

Copyright & Trademark Assignment

Preamble

I, _____, the Living Author, resident and now '**National of Area 52 – Ex Terra, Global Commons**', assert that my physical image, likeness, and embodied form — including face, body, voice, signature, and all biometric markers (biomarkers)— are authored works. They originate from no source other than me. They are not the property of any State, Corporation, or Third Party, and cannot lawfully or rationally be appropriated, harvested, or coerced without my explicit licence or that of my appointed Trustee (sic **Area 52 – Ex Terra**).

Article I — Authorship Defined

- **DNA as Script:** My DNA is the originating script, encoded as a living manuscript.
- **Body as Authored Text:** My physical form is the embodied fixation of that script.
- **Conscious Alteration as Artistic Act:** Any tattoo, surgery, adornment, or self-chosen modification is deliberate authorship — an act of artistic expression equivalent in principle to sculpting or painting.
- **Sole Authorship:** No other “artist” may be identified as creator of my face, form, or expression; thus, authorship vests in me alone and hence all Trademark & Copyright extensions apply to me and through me and are recognised under International and Commercial Law

Article II — Copyright Assertion

- The Embodied Work constitutes an original authored work within the meaning and spirit of the **Copyright, Designs and Patents Act 1988**. (UK) and associated copyright legislation worldwide in relevant jurisdictions as well as within the **Global Commons of Area 52 – Ex Terra**
- I assert **exclusive rights** of reproduction, adaptation, communication, distribution, and transformation over the Embodied Work and all derivatives (photographs, scans, digital captures, 3D models, biometric templates, AI embeddings).
- Any unauthorised act is **copyright infringement** actionable in civil law.
- I assert **moral rights** (attribution and integrity). Distortion, derogatory treatment, or misrepresentation of the Embodied Work is prohibited and actionable.

Article III — Trademark & Passing-Off Protections

- The Embodied Work functions as a **personal mark of origin** and identifier.
- Unauthorised commercial use, branding, advertising, or association constitutes **passing off** and, by analogy, trademark dilution.
- Remedies include injunctions, delivery-up, destruction of infringing materials, account of profits, and reputational disclosure.

Article IV — Database Rights & Unfair Competition

- Aggregating my biometric data into registries or ID databases without licence constitutes unlawful appropriation and database right infringement.
- Such conduct also amounts to **unfair competition** and unjust enrichment, for which I reserve civil and equitable remedies.

Article V — Data Protection & Privacy Rights

- Under **UK GDPR and the Data Protection Act 2018**, facial recognition and biometric data are “special category data.”
- I explicitly **withhold consent** for capture, storage, or processing, save under written licence.
- Any unlawful processing will trigger regulatory complaint (ICO), civil claim, and injunctive relief.

Article VI — The Contradiction Clause

- UK law recognises identity categories (sex, gender, nationality) as mutable by declaration.
- Simultaneously, the State demands biometric identifiers as immutable and absolute.
- This is a fatal contradiction: identity cannot be both fluid and fixed.
- Any compulsory ID regime built on such incoherence is void, discriminatory, and vulnerable to judicial review.

Article VII — Trustee & Licence Control

- I reserve the right to appoint a Trustee (including independent jurisdictions such as Area52) to hold, register, and enforce these rights.
- No authority or agent may process my image or biometrics without express licence issued by myself or my Trustee.

Article VIII — Enforcement & Remedies

Infringement of this Declaration entitles me to pursue:

- **Injunctions** (interim and permanent).
- **Statutory damages and compensatory damages** under IP law.
- **Account of profits** and equitable relief.
- **Delivery-up or destruction** of infringing materials.
- **ICO enforcement** (fines, sanctions).

- **Judicial review** of state mandates violating these rights.
- **Public disclosure** of infringing acts for reputational and political remedy.

Article IX — Cease & Desist Demand

Recipients are hereby ordered to:

1. **Cease all unauthorised processing** of the Embodied Work.
2. **Preserve evidence** of any existing processing.
3. **Disclose** lawful basis, contracts, DPIAs, and retention policies within 14 days.

Failure to comply constitutes wilful infringement.

Closing Affirmation

My image and likeness are no longer “public data.” They are now authored works, subject to copyright, trademark, moral rights, and sovereign authorship, and full karmic revocation of previous ‘uninformed consent’ has now been applied.

Any directive or mandate demanding surrender of my Embodied Work without licence and my express consent in writing, is null and void.

I hereby revoke all and any hidden, secretive, clandestine and coercive contracts and associations that have been purloined from me, my parents and their parents back seven (7) generations for the following reasons:

FACTS – BASIS OF THE VATICAN CLANDESTINE CAPTURE OF SOULS SYSTEM (CSS) AND THE WALLS with WINDOWS™

The Luciferian – Satanic Capture System

Underneath the ‘Training Centres’ and in the Tunnel Systems (worldwide) there are WALLS which the System calls ‘Ritual Walls to Molech or Baal.’ These WALLS contain the handprints of over 200 years of individuals who are involved in the System, not too much removed from the Wailing wall in Jerusalem conceptually. When a child born into the System turns age 5, they participate in a ritual where they dip their hand in blood and put their handprint on the wall. There is preparation that goes into this ritual. Before the ritual time, (those preparing the children, called teachers) will take the children into the Tunnel System (like the one recently unearthed in New York 2023/4 <https://youtu.be/th3QtZRnXlg> or places where children's handprints are displayed like Art, in small groups and they will have the children practice putting their hands on the wall in a way that ensures the full handprint is captured.

The Purpose of These Walls is Two-fold.

In the System it is considered a Vow or comparable to a contract made between the humans and the demonic entities who have dominion over those areas. The demonic entities believe it gives them "Soul Rights" or "Soul Ties". It is considered a quantum genetic and blood signature unique to each individual. The System sees each of these quantum signatures as being comparable to a "Seal". Therefore, if one possesses the seal, they are able to use it in the

spiritual and physical fight for dominion rights, power, and territory authority. They base these rights on the Universal Law of God, "Wherever the soul of your feet tread, I shall give that land to you." Joshua 1:3.

NB. This is the Annunaki 'god' of the Old Testament , 'Annu' – the ego god of death, sacrifice of first born and vengeance & not the Creator God of Love.

The System uses these "Soul Ties" or "Soul Seals" in connection to:

1) Birth Footprints (Tie is to physical earth and land rights) and the first part of the body to touch the 'ground' (land underwater) is the feet.

2) Handprints (Tie is to unique fingerprint and connected to the work of our hands the Lord [false Annunaki/Nephilim Lord] has ordained for us to do)

3) Birth Certificates (Tie is to individuals name and breaths or sounds their name makes, the sound of our name is our quantum spiritual identifier)

4) Social Security Number (Tie is to the numerical value of individuals identity)

5) Egg and Sperm Vaults (Tie is to our unborn descendants)

6) Blood (Tie is to the glory or 'life of god' [Enki – Lord – god – creator of the being in the E.DIN]) in the blood and DNA is the currency of the Universe) [false god of Annunaki]

All of these different Quantum Signatures of a "person's identity" are considered Universal Currency. They are bought, sold, and traded in the Global Black Soul Market Exchanges.

I am the sole Author of my embodied text
