Envision Glasses are AI for your eye. They use the power of speech to make everyday life more accessible for any visual impairment. Identify the world, hands-free, through audio-based recognition. Pre-requisite: Smartphone or Tablet (iOS or Android)

**READ**

- Scan Text, Turn any text into speech with Scan Text. Be it handwritten notes, books or your favorite recipes. In over 60 languages
- Instant Text, Read any short text that's in front of you with Instant Text. Find everything from house numbers, the products you love or even your favorite vinyl.
- Batch Scan, Dive into a book that you want to read with batch scanning
- Export Text, Share the information you scan with export text

**CALL**

- Video Call, Call someone you trust to share your point of view, with Video Call. For a second opinion while shopping or exploring a new path.

**IDENTIFY**

- Scene Description, Get detailed scene descriptions anywhere. So, you know what's around, every step of the way.
- Detect Colors
- Recognize Currency, from over 100 countries

**FIND**

- Face Recognition, Find your colleagues or friends in an instant, with Face Recognition. Let's get those conversations started
- Object Recognition. Find missing items in no time with object recognition
