things about our lives to help us on the journey. Most dreams are symbolic, so this exercise with the Lord helps us understand the elements within our dreams as the Lord teaches us to interpret them symbolically, rather than literally. As we come to know how very creative our God is, dream interpretation becomes a lot of fun, as the Lord reveals what they mean to us directly.

### ~~Time With the Lord:

Go into a quiet room, a place free of interruptions. The important thing is to place yourself comfortably, whether it is laying down or sitting in a favorite chair. You may want to enter into this activation right before you head to bed, receiving dreams from the Lord. He will wake you during the night, right after a dream, and right then, while it is fresh, you have the opportunity to ask Him what He is saying through it. If you enter into this during the day, simply soak in God's presence and ask Him about a dream He has given you as you pray before soaking.

### ~~PRAY this prayer out loud or one in your own words:

"Thank You, Lord, for this time as You teach me what You are saying through my dreams. I place myself totally in Your hands, and trust that I am completely safe in Your Presence. I pray that I have more dreams in the days ahead, so that we can have fun together in these times, as You teach me. Sharpen all my spiritual gifts to be used to bring GLORY to You. I pray that as You teach me, I can be a blessing to others also, by confirming what You may be saying to them through their dreams when they share and for encouraging them, that You are the best Teacher. Thank You that my dreams are personal, just for me. Help me to understand when the dreams You give me are speaking to my life only, or whether they are meant for the Body of Christ, to be released in a public way. Use me, teach me, that I may bring GLORY to Your name each and every day, in Jesus' name....AMEN."

### ~~Enjoy God's Presence:

Relax, close your eyes and draw near to Him. Enjoy His presence for as long as you wish and receive what He is showing you. It may be His voice, a picture, or an impression. You may fall asleep whether during the day or night, and may receive a dream from the Lord. If so, engage Jesus in conversation the minute you wake, when the events of the dream are fresh. You may receive a "knowing" in your spirit, or He may communicate in a number of ways. He may show you something on the screen of your imagination. He may lead you to write out your dream and what He has revealed to you about it. You may want to keep them in a journal. It is nice to go back and read them over time.

### ~~Come back and share.....

Please come back and share whatever you'd like about your time with the Lord. If you get part of an interpretation and would like others to seek the Lord for what your dream may mean, be sure to write out your dream in full, with all the details from beginning to end. As you are learning from the Lord, our admins may give you just a little, a place to start with the Lord in conversation for the rest. We will not interpret your entire dream for you however, as the point is to draw closer to Jesus as He teaches you directly.

Be blessed as you have fun with the Lord, as He reveals and teaches you what He is saying through the dreams you receive. It is a wonderful thing to be in the Presence of the Lord! 🙏

📖 ~~Psalms 16:11 (ESV) "You make known to me the path of life; in your presence there is fullness of joy; at your right hand are pleasures forevermore."
