### **Work on Fallbrook Road.**

Over a hundred and fifty men have been working on the track this side of De Luz this week, says the Fallbrook Observer. The Fallbrook contingent is still laboring on the cut a mile below the station. In three more weeks the track will be in place. The manner in which the work is being done convinces everyone of its permanency. The company now has the money to keep its lines in the best of shape, and its experiences with wash-outs on this line demonstrate that the construction of a poor road is a waste of money. The road goes in to stay this time.
