

COVID-19 VAX (aged 18-30 yrs) 20 Deaths Reported out of 19,099 cases on TGA DAEN

9 Published Batch No's out of 20 Reported Jab Deaths TGA DAEN 18-30 yrs by Case No./Report Date

1. **Pfizer (Comirnaty) FE8163** Dose 1 **Case No. 631625**: reported 25.09.2021 **Female 19** - Blood fibrinogen increased; Brain hypoxia; **Cardiac arrest**; Haemoglobin decreased; Red blood cell count decreased.
2. **Pfizer FF0884** (1) **Case No. 642977**: reported 13.10.2021 **Female 30** - **Pulmonary embolism** [blood clot in lungs]
3. **Pfizer FG3712** (Dose 2) & other 'Medicines' **Case No. 644148**: reported 14.10.2021 **Male 21** - **Cardiac arrest**; Concomitant disease aggravated; Malaise; Pulmonary hypertension; Pyrexia; **Toxicity to various agents**.
4. **AstraZeneca (Vaxzevria) 317706P** Dose 1 & **319747P** Dose 2 **Case No. 644353**: reported 15.10.2021 **Male 20** - **Arrhythmia** [irregular heartbeats]; Palpitations
5. **Pfizer FG3716** Dose 2 **Case No. 651140**: reported 27.10.2021 **Male 18** - **Cardiac disorder**; Headache; Pain in extremity; **Respiratory disorder**.
6. **AstraZeneca 317708P** Dose 1 & **319747P** Dose 2 **Case No. 655018**: reported 03.11.2021 **Male 30** - Agonal respiration [labored breathing]; **Cardiac arrest**; Chest pain; Costochondritis; Electrocardiogram ST segment elevation; **Myopericarditis** [combination of myocarditis & pericarditis]; Troponin T
7. **AstraZeneca 308967P** Dose 1 & **319747P** Dose 2 **Case No. 666320**: reported 17.11.2021 **Male 29** - **Coronary artery thrombosis** [blood clot formed in arteries of heart].
8. **Pfizer FF4206** Dose 1 **FG3712** Dose 2 **Case 685337**: reported 21.12.2021 **Female 23** - Asthma; **Cardiac arrest**; **Cardiomegaly** [enlarged heart;] Generalised oedema; Malaise; **Myocarditis**; Personality change; Swelling face.
9. **Moderna (SpikeVax) 000098A** Dose 3 **Case No. 729139**: reported 12.04.2022 **Female 21** - • Abdominal pain • **Cardiac arrest** • Cardiogenic shock • **Deep vein thrombosis** [blood clot formed in deep veins] • Echocardiogram abnormal • **Embolism** [Blood clot] • Fatigue • Femoral artery embolism [restriction of blood supply] • Malaise • **Myocardial infarction** [type of heart attack] • **Myocarditis** • Nausea • Paraesthesia • Peripheral ischaemia • **Pulmonary oedema** [excess water fluid in lungs] • Pyrexia • **Renal impairment** • **Spinal cord infarction** [serious type of stroke caused when blood flow to spine is blocked] • Thrombosis • Troponin increased • Ventricular dysfunction

11 COVID-19 JAB DEATHS REPORTED (with no batch numbers) of Australians aged 18-30 in TGA DAEN Case Number & Date Order

Case number	Report entry date	Age (years)	Sex	Medicines reported as being taken	MedDRA reaction terms	Deaths - Yes	Serious - Yes	Combined Batch & Dose no. FOI 26-3347
598795	6/08/2021	29	Female	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Concomitant disease aggravated	Yes	Yes	- (-)
714451	25/02/2022	19	Female	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Adverse event following immunisation	Yes	Yes	- (2)
718277	7/03/2022	24	Female	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Arrhythmia • Cardiac arrest	Yes	Yes	- (1), - (2)
729612	13/04/2022	20	Male	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Adverse event following immunisation	Yes	Yes	- (2)
731224	22/04/2022	20	Male	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Adverse event following immunisation	Yes	Yes	- (2)
736431	20/05/2022	28	Male	• Spikevax COVID-19 vaccine - (elasomeran) (elasomeran) - Suspected	• Adverse event following immunisation	Yes	Yes	- (2)
743489	4/07/2022	21	Male	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Adverse event following immunisation	Yes	Yes	- (1), - (2)
745130	18/07/2022	30	Male	• COVID-19 Vaccine AstraZeneca (ChAdOx1-S (Viral vector)) - Suspected	• Adverse event following immunisation • Concomitant disease aggravated • Hyperhidrosis • Neuritis	Yes	Yes	- (1), - (2)
745793	23/07/2022	23	Female	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Tachycardia • COVID-19	Yes	Yes	Unknown (1), Unknown (2)
746926	29/07/2022	24	Female	• COMIRNATY COVID-19 vaccine (tozinameran) - Suspected	• Liver transplant failure	Yes	Yes	- (-)
834666	20/03/2025	19	Female	• COMIRNATY COVID-19 Vaccine NOS (COMIRNATY COVID-19 Vaccine (Type not specified)) - Suspected	• Viral myocarditis	Yes	Yes	- (1), - (2), - (3)

TOP 10 WORST COVID-19 VAX BATCH NO'S (administered to YOUNG PEOPLE aged 18 - 30 years)

1. Pfizer FF4206 = 759 cases (incl. 74 serious of which = 1 young person's death reported Case 685337) Dose 1
2. Pfizer ER7449 = 525 cases (includes 36 serious & nil young people deaths reported)
3. Pfizer FH3221 = 452 cases (includes 34 serious & nil young people deaths reported)
4. Pfizer FE8163 = 431 cases (incl. 43 serious of which = 1 young person's death reported Case 631625) Dose 1
5. Pfizer FL3560 = 358 cases (includes 69 serious & nil young people deaths reported)
6. Pfizer FH3219 = 369 cases (includes 59 serious & nil young people deaths reported)
7. Astra Zeneca (Vaxzevria) PV46672 = 359 cases (includes 26 serious & nil young people deaths reported)
8. Pfizer FG3712 = 344 cases (incl. 82 serious of which = 2 young deaths reported) 644148 & 685337 both Dose 2
9. Pfizer FH4092 = 311 cases (includes 48 serious & nil young people deaths reported)
- 10.*Pfizer FG0050 = 259 cases (includes 34 serious & nil young people deaths reported)

* Video interview of 4 x Pfizer-injured Australian adults who all had 'bad batch' Pfizer (Comirnaty) batch no. FG0050 (alongside Russell Broadbent - former Federal MP & Sharon Cousins - Researcher) posted 28.11.2024.
