- Politics with ONE Political Principle -

THE

**Libertarian Overriding Universal Principle**

## 1<sup>st</sup> Principle

“I hold that ALL individuals have the right to exercise sole dominion, sovereignty and control over their own lives and livelihood, as long as they do not forcibly interfere with the equal right of others to live in whatever manner they SO choose and THAT we enforce the law evenly & openly without fear or favour under common law jurisdiction within a public Court of Record.”

– One question with a one word answer -

—

Do you agree?

“YES” - “NO”

**One either believes and intends to live one's life according to this guiding principle or one does not.**

It is a binary choice with no shade of grey. Either you, and only you, have the RIGHT OF DOMINION (ownership) over your humanity and nobody else does, or you do not. This does not mean you cannot cede that authority, for a period of time and on a voluntary basis, to some other entity (e.g. to military service, local officials, to doctors or teachers etc) but it does mean that NOBODY ELSE CAN COMPEL YOU TO DO SO - NO ONE!

## **CHARTER**

- We, the members of Re-Movement, challenge the cult of the omnipotent state and defend the rights of the individual.
- We the members of Re-Movement hold that all individuals have the right to exercise sole dominion over their own lives, and have the right to live in whatever manner they choose, as long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose.
- We the members of Re-Movement hold that Governments throughout history have regularly operated on the opposite principle, that the State has the right to dispose of the lives of the individuals and the fruits of their labors.
- Within the United Kingdom ALL political parties, other than our own, grant to government the right to regulate the lives of individuals and seize the fruit of their labour without their consent.
- Re-Movement on the contrary:  
DENIES THE RIGHT OF ANY GOVERNMENT OR AGENCY OR COALITION PURPORTING TO ACT ON BEHALF OF A GOVERNMENT, (such as the UN, NATO,

IMF, World Bank etc) OR ANY OTHER SUPRA-NATIONAL FORCE to do these things, and holds that where governments exist they must NOT violate the rights of any individual, namely:

**THE RIGHT TO LIFE** – accordingly we support the prohibition of the initiation of physical force against others;

**THE RIGHT TO FREEDOM** of speech and action and religious belief– accordingly we oppose all attempts by government to abridge the freedom of speech and the press, as well as government censorship in any form; and

**THE RIGHT TO TRADE AND PROPERTY** – accordingly we oppose all government interference in all commercial trading actions, with interference in or with a persons private property, such as taxation, levying, statutory regulation, confiscation, nationalization, and eminent domain, and support the prohibition of robbery, trespass, fraud and misrepresentation under colour of law.

Since governments, when instituted, must not violate individual rights, we oppose all interference by government in the areas of voluntary and contractual relations among individuals. People should not be forced to sacrifice their lives and property for the benefit of others. They should be left free to deal with one another as free traders; and the resultant economic system, the only one compatible with the protection of the individual rights, is the free market using a monetary system which guarantees FINALITY OF SETTLEMENT under common law in all transactions without any form of usury.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Freedom and the pursuit of Happiness and:

That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. An overall and guiding principle therefore could be stated as follows:

**To Re-iterate  
The Libertarian Overriding Universal Principle  
proclaims**

“I hold that EVERY individual has the right to exercise sole dominion and control over his own life and livelihood, as long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose and we enforce the law evenly without fear or favor under common law jurisdiction within a public Court of Record (62 easily understandable words!)

**or**

**“ The ‘state owns you!’”**

**Problem**

The difficulty with first principles is that they are inviolate. One either believes in them or one does not. Once you adopt one you are then forced to square all your other political principles against this first one, and if you cannot fit what you wish to adopt into that first principle then you must modify or abandon whatever it was that you intended to do.

The basic contention here is that you either want change or you do not. If you do not then you are implying that you are happy with the society in which you live and the governing classes which are making the decisions and directives for you, your family and the country.

A cursory glance around you and a brief self-cross-examination, in truth, should reveal to you that not only is something very wrong – but that you are experiencing a total social, economic, environmental as well as personal directional melt-down. As a planetary species you are failing and failing badly. BUT... the question is: “Who exactly is taking the decisions for you and are these decisions really for your benefit or has the “democratically driven bus” been hijacked?

**You elect the politicians on their lies,**

(<http://www.youtube.com/watch?v=veuWO-jwpnQ&list=PLA4E75C7BC04C4513>) knowing full well they won't deliver and when they don't then you go and re-elect the next lot hoping, but knowing that they won't make any difference or better a job either. You seem helpless to resist or refuse this impelling drive to keep electing them; like a drunk trying to rise off the pavement, he wants to but simply can't break free from the pavements pull. So are you living in denial? You say that you want a better future for yourself, your family, the country, but are you too cowardly to do anything about securing it? Maybe it's just not worth the effort? Who can say after all. But if that's true then why are the best minds within the ranks of the controlling elite and connected families, as we measure worldly attributes, out of bed at 5am, going for a run and work out by 6am and in their political offices and committee meetings and business parades by 7am – before most of you have even got out of bed for your first pee of the day. While you

sleep – they work.

### **How did this happen? Who's to blame?**

It has been set up this way to trap you. Democracy, is my friend as dead as disco! It does not work and never has and was never meant to work on the scale upon which it operates today. It is a flawed system which has passed its sell by date, but you are still being forced to gulp it down. Leaves a bitter taste doesn't it? It has been set up to fool you...

Yes, democratic models do function for smaller socially homogenous communities of like or reasonably like-minded people, but NOT for a multi-cultural society of 64 million, and certainly NOT for a European conglomerate of over 400 million. Can you not see that? Really?

And refusing to vote just makes it worse – the disillusion deepens and the apathy cause distress. These absenters will fail to change anything. Their apathy and reluctance to participate will never take power from the hands of the psychopathic, power hungry, ego trip road-show politicians and hangers on. For even if the turn out for the next election was only 1 person, this wily, criminal, elitist agenda could still democratically roll along as it could legitimately claim that they rule with a majority – even if it was the only person in the country to turn out.

Equally with accountability, in some form, every 5 years they know that once in office they can do whatsoever they want. And even then when sent packing from office like a scalded cat after their period of deception, the baton is simply passed under the table to the incoming band of scoundrels and dilettantes. And so around and around you go, like a dog chasing its own tail until you are so confused and tired

that you can do little but sit down to draw breath and clear your head. You simply must awaken to the fact that the system has been designed over hundreds of years as a well woven strait jacket would be designed to contain and hold a very dangerous and very strong adversary. But the adversary, you, was born in to this swaddling cloth and has not noticed that it is ABNORMAL to live bound and restricted. Believe me when we tell you that the “they” in “they” have not missed a stitch and there is not one aspect within global society which isn’t overlooked. You are well and truly fucked.

**What we ask you to do to secure your future  
AND REALLY CHANGE THE WORLD...?**

## **ACTION FROM YOU:**

- Affirm that you agree with the Libertarian Overriding Universal Principle (LOUP). One question. One word answer... YES or NO?
- With informed choice decide to join Re- Movement.
- Next publicly make your SACREMENT becoming a FREE-Man of The Land.
- Physically involve yourself with the meetings, campaigns, rallies, door-knocking and conversion of others to the cause. Get “religioned” with it!
- Truly walk the planet with unfettered tread.

## **REMEDIES for YOU:**

- We can then offer to provide you with material to effect your release from the system. This is in effect an immediate re-lease, only seeming to take time.
- Be RE-warded for your efforts and be protected to a degree which no army, or personal body-guard, or steel box could provide.
- We provide a Common Law Court of Record to hear all grievances amongst our own kind and offer judgements.
- We protect you from all government, police and statute law intrusion, taxation, fines and all indebtedness and financial claims against you.
- We offer you to an inflation free and interest free monetary system the “Re”issued via WeRe Bank, a wealth exchange that guarantees Finality of Settlement, no usury, no interest payments and full transparency – a Public Bank.
- We offer to show you how to release yourself from ALL financial obligations and debts within 14 days. This period is the time it takes for the Affidavit and Notice of Claim to be served on the relevant collaborators in the RICO crime game, and to check-mate them.
- We show you how to empower yourself to access your trust fund entitlement within the “Global Trust Fund Account” which has been hidden from you since the Bretton Woods Agreement of 1944, and stashed away secretly in the

Parallel/Ghost system of the Venetian Black Nobility or Illuminati banksters system, at the Bank for International Settlements,

We can also connect your business to a network of similarly minded local businesses so you can share your new found freedoms as well as allow you to experiment with your own ideas.

- We provide newer thinking and better spiritual education for your children instead of the mindless, anaesthetizing mouth-wash which currently passes for education in the school system “gulag.”
- We provide a list of other like-minded people who hear our voice and will gladly listen to yours.
- We help you to re-introduce immediately a system called “Operation Re-Call” whereby you Re-call your MP quite legally and under common law Court of Pleas for malfeasance and non-feasance in public office. You then substitute your chosen individual to attend in their place.

## **OPERATION RE-CALL**

“The RE-CALL” fair, understandable, representative and not open to re-fusal or dissent by any fair minded person. So if anyone objects, whether in the media or Westminster then you know that they are NOT fair minded – so why are they there in the first place. Why on

earth would anyone wish to continue doing something when the customer or client has said that they are inept? Would you work for someone who called you inept or a thief and/or liar? Hopefully not, then why do these thick-skinned rogues persist in their folly? For the perks and the good life, and the control and belief in their own self-importance. They are too proud, arrogant and greedy even to step aside when they are told they are despised. Why do you think the politicians have so much protection surrounding them – because they are so loved? No, it's because the public would tear them apart if they could get their hands up[on them].

Please bear in mind also that the types of people in public office professing to lead you have never proved leadership abilities in their entire lives prior to being elected. Look at David Cameron as a prime example not as a prime minister.

Educated exclusively at Eton and a member of the Bullingdon Boys at Cambridge, he is related to the Queen and is a Free Mason. He is the type, whom when at school, would have been a tittle- tattle, a tell-tale, a brown nose, the teacher's pet, never playing sport and always running to his dad or the class teacher if he was in trouble. He has no back-bone and no integrity but to the lie and the landed classes to which he has been born. He is happy and comfortable to send our troops to war while he takes his bike to work. It's just an intellectual exercise to him. Well if he or you or anyone else agrees with the wars in Iraq, Afghanistan, Libya, Croatia, Liberia and maybe soon too in Iran – then my advice to them and to you as well as to Cameron, Brown and Blair: “ Pack your bag buddy and get over their! Pack your bag right now, leave your house keys here and say good bye to your family and haul your “psychopathic” ass over there to Iraq, Afghanistan, Iran, Libya and Syria and get on with the fighting! BUT leave me out

of your psycho trip!”

We don’t want it and neither should you. Once they’ve proved their leadership abilities in a field of battle instead of the Cambridge Society’s+ café Lattes refectory then they can maybe seek election – until then they should keep their mouth’s shut and service their county set Land-Rover and keep the dogs in shape. Really!!

### **LOUP and RE-CALL – A Summary**

WE BEGIN AT THE VERY TOP AND WORK OUR WAY DOWNWARDS  
THROUGH ALL SOCIAL STRATA

Beginning at the very top we send sworn affidavits and Notices of Claim and Intent to those who may NOT wish to meet with us personally. People such the Rothschilds, the Queen, Prince Phillip, Prince Charles, Prince William and Kate, David Cameron and Nick Clegg, Tony Blair, Gordon Brown, Geoff Hoon, that buffoon Boris Johnson, Mervyn King of the Bank of England, as well as George Osborne, as well as all members of Parliament, the Houses of Lords and Commons (all 650) as well as all Privvy Council members who have taken an Oath to the Crown and NOT to you.

Eventually, we would even come to you! Come to you with

### **The Gong Show:**

**One question. with a one word answer...YES or NO?**

No, ifs, no buts, no maybes or changes of topic.

No, “ But it all depends...”

No, “What I’d like to draw your attention to first is ...”

No, “Before I answer I’d like to point out...”

No, “One has to consider...”

The deal is as it was in the time of the final days of Atlantis.  
First an explanation of the format of the conditions for responding to the question.

Then the ensuring that the person to be asked the question comprehends it ?

Then the reading of the question.

One question posed: One question only:

One word as an answer required and one word answer only. (On the night of the full moon and every full moon for those in public office).

Answer: “Yes” or Answer “No”:

Failure to answer is a NO!

Following on from this the follow up is simple too – very beautiful and uncomplicated as only The Great Deceiver and The Beast within, the ego, makes for convoluted answers where clear speech is most practicable, most sought and most harmoniously desired.

Each person must agree or disagree with the Libertarian Universal Over-riding Principle (LOUP):

“Each individual has his own god-given inviolable, natural rights to total self-determination and free will, subject to NOT harming or interfering with anothers’.

These he either agrees to or does not there is no, “Yes but...” or “No but...” If he disagrees he goes his own way to his own.

So to summarize.

Each person must “Yay” (agree) or “Nay” (disagree) with the Libertarian Universal Over-riding Principle (LOUP):

“Each individual has his own god-given inviolable, natural rights to total self-determination and free will, subject to NOT harming or interfering with anothers’.

### **The Process of Change**

1. As a complementary and parallel action whilst 2 and 3 are being finalised and in order to provide the population with hope, direction, vision and leadership, then Project Re-Call is to be initiated forthwith along with SACREMENT.

This is obviously to run complimentarily and in parallel with 2 infra :

2.The organised mass arrest of the British Governing elite wholesale, for its continued refusal to “come clean” with the people about its past and current wrongdoings and malfeasance as well as its corporate enslavement of men and women globally via its clandestine and lucrative theft, war and “End Game Program”. We start at the very top with the arrests and work our way down.

3.Mass arrests of corporate, banking and finance cartels- the “corporatocracy”. We introduce new money with “FINALITY of SETTLEMENT” system introduced under Common Law, the unit of remuneration being called the “Re.”

4.The Bank of England to be taken off the RED BOOK account of the Bank of International Settlements and placed under the control of the people of the United Kingdom. The USA then to be rendered debt free via debt forgiveness. Bank of England agenda and ownership to be publically explained to the nation by the BBC. Total

reform of societally accepted norms of banking, currency, value and wealth. Banks assets to be seized for the good of the citizens of the UK

5. Trials of Accountability for all elected politicians and officials who are in effect acting as Crown Agents, both nationally and locally in both Houses Lords\* and Commons\* as well as members of the Privy Council\*, A.C.P. Officers\*, members of HMCR\*. All members of the Bar Association\* as well as Law Society\* as well as all appointed judges to be made to re-swear oath of office publically to the people or step aside. This will also be effected and monitored throughout the police ranks as well as the military. We are currently working with “insiders” or White Knights (for want of a better term), who are preparing the ground for the shock many will face when the RE-EDUCATION and Trials of Accountability and Re-Conciliation begin later this year (2012-13). Currently the Attorney General, Dominic Grieve is being instructed to allow arrest warrants to be served on over 1,500 members of the British government, political and police state. This is just the first phase of the Operation Re-cALL.

\*These associations and societies to be annulled.

6. Rejuvenation of several classes of Common Law Offence – Collaborating with the enemy, treason and treachery to be re-introduced, throughout the transition period. Each and every person will be asked to make known where they stand. This will be an obligation under the “Re-Citizenship Act 2012-14.”

7. The BBC to be Re-Nationalised. This will be necessary to facilitate the education programming targeted at those of the populations who wish to hear first hand and directly from the “horses mouth” the extent of the criminality, deception as well as the

connectivity amongst the elitist, illuminati and its cabalistic footmen. The Bank of England agenda, control and ownership to be publically explained to the nation by M. King, and members of the Rothschild family or House of Windsor in return for clemency. This will be done via the BBC as well as via Murdoch' Sky and BSB Skys networks as well as in his media arms.

8.Press and media networks (the press-titutes) are to be “sanitized,” Re-Manned, and compelled to report and investigate news in a unbiased and meaningful way which serves the public interest and not advertisers, political elites, politicians and the others. They will be free from the pressures of advertising revenues and MUST report as they factually observe the situation and not follow a directive or pre-scribed Editorial agenda (Murdoch News Corp Intl).

9.Re-clamation of all the peoples' assets. Oil, coal, gas, intellectual property rights. International stock market capital to be purged from the UK. Businesses will share profit with their workforce. A true co-operative socially re-warding adventurism.

10.“Use it or lose it”. These projects will be for the good of all and NOT for speculation, self-enrichment or for commercial exploitative gain. All products, services as well as individuals worth will be transparent and declared and shown on all products and services. Cost of material: cost of labour or service: cost of delivery: profit.

11.Re- Creation of a Common Law Court of Record for the people locally. These courts are the highest in the land. They are locally manned and controlled and their judgements are based solely on common law NOT UCC, Canon, Statute or Admiralty law.

12. Finality of Settlement re-introduced for all commercial and

private as well as public financial transactions. Introduction of the Universal Currency Unit the “Re”.

13.Outing of Secret Societies/Free Masonic control agendas as well as compulsory declarations by EVERY public official as well as private businessmen and anyone in position to control power, food, health products or commerce that they ARE or ARE NOT a Free mason or member of any other secretive society.In addition they must make the public declaration of LOUP as well as SACREMENT. There are approximately 350,000 registered Free Masons in approximately xxx lodges throughout the UK mainland. They are not sitting around playing scrabble all day.

### **Final thoughts:**

Why does the British government and the American govt borrow money at interest when it can, if the Bank of England was a national asset, simply print the money at no interest – like it used to in the past? With for example the American Greenback in the USA? From 1800 to around 1913 there was no inflation. A loaf of bread was always the same price and you could plan your retirement. You knew you needed (say) 2000 dollars/pounds to last it out .

Why?

65% to 70% of calculated world oil reserves just so happen to reside in muslim countries – but it just also so happens that the muslims are some of the poorest nations per capita in the world and they DO NOT OWN their own oil reserves. The Israelis do.

Addendum:

Lest you think we are dreaming ourselves into oblivion here, please look to see what the libertarian movement across the atlantic, in the

USA is proposing. The following can be found on the website of Karl Deninger Market (<http://market-ticker.org>). Karl was a founder of the Tea Party and has a very good analytical mind. If it's to do with finance in the USA he knows.

So let's ask the next question: What positions must a Libertarian candidate take in order to both remain true to the Libertarian political philosophy and capture these votes?

It's not that difficult.

**\* Stop the looting and start prosecuting!** Promise that on your first day your Attorney General will be instructed to investigate and indict all financial fraudsters, beginning with those who stole the most money, and working your way down until the prisons are full. Lock 'em all up -- starting with the big-wig corporate executives.

**\* No more off-shoring on the back of slave labor and environmental arbitrage.** Free trade is a great mantra but it only works in the context of free people who are free to associate (or not), free to join a union and bargain collectively (or not), free to quit (or not) and have effective and legal redress for unsafe working conditions, pollution of the environment and other wrongs. Since Libertarians do not believe in the initiation of force our means of redress for wrongs in this area cannot involve the use of arms. But it most-certainly can involve the entirely-constitutional use of tariffs so as to remove the incentives to place production in corrupt jurisdictions where effective slavery, political repression, retaliation that would be consider an unlawful use of force in the US and pollution are the primary means of obtaining "cheap labor."

**\* One dollar of capital.** No more counterfeiting of currency by

banks. This is an act of pure fraud and must be stopped. Our inflationary game over the last 30 years has largely been driven by this scheme and if we are to ever have a free market economy it has to end. The Libertarian argument is that "competing currencies" or worse, "gold" would fix this. Both are false. Competing currencies are perfectly fine and should be permitted but whatever the government denominates its taxes in will be the preferred currency; this cannot be avoided. The "money power" is vested in Congress under the Constitution and must be restored.

**\* No more national debt.** The budget must be balanced here and now. The mathematics on this is simple -- we either do it or our nation's economy will collapse. Promising to submit a balanced budget is not enough -- it must be backed with the explicit threat that every single bill that crosses the desk will be vetoed until a balanced budget is passed. Period. This is not a matter of choice: it is a national imperative. Borrowing by the federal government that is never repaid as a means of trying to re-inflate a private credit bubble is insane, it is what we've been doing since 2007 and it must, mathematically, fail. The sooner we admit the truth and deal with it the better off we will all be. We must be the party of truth, not the party of lies.
