STATEMENT OF FACT

Proposal: Steal money from YOU?

What do you do with a thief?

You imprison him or her, right?

What do you do when someone proposes to steal from you and you catch him or her ***before*** *they complete their crime, but are in the process of attempting it?*

You determine that on your own folks.... because that's what's being attempted here.

The issuance of "debt" that is never paid back *is theft* in any and all cases, *because that "debt" spends exactly as does currency and thus mathematically must cause the value of all existing money in the economy to fall by that exact ratable amount.*

This is not a matter of debate or policy, it is **mathematical fact**.

Therefore what this proposal claims to request is that you be **robbed**.

React to it accordingly. *Karl Denninger http://market-ticker.org/*

KNOWLEDGE

There are two sets of trust accounts in the United Kingdom; one is the PUBLIC TRUST where your straw man persona is held culpable for any dis-honour within this arena and a PRIVATE TRUST which is the area in which you seem to conduct your private transactions. There is a 3rd area the zone of cold where the Inviolable Human Sovereignty [IHS] resides but we will come to that later.

In effect you are liable within the PUBLIC side of the TRUST accounting for all the debts incurred by the PUBLIC side [the PUBLIC DEBT] which is the "nation state" within which you reside. This usually comes about via the issuing of a birth certificate to your parents on your behalf. This in great part follows the bankrupting of the Sovereignty of the UK to the bankers in 1931. See also 1911 &1949 Parliamentary Act

The principal PERSONAE in this charade are the following:

1. On the PUBLIC SIDE it is the **Chancellor of the Exchequer** as Head of the Treasury and his mirror image on the PRIVATE SIDE it is the "Governor and Company of the Bank of England" which is a private corporation. You are OWNED as a "legal idiot" from age 18 years by the WARD and considered to be an ALIEN (lunatic) and this side of the Charity Guardian program is overseen by the Minister of the Church who is a Minister with his Curate and clerks – this is the Chancellor of the Exchequer.

2. **The Bank of England** owns and pays for the government – not the other way around as most of you have been led to believe. This means that the true control of the policies of government via Whitehall, the House of Lords and the Judiciary is firmly in the hands of the banking institutions. The principal figure head here then is "The Governor and Company of the BoE"

Both of the above are answerable to the **Rothschild Bankers** and they, in turn, to the Holy Roman Empire The Crown [See/Vatican. Viaticum]

For simplicity we will refer to the Head of this Hydra as the Rothschild family – in London that would be useful to name Nathan Rothschild as the major representative. As an aside Nathan Rothschild, David Cameron, George Osborne, and Boris Johnson all attended the same schools and were at Cambridge together. What are the chances of that happening in a meritocracy?

The WeRe Bank Cheque Book + CHARGE CARD

The book contains 50 cheques and the cheques are of high quality security paper and ink and cannot be forged.

HOW TO OBTAIN YOUR BOOK

In order to access the WeRe Banking facility you must be a member of Re Movement

Re Movement

Re Movement is the political arm of Re – a concept standing for change in all its forms so that human doings can once again become human beings. You were NOT put on this planet to toil 50 to 60 hours per week for 48 weeks per year on and on until the grave drags you within.

You were not meant to be funding bankers fantastical life styles, Tony Blair's private Lear jet and the nefarious criminality which these "Eton – White shoe boys" perpetrate via their nepotistic contacts and machinations. NO! You WeRe meant for better – and better is HeRe.

Re Movement has a Workers Co-Operative called **Re Work**. To obtain your cheque books you must be a paid up member.

To JOIN on line simple visit www.werebank.co.uk and fill in the form.

[NOTE – FORM NOT YET ON-LINE – EXPECTED ON LINE APRIL 13/15th 2015]

It will cost you £10 per month and the payment is cancellable at any time.

Inconsistency?

Many will ask: "But if you are telling us that the unit of currency, the Re, is what you say it is then why do you ask £10 sterling from us? Why can't we pay you in Re? Isn't this a bit of a contradiction?"

The answer to that question is both a Yes and a No.

Yes, is appears to be a contradiction BUT that is only because during the embryonic stages, we require £ to pay for the various items and services which we cannot re-solve with our Re units i.e. website designs, printing, web hosting etc. Eventually this will NOT be required. Also we are pragmatic in that, for now, we will HAVE TO RUN THE TWO CURRENCIES SIDE BY SIDE in order to facilitate an eventual TOTAL cross over.

WeRe Bank's Assets?

As the global bankers fail to tell you, the media and your teachers and spiritual leaders fail to tell you [and what they don't tell you at the Harvard Business school or any other school for that matter] is that the banks' assets are NOT it's deposits BUT the promises which have been made to it or to put it another way, they have managed to trick and hood-wink from people. They actually have no tangible physical assets at all – only the "psychological bargain with the devil" which they tricked you into thinking you made when they "TOLD YOU THAT THEY WERE LENDING YOU MONEY – YOUR OWN MONEY!"

Mario Draghi stated recently that the European Central Bank [ECB] is going to be following in the footsteps of the US Federal Reserve in embarking upon a policy of Quantitive Easing. This time following the model which successively and singularly FAILED to work in the USA QE1, QE2 and QE3.

Now the ECB plans to steal money via creating debt: The BBC states that…" the ECB is going to be creating NEW MONEY to the tune of €60 billion per month to PUMP into the European Economic Zone. Who benefits? The fat cat pirates who are the shareholders and CEO's of the large companies who receive this money!

Is the money trickling down to you? Hell no! It's TRICK'ling ok it's a great trick indeed.

See that the US companies are awash with money

http://www.bloombergview.com/articles/2015-01-30/u-s-companies-have-too-much-cash-not-enough-taxes

So if the **Ferral Reserve** and the ECB can create NEW MONEY then WeRe Bank can create it for you instead of the corporate fat-cats.

It is important to note that in the Bank of England's very own document:

Bank of England Quarterly Review 2014 (1st Quarter) Page 1:

"In the modern economy, most money takes the form of bank deposits. But how those bank deposits are created is often misunderstood: the principal way is through commercial banks making loans.

Whenever a bank makes a loan, it simultaneously creates a matching deposit in the borrower's bank account, thereby creating new money."

From that same document: NOTE: **"Loans create deposits and NOT the other way around"** at 1':15"

https://youtu.be/CvRAqR2pAgw

At 4':42" the Bank spokesman Senior Economist, Ryland Thomas, admits that it [Quantitive Easing-QE] – "*puts up the value of bonds and equities…"*

Babylonian Debt Slavery

In every and anyway of looking at it, these institutions are unethical, destructive, criminal, toxic and parasitic to the organism of life itself. The proof is the state of the world in 2015 – 2000 years under the control of these verminous rats, a world full or death, war, corruption, violence, drugs and lies and self-interested me: "Me! Me! attitudes" has prevailed. They have sold everyone on the deal – they've persuaded everyone that God is dead and money is god! They convince you still that if you leave them they will abandon you and you'll die! You cannot live without them.

The size of the con

The big trick which has prevailed, and which people have fallen for time after time and can't believe because they can't imagine the trick to be so old and secondly they cannot believe that so many could have fallen for it.

But here's the rub – the moment they have you question the system, the moment the opponent is challenged and questioned it means *the victim's investment and thus his intelligence is called into question*. They question their own intelligence and common sense and not one of them - non of you are prepared to do that! Are you……? You all think you are so smart …but as the Buddhists would say; "It's like deceiving a child with any empty hand!"

Your Promise to Pay/Perform is all the "money there is in this world.

Ask yourself this then: "How can something which it [the bank] does NOT possess in any physical capacity be worth anything? How can it be valued in the billions when all it has is pieces of mortgage paper and credit notes that are:

1. Simply promises to do something in the future and
2. Have your signature upon them otherwise they are totally valueless.

The only thing that has value in this world is your energy – the only thing that has value is your signature backing your promise to pay or do something.

The Bank of England notes in your pocket are worthless pieces of paper backed by nothing. They cost around 1p to print. They used to be backed by gold – but since 1931 when you and your ancestors were bankrupted and the UK was taken off the Gold Standard, they were not backed by anything other than a promise to pay you another note – exactly like the one you have if you presented that note to the BoE.

From that point you were all thrust silently into the PUBLIC DOMAIN with a TRUST overseeing all your liabilities and assets. From 1931 no one had the ability to settle debts with anything other than the fiat currency issued by the Bank of England under fraud, coercion and duress and worse.

WeRe Bank has the following assets:

A. Around £1 BILLION – [500 million Re] in negotiable financial instruments – promissory notes paid in by its current membership

B. It has $500 billion Gold backed dollars - hypothecated to it in the form of gold backed 1934 Federal Reserve Board of Chicago Certificates issued for redemption [but as yet not honoured] under the Secret Terms of the Bretton Woods Agreement 1944 and refused honour under the Green Hilton agreement 1962.

C. It also has a mandate under the Global Debt Jubilee [Global Collateral Accounts – attachment Appendix] to resolve all debt issues of the private person in the PUBLIC SECTOR and to provide the "acceptance container" for the toxic debt which is poisoning the planet and its people's [debt slavery].

D. It is also positioned to accept negotiable financial instruments under the Bills of Exchange Act 1882 as well as the **UNITED NATIONS CONVENTION ON INTERNATIONAL BILLS OF EXCHANGE AND INTERNATIONAL PROMISSORY NOTES** as well as under the Secret Terms being currently negotiated for the release of the off Screen Global Collateral Accounts.

E. Also WeRe Bank's DEBT ASSUMPTION facility is active and current for all WeRe Bank customers.

F. WeRe Bank also maintains the right to Create New Money by Making Loans to Customers. By making said loan it creates a deposit in the account of that customer

The Con

There is no shortage of money. The World Bank, the IMF, the Federal Reserve claim that there is only around 183,000 tonnes of physical gold in existence on this planet. We are holding them to this claim. The true figure is more in the region of 4.5 million metric tonnes. The difference is ours and the 183,000 will be forfeit by their own hand under the terms of the Universal Energy Transfer Protocol.

Total Derivatives exposure [toxic debt] is around 1 quadrillion that's 1.E15
