

Parent/Guardian's At-Home Daily Student Health Screening

We are in the midst of a pandemic, and having your child stay home when they are ill, experiencing signs and symptoms of a communicable disease, and/or when they have come into close contact with a person who has tested positive for COVID-19, is critical to minimizing the spread of illness to others. In fact, it could make the difference between disease control and outbreak.

Prior to sending your child to school each morning, parents/guardians are being asked to conduct the At-Home Daily Student Health Screening to determine if it is safe for your child to attend school.

SECTION 1 – COVID-19 EXPOSURE & SYMPTOMS			
	Has your child tested positive for COVID-19 in the last 14 days?	☐ Yes	□ No
	Has your child been in close contact (within 6 feet) with someone who has a confirmed positive or pending COVID-19 diagnosis in the past 14 day?	☐ Yes	□ No
	Has your child or anyone in your household been tested for COVID-19 (because they were experiencing symptoms, were in close contact with someone who had tested positive for COVID-19) and are awaiting results?	☐ Yes	□No
	Is your child currently ill with COVID-19?	☐ Yes	□ No
	TION 2 – SIGNS OR SYMPTOMS – PAST 48 HOURS your child experienced or is experiencing any of the following signs or symptoms listed b s?	elow in the	past 48
	Fever (100.4°F or higher)	☐ Yes	□No
