Envision Glasses

Envision Glasses enable you to read all kinds of text from any surface in over 60 languages. The smart glasses have the fastest and the most accurate Optical Character Recognition (OCR), enabling you to read street signs, handwritten cards and even your favorite book. Have short pieces of text spoken out instantly by just scanning around with the glasses. For denser text, like books, magazines or letter, just snap a picture and explore it as you wish. Read handwritten text like birthday cards, quick notes or even love letters.

Envision Glasses can describe scenes, detect colors and scan bar codes. Giving you information about what is in front of you, helping you choose the right dress and assisting you in picking the right products while shopping.

Get a description of what you are looking at. Get detailed color descriptions from any surface around you. Scan barcodes and know what product you are holding.

Ever lost your keys or had trouble finding a trash bin? Simply scan around with your Envision Glasses and it will find what you are looking for. It can even help you find your friend in a café or colleagues at your work. Easily find any object you are looking for. Recognize and teach Envision familiar faces.

Conquer any situation with video calling if you ever feel you need a bit of extra help, you can always call upon your favorite human.

Envision Glasses: **\$3,500**

Prescription Frame: **\$459**

eSight

eSight is your window into the world. Using a cutting-edge camera, it puts video directly in front of your eyes allowing you to see what is in front of you, near or far, in real time.

eSight combines bright, clear screens with a high-tech camera to let you see text up close or detail in the distance. You can switch between the two almost instantly. The visor flips up easily, for face-to-face interaction.

eSight is light, and its battery provides around 6 hours of regular use, on two external rechargeable batteries. eSight is also compatible with most conventional portable chargers.

eSight uses an array of sophisticated technology to let you see and be independent. Move about the world, return to hobbies, read, or simply see the face of a loved one. eSight lets you stop relying on others and empower yourself. When you need eSight to get out of the way, just flip up the visor to return to your own eyesight.

- 21.5 MP camera with liquid lens and 24x zoom to see both near and far.
- An array of sensors to detect distance, temperature, and orientation.
- Advanced UI with HDMI, Wi-Fi, Bluetooth, and removable SD cards.
- Two high resolution screens for full binocular vision that also integrates with prescription lenses.

eSight: **\$5,950**

eProtect warranty for one year
and Lifetime software upgrades

GoVision: **\$2,795**

GoVision Pro w/Full Page OCR: **\$3,495**

GoVision XY Tray: **\$269**

GoVision Case: **\$199**

Two year manufacturer warranty

GoVision and GoVision Pro are all-in-one, space-saving HD video magnifiers that combine all the best features of a desktop video magnifier with transportability and connectivity. Take GoVision wherever you need it to magnify text, view photos, check ingredients on food packaging, do crafts and much more. Use Self Video Mode for personal grooming or applying make-up before you leave the house. Take GoVision with you to use the Distance Mode with the 360-degree rotation to view a white board in the classroom or a presentation at work. GoVision's easy-to-use wired remote control makes it simple to capture printed text for OCR. Captured text can be read aloud immediately or saved for later use. Students can OCR capture library books or printed text materials then use their favorite pair of ear buds to listen without disturbing their classmates. GoVision PRO can even capture a full-page of text and offers premium features like the Guide Frame, Column Reading and auto-detection of languages for an even better OCR experience. GoVision and GoVision PRO can also open documents, PDF files, photos and videos saved from your computer or mobile device onto a USB flash drive.

Index: Basic D & Everest

IrisVision Live

- IrisVision 4.0 includes a new video player that allows users to stream online videos when on WiFi. The video player features voice-enabled search; users can simply double-tap the touchpad to activate this mode. Users can then scroll through search results to select a video to watch. Users are able to pause, play, and magnify the videos as they are watching.
- IrisVision 4.0 brings the much-awaited photo gallery to IrisVision users. Users can now take pictures and save them to an album to be viewed later. This feature can be turned on and off for students.
- IrisVision 4.0 comes with your own personal assistant now! Simply say “OK Google” to activate IrisVision Assistant. Say the name of a mode to automatically switch to that mode without any hassle, adjust brightness, take a photo, hear more information about the current mode, turn off the device among many other actions using IrisVision Assistant.
- Irisvision 4.0 introduces our proprietary new feature IrisReader, an advanced OCR (Optical Character Recognition) program with text-to-speech capability to read and display phrases and texts from documents, books, labels, menus, newspapers, and other media. The screen displays the text being read out in large, high-contrast font for easier reading.

Iris Vision Live: **\$2,950**
Two year limited warranty

MagniLink S

MagniLink can be connected to a computer or a monitor. Use the system in a classroom for viewing materials or to record a lesson or presentation with the video recording feature. The system can also be used as a regular video magnifier at home, connected to a monitor and docking station.

MagniLink comes with both HDMI and USB 3.0 connections and can be controlled by the integrated control box or from the computer's keyboard. The camera is available in HD or SD resolution.

Excellent image quality - There's no ghosting with 60 fps (full digital frames/second). High brightness and contrast (high quality light sensitive lens). HDMI connection and HD/SD progressive high resolution for flicker-free image and sharp edges. The result is an unmatched, superior image.

The latest technology - Super-speed USB 3.0 connection – ten times faster and backwards compatible with USB 2.0. HDMI connection to monitor – for fast and stable connection.

Lightweight and portable - MagniLink Student is always accessible; sets-up and is ready to use in virtually seconds. Place the system to the left or the right side of the laptop – the excellent design makes it flexible and shock resistant.

Powered by the computer - The user will never worry about battery strength or misplaced battery chargers.

Compatible with: ZoomText, Lunar, LunarPlus and Supernova

MagniLink Tab

The MagniLink TAB is a complete and mobile tablet solution with high performance and user-friendly operation. It's space saving design makes it ideal for use in different locations – perfect for people on the go!

This tablet solution based on a Microsoft Surface Pro with 12.3” screen gives the user a complete mobile solution. The unit is perfect for any smaller task, as well as for long term reading. Use it as a video magnifier with built in OCR, or as a complete computer with access to everything – gives endless possibilities!

Use the internal camera for reading or the high quality external camera for both distance and close-up viewing. This gives optimized possibilities for reading, writing and object viewing.

The high performance software is included, and with the built in OCR and Text to Speech, your text can be read aloud for the best possible experience. Several different viewing modes are available for increased reading speed, reading endurance and a more relaxed reading!

MagniLink TAB has a touch screen with low vision adapted buttons. You can also control the unit by gestures or connect a Bluetooth keyboard and control it by hotkeys. The functionality is adaptable to the individual user by removing and customizing features.

MagniLink TAB is easily connected to your network with WiFi, and you can use different accessories connected with Bluetooth. Internet and other standard applications are only a click away – with MagniLink TAB, you can easily communicate with the rest of the world!

MagniLink Vision

MagniLink Vision is a video magnifier that offers users with visual impairment all the functions they need at an attractive price. It is a modern, flexible video magnifier with an ergonomic, user-friendly design.

Plug & Play

Connect MagniLink Vision to a power socket, turn the on knob and you are ready to start using your video magnifier!

Easy for All

MagniLink Vision is very easy to use, which makes it very popular among elderly users as well. The control knobs are tactile and ergonomically placed directly on the integrated LVI monitor. The high-quality monitor is low vision-adapted with high brightness, good contrast and colour reproduction. The surface of the monitor is matt to avoid reflections. The monitor is size 23”.

Stable reading table and good image quality

The high-quality reading table has friction brakes in the X and Y axis. The brakes can be used to provide higher resistance when the reading table is moved sideways and/or forward & backward. They can also be used to lock the reading table during transportation.

HD picture quality

MagniLink Vision offers FHD picture quality (1080 p). The reading camera has a flicker-free, stable image with high contrast and clear colors.

QBraille XL

QBraille XL centers around an innovative hybrid keyboard with Braille keys at its center, surrounded by standard QWERTY modifier and function keys in their typical positions. QBraille XL offers traditional Braille Terminal mode, Keyboard Mode, or Hybrid Mode for traditional screen reader operation, standard keyboard connectivity, or Screen Reader output combined with standard keyboard input.

- High quality 40-cell braille display
- Innovative Hybrid keyboard
- Write in Braille, Command via QWERTY keys
- Seven simultaneous connections (1 USB and 6 Bluetooth)
- Stand-alone notepad and other apps
- Flexible and Versatile

QBraille XL helps you manage your daily activities and enhance your productivity with internal stand-alone applications such as Notepad, DAISY Reader, Calculator, Alarm, Stopwatch, Countdown Timer, and Calendar.

Read and save your documents, DAISY textbooks and Scheduler data to the SD card. You can use up to 32GB SDHC cards with QBraille XL, enough to store thousands of books and documents for reading on the go. Read Braille, text, PDF files and Word documents with QBraille's Notepad, and create and save text and Braille files. Connect QBraille XL to a computer, smart phone, or tablet via Bluetooth and stay connected throughout the day without the need for charging.

The groundbreaking combination of Braille and function keys means you no longer need your laptop keyboard, letting you get more done in less time. Use QBraille XL's arrow keys to navigate across tables, or use the dedicated control, shift, and arrow keys to quickly select text. QBraille XL makes it easier than ever to multi-task like a pro. Quickly switch between Windows, Mac, iOS, and Android devices for sending emails, performing Google searches, sending a text, or using your favorite app all without lifting your hands.

Visio

VisioDesk and VisioBook HD are portable full HD video magnifiers that provide exceptional image quality and fold flat for convenient portability or easy storage when not in use. Full-size desktop solutions are large and heavy. VisioDesk and VisioBook HD are lightweight and compact, making them ideal for anyone wishing to magnify text or images, even in cramped spaces. The ingenious design and quality manufacturing of VisioDesk and VisioBook HD means you get the latest technology, the sharpest picture and simple operation in two of the lightest desktop magnifiers ever produced.

- Lightweight and portable
- Folds and stows in seconds
- Superior image quality, due to full HD camera, signal processing and screen
- Full HD camera for distance and close-up viewing
- Viewing comfort with 12.5" or 15.6" screen
- More than 5 hours of battery life
- Simple and intuitive operation
- Modern and timeless design

Wherever you need magnification assistance, VisioDesk and VisioBook HD offer high quality magnification in a portable, lightweight design.

Small text passages and objects can be magnified up to 40x with VisioDesk, and up to 30x with VisioBook HD. Both models provide full HD resolution with true color contrast, enhanced view (positive and negative), and a variety of foreground and background color combinations, such as yellow on black. The image optimizer and the auto focus add the finishing touch to the superior image quality.
