

“Global Debt Management Buy Out - ReSDR”

Global Launch

Information Pack – Updated Dec 2025 (DA3S/WB)

Provided by Freeman Legal Services and The International Common Law Court of Record on Land

This information pack outlines the basics of the Debt Assumption Service and informs you what you need to do and when. Please read and pay attention to these instructions. Failure to do so will result in un-necessary time being wasted. The wording is referring primarily to mortgages, credit card agreements (so called) and car loans, BUT the phrases apply equally to student loans, commercial mortgages, credit card and other loans, property and other taxes such as HMRC VAT, HMRC Self-Assessment claims, HMRC Capital Gains

“WeRe Bank and Freeman Legal Services are working jointly to provide the debt resolution service to you”. You may also access HM Tribunal Services for an independent verdict upon the legality and morality of your loan agreement and lender.

The Debt Assumption Protocol is soon to be backed by the US Department of Defence and elements within the UK DOD <https://www.army.mod.uk/>

**“Jesus may have come to take away the sins of the world but
WeRe Bank has come to take away its debt.”**

Overriding Principle

**“WeRe Bank Has Just Flipped the Global Debt and Asset Ledgers of
\$2e15 (Quadrillion) in Your Favour!”**

—

This is the beginning of the Global Debt Forgiveness Program

Introduction:

“You must understand and then know the nature of the fraud perpetrated upon you, your family and ancestors (and by whom) in order for you then to walk this path with commitment, determination and a warrior’s ease of mind. The fight is the point – not the outcome”.

Peter of England – November 2019

Don Juan – An Alternative Reality

“The basic difference between an ordinary man and a warrior is that a warrior takes everything as a challenge, while an ordinary man takes everything as a blessing or as a curse.

“For the average man, the world is weird because if he’s not bored with it, he’s at odds with it. For a warrior, the world is weird because it is stupendous, awesome, mysterious, unfathomable. A warrior must assume responsibility for being here, in this marvelous world, in this marvelous time.

The self-confidence of the warrior is not the self-confidence of the average man. The average man seeks certainty in the eyes of the onlooker and calls that self-confidence. The warrior seeks impeccability in his own eyes and calls that humbleness. The average man is hooked to his fellow men, while the warrior is hooked only to infinity.”

—Teachings of Don Juan, Carlos Castaneda

THE SOCIAL SECURITY SYSTEM IN YOUR COUNTRY IS PROOF ABSOLUTE THAT A TRUST FUND EXISTS TO SUPPORT YOU

“Everything, and I mean everything is based on trust(s)”.

If you receive “benefits” then you are a “beneficiary?”

A beneficiary can be defined as:

In trust law, a beneficiary [or cestui que use, a.k.a. cestui que trust], is the person or persons who are entitled to the benefit of any trust arrangement. A beneficiary will normally be a natural person, but it is perfectly possible to have a company as the beneficiary of a trust, and this often happens in sophisticated commercial transaction structures.

The aim of this document is to prove to you that the banking and financial institutions are simply operating to criminally thief from you day and night and the judges in the Courts, the regulatory authorities and the entire political class is participating in this theft and promoting this financial slavery against you.

There has to be an end to their deception and arrogance eventually and I, Peter of England, the man, am calling them out on this evil. I would like you to participate with me, please realize that we are now embarked upon a campaign which I have named “Judge’s Dread” and we must make these deceivers “dread” the fact of what they have done to you, your parents and ancestors.

These hyenas and their rat-pack parasitic overlords, have sold you and your country out from under you for millenia and are only interested in looking after their own special class and interests. The judges are in league with the lawyers who are all paid by the banks. The regulatory authorities are there to protect the SYSTEM not you, do not forget this. The

patrol the complaints yard in order to head off the unrest and provide an early warning system to those they are paid to protect.

The judges are there to ensure nothing passes their portal which allows the deception of the financial black-arts Zionist Rothschild – Khazarian, Ashkenazi, Luciferian Annunaki gold hoarding elite to perpetuate their control, millenia in and millenia out, to be revealed!

This being the case then we need now to come together as a collective and take on the Judges in the pagan Roman Cult courts which are nothing more than “Special Rooms” set up to extort value from you. There is NO justice, there never has been. These courts are commercial Admiralty courts with pre-determined criteria already welded in place before you step through their doors, to ensure that all you do is PAY, PAY and then PAY some more. You must realise that it is a TRUSTEE who pays and if you are doing all the paying then you must be paying a BENEFICIARY.

Question: “Who is the beneficiary? And Where is the beneficiary?”

“Mortgage Securitisation Claims” Warning

Many of you reading this Info pack are considering joining various bands of brothers offering you a chance to have your mortgages set aside due to fraudulent conveyance and loan note monetisation.

Many of you reading this Info pack are surely considering ways of paying off your debts. Many of you are looking towards paying off your mortgages, which comprise the single largest debt burden which you have to shoulder throughout your working life.

Many of you will have looked at the offers of the MSC [Mortgage Securitisation Claim] solutions offered by organisations supported, for example, in the UK by Michael of Bernicia and his TGBMS (The Great British Mortgage Swindle) documentary group.

Many will also be relying on the Simon Goldberg (Simon Spaniard) and his Legal Quest solution.

Many of you are going to be sorely disappointed!

Why?

The above “remedy gurus” are basing their potential success on forcing the establishment to abandon a tried and tested deception which has endured for ages. They also rely upon using the System to defeat the System and have seemingly missed the point by a country mile.

There is no possibility in the regulatory authorities and the Land Registry siding with their protests and claims of fraud and fraudulent conveyancing. The proof of this is that the groups above have been banging the same drum for several years now with no success.

In a nutshell, the Establishment are never going to allow successes which result in a collapse of the entire financial commercial edifice – are they?

The solution has to be via an External attack which brings down the system. The attack has to be unstoppable and 100% non-reliant upon their laws, their people and their permissions.

Which Remedies Are Open to You Then?

WeRe Bank of England offers a way through the maze which has law, logic and accepted commercial banking and accounting practices at its heart. In effect we use their System against them. We offer various routes but one is the Master Route and that relies exclusively of **INFORMING YOU OF YOUR RIGHTFUL PLACE, POSITION and CAPACITY** in this game of deception. Indeed you have been tricked and now you know how.

Reciprocity

You as the creator of the mortgage or loan note have the absolute authority, title and right to assign that “debt obligation” (so called) to anyone, any time. The lender would try to convince you otherwise BUT every single day of the week millions of people world-wide transfer their “debt obligations” on their credit cards, or mortgage loans to other providers or servicing agents, do they not? They are allowed to do this because of the collusion and “joint enterprise” and proximity in which all these criminal, mafia, shake-down operations operate. They are all one and the same crime family.

If they can do this on the mortgagee side then the reciprocity of contract suggests that you should be able to do the same, if you were a debtor!

However, what if you were NOT the DEBTOR?

What if in fact you were the CREDITOR and had be wrongly labelled as that which you were not?

Alternative Provider:

Referee in Case of Need:

15 Case of need.

The drawer of a bill and any indorser may insert therein the name of a person to whom the holder may resort in case of need, that is to say, in case the bill is dishonoured by non-acceptance or non-payment. Such person is called the referee in case of need. It is in the option of the holder to resort to the referee in case of need or not as he may think fit.

Payor for Honour Supra Protest:

68 Payment for honour supra protest.

- (1) Where a bill has been protested for non-payment, any person may intervene and pay it supra protest for the honour of any party liable thereon, or for the honour of the person for whose account the bill is drawn.
- (2) Where two or more persons offer to pay a bill for the honour of different parties, the person whose payment will discharge most parties to the bill shall have the preference.
- (3) Payment for honour supra protest, in order to operate as such and not as a mere voluntary payment, must be attested by a notarial act of honour which may be appended to the protest or form an extension of it.
- (4) The notarial act of honour must be founded on a declaration made by the payer for honour, or his agent in that behalf, declaring his intention to pay the bill for honour, and for whose honour he pays.
- (5) Where a bill has been paid for honour, all parties subsequent to the party for whose honour it is paid are discharged, but the payer for honour is subrogated for, and succeeds to both the rights and duties of, the holder as regards the party for whose honour he pays, and all parties liable to that party.
- (6) The payer for honour on paying to the holder the amount of the bill and the notarial expenses incidental to its dishonour is entitled to receive both the bill itself and the protest. If the holder do not on demand deliver them up he shall be liable to the payer for honour in damages.
- (7) Where the holder of a bill refuses to receive payment supra protest he shall lose his right of recourse against any party who would have been discharged by such payment.

Assignment:

An assignment is a legal term used in the context of the law of contract and of property. In both instances, assignment is the process whereby a person, the assignor, transfers rights or benefits to another, the assignee. An assignment may not transfer a duty, burden or detriment without the

express agreement of the assignee. The right or benefit being assigned may be a gift (such as a waiver) or it may be paid for with a contractual consideration such as money.

The rights may be vested or contingent and may include an equitable interest. Mortgages and loans are relatively straightforward and amenable to assignment. An assignor may assign rights, such as a mortgage note issued by a third-party borrower, and this would require the latter to make repayments to the assignee.

A related concept of assignment is novation wherein, by agreement with all parties, one contracting party is replaced by a new party. While novation requires the consent of all parties, assignment needs no consent from other non-assigning parties. However, in the case of assignment, the consent of the non-assigning party may be required by a contractual provision.

Delegation of Contract

In contract law and administrative law, delegation (Latin *intercessio*) is the act of giving another person the responsibility of carrying out the performance agreed to in a contract. Three parties are concerned with this act - the party who had incurred the obligation to perform under the contract is called the delegator; the party who assumes the responsibility of performing this duty is called the delegatee; and the party to whom this performance is owed is called the obligee.

Novation:

Novati, as a legal term is derived from the Roman law, in which novatio was of three kinds—

- a. substitution of a new debtor (*expromissio*, or *delegatio*),
- b. of a new creditor (*cessio nominum vel actionum*),
- c. or of a new contract.

Novation, in contract law and business law, is the act of –

- (1) replacing an obligation to perform with another obligation; or
- (2) adding an obligation to perform; or
- (3) replacing a party to an agreement with a new party.

Master Route – Seize Unprotected Debt

The tactic which WeRe Bank has devised in order to alleviate your debt burden is as simple as it is genius and relies simply on one fact: all bank debts, wherever they lie, are unprotected. These unprotected debts are never protected as they form the entirety of the bank's assets and are, metaphorically, parked out of site around the back of the bank.

You see, people have always been hypnotised by the money in the bank. It is always front of house and protected by grills and bars and security personnel and the bank itself is there to give the value. The building is large and impressive and strategically situated on Main St. This is the distraction!

If you want money, folding notes and coin, then you have to rob the bank, cyber security breach it or enter on your hands and knees to negotiate a credit/loan extension do you not? Same old story and as it has been for decades and then some.

However, please remember, in this Looking Glass world nothing is what it seems. The banks do not want "cash deposits" as these are liabilities, for on them they must pay to insure them against theft, they must store them and pay interest on them. There's the rub, the bank with the greatest NOTHING is the one with the highest stock-market value. Why? Well, because a bank's VALUE is attributed to its DEBT BOOK and not its CASH ON DEPOSIT- always was the case and always will be so.

PICTURE THIS...

The front of the bank is a magnificent, architectural, grand and opulent design to show wealth and power and signifies that what's inside is something everyone wants – money! However, around the back, stacked in rotting filthy, toxic seeping pools of pain and misery lie the real assets – the debt. Each sack of refuse which is slowly poisoning society and crushing the life out of the planet and each bag with someone's name scrawled upon it – some bags bigger than others, sure, and some numerous bags with the same name(s) on, but nonetheless – bags of debt parked out back festering and rotting and simple carrion for the banker. The bags are all unprotected because no one wants this debt bag apart from another bank. And in the self-regulating world of the bankster crime syndicates then as they (bank owners) are all related to each other, it doesn't matter which crime family has more today than yesterday because they split the illicit gains each night – the swag!

The along comes WeRe Bank with a very large refuse truck and does NOT ReFuse the debt but simply arrives with a pick-up ticket signed by you allowing us to pick up the unprotected refuse bags.

WeRe Bank is allowed to do this for one reason – you have given us permission to take away your rubbish. This rubbish, you have been led to believe, cannot be dealt with by anyone but the bank – but you created the mess and you can uncreate it.

These bags contain the “promissory notes” which you signed and which are sucked dry by the bankster families COLLATERALIZING (and cashing them in) them against your Global Trust Account – which in effect is the stolen planetary wealth amassed over the millenia. ReMember – you and your parents and ancestors created everything of value – goods and services pay for everything, always have and always will. Money pays for nothing.

“Banks do not lend money & banks do not take deposits.”

<https://youtu.be/IzE038REw2k>

Prof. Richard Werner D.Phil (Oxon)

Q. “What is a Mortgage/Loan repayment?”

A. It is a securities contract or futures contract which you have sold to the bank.

DECEPTION

They have tricked you into believing that it is worthless, that they have provided MONEY to you, which they have not and they have misled you.

Why are you paying anything at all for your futures contract which you handed to the bank as security for the return of your own money? Your signed loan agreement is a valuable financial instrument which gives the “banksters” the right to receive payment IMMEDIATELY from your Global Trust Fund Account. Everything has been pre-paid with your and your ancestors “blood, sweat, toil and tears”.

PROOF YOU HAVE BEEN DUPED

<https://youtu.be/IzE038REw2k>

Three Basic – Postulates

1. If the bank only “extended credit” to you then there is no contract under common law as the bank cannot prove they made a loss. If they cannot prove a loss, and they cannot

unless the judge allows the lie to pass the bar and is therefore complicit in the conspiracy and hence liable to a traitor's justice, then the case against you needs to be dismissed with severe prejudice. Alternatively, if they only extended credit to you as a loan then is it not perfectly logical that you repay them in exactly the same "specie of money" which was lent to you? If the answer is yes, then all you need to do is sign a basic promissory note and hand it to them. [See Bank of England 2014 Q1 – Money Creation in the Modern Economy: <https://www.bankofengland.co.uk/quarterly-bulletin/2014/q1/money-creation-in-the-modern-economy>]

2. Does the bank follow GAAP? Yes or no? Which then leads to the question, "When you handed in your loan agreement, did the bank enter it onto its books as an asset or a liability?" It cannot be both! Which was it judge? If you provided the value for the contract/loan, as the Bank of England, the FED and IMF assert, then how can it be that the bank lent you anything other than what is already yours? This makes you the CREDITOR and not the DEBTOR on the agreement and hence "holder in due course" on the note under GAAP. [Generally Accepted Accounting Principles]
3. From this it follows that you are the sole provider of the country's GDP, revenue, worth, existence and hence the value which is the trade and enterprise of the country. From this it MUST follow that the UK and US Treasuries are acting as trust holders on an Express Trust created to hold and control the nation's wealth. Let me ask you, "Who created this wealth – the 99% or the 1%?" If it is the 1% then there is overwhelming evidence that the TRUST is your trust and that the judicial system created by the bankers are working hand in hand to prevent you, the prodigal son from taking his true inheritance.

There is an implied and explicit social contract in place which allows the Crown to supposedly tax you in return for protection and to provide for your well-being.

THIS CONTRACT HAS BEEN SHREDDED BEFORE YOUR EYES

Introduction:

Freeman Legal Services (www.freemanlegalservices.com) is a boutique provider of a lawful and buried range of common law legal services. It's prime aim is to force the current overseers of the political, judicial and financial systems, operating in your country, to comprehend that they are party to an incredible complex and well-planned deception. Some are aware of this, but others simply participate in supporting it due to ignorance and fear. The result of this deception is YOU, or should we say your current predicament – trapped in debt and it's up to the eyes. You and everyone else like you out there, are labouring under massive debt burdens and obligations. Wrapped in litigation, debt or a shroud by your 80th year – if you're lucky!

These debts you carry, are a result of treachery, psychosis, greed and fear and upon a scale the likes of which are almost impossible to imagine

Part 1

WeRe Bank of England

Aims to provide you with a Deed of Reconveyance

What Is a Deed of Reconveyance?

A mortgage holder issues a deed of reconveyance to indicate that the borrower has been released from the mortgage debt. The deed transfers the property title from the lender, also called the beneficiary, to the borrower.

This document is most commonly used when a mortgage has been paid in full. It includes a legal description of the property as well as the property's parcel number, and it's often notarized.

Some states use a satisfaction of mortgage document rather than a deed of reconveyance, and states that recognize deeds of trust, such as California, will instead issue a full reconveyance in this case, signed by the trustee and notarized

How a Deed of Reconveyance Works

A deed of reconveyance is recorded in the county where the property is located. Once the deed has been recorded, any search on that property will show that the lien has been paid in full.

A property with a lien against it cannot be sold unless the lien is a mortgage and arrangements have been made to pay it in full via the proceeds of the home sale. In such situations, recording the deed of reconveyance is part of the closing process of the home's sale, and its recording is commonly handled by a title insurance company.

Deed of Reconveyance vs. Security Interest

The bank has a security interest in the home while the mortgage is still outstanding. The bank can foreclose on the borrower, evicting him and taking possession of the home, if the borrower defaults on paying the mortgage. The lender can then sell the property to attempt to fulfill the unpaid mortgage obligation after the foreclosure process is complete.

The deed of reconveyance proves that the bank no longer has a security interest in the home. A homeowner who has received a deed of reconveyance can't be foreclosed upon by the lending institution, and he can transfer the property at any time, free and clear of the lien. He should record it with the county in which the property is located.

Bank World - Overview

What you have!

“You are like a pack-mule who has been loaded to breaking point with debt and told you and ONLY YOU must carry the load.”

You almost certainly have debt do you not? Most people have been dislocated over the past 50 years from any semblance of social and monetary responsibility when it comes to money management. It used to be said, (and acted upon that), *“If you haven’t got it then you can’t spend it!”* and that was that. People understood that they got paid weekly and could easily manage and budget their small wage for that period. However, that’s not what the crafty Masonic social engineers wanted. They didn’t want people managing to get to the end of the week on a family budget of one wage earner did they. So, what did they do? They began to force everyone on to monthly salary payments – and that meant:

1. You had to have a bank account and
2. You had to get paid every 4 weeks just like the boss.

However, the research had shown that most people when starved of a commodity, like cakes, booze, freedom or money, once reunited with said commodity, *“initially tend to overindulge with it”* and this often results, in the case of “money,” to being flat broke half way through the month. This “being broke” comes from a variety of stimuli but one could be with the larger initial sum something like a TV or radio etc could be purchased for cash instead of having to wait for money to be saved. To resolve this problem the family unit began to become **“credit dependent”** which is NOT the same as being money dependent.

This dependency upon credit was socially engineered upon you from 1945. Completed in the early 1980’s with the breaking of the Unions, so man could no longer strike for more money BUT instead was forced to go to the loan sharks – High St. banks.

What you don’t want!

What you don’t want is debt. If this is so then why are you all drowning in a sea of it!

Well, it is meant for you to be drowning in it. The social engineering planner’s (CFR, Tavistock Institute, International Chamber of Commerce, Bretton Woods Financial Agreement 1944) model called for the bankers to open the taps and have the debt sea rise, little by little, almost imperceptibly, so you weren’t spooked, until the debt was just above your top lip. Why would they wish to do such a thing?

People in debt are easy to control. They have NO latitude. They MUST find money and the only way to do that Joe, is by hitting the bricks and walking to work and putting 40 to 50 hours in. You don’t need time to think as there is nothing to think about. As society moved along, devolving over the decades, more and more people got accustomed to the fact that they were always in debt and NEVER seemed to be able to get out of it.

There are many various reasons for this one being math pure and simple, $< p$ than $p + i\%$ (principal is always less than principal + interest %,) which is why a DEBT ECONOMY CAN NEVER DO ANYTHING BUT put people into debt and then into more and more. Every note printed or generated on a digital screen IMMEDIATELY REQUIRES ANOTHER to be created to pay off part of the interest on that previous note. The next the same and so on and so forth. Be under no delusion, you have been socially engineered into this debt state for one purpose. That is to ensure that you feel morally obligated to perform on your PROMISE TO PAY BACK. You see, the Khazarian Zionist banking cartel understand full well that most people wish to be seen as “good people” and want to honour their word once given. Over the millennia it has been installed into us that *“if we borrow we pay back!”* Right? And if we don’t then we get ostracised by our kin or kicked out of the village, banished etc. So, all in all it’s NOT a good thing to be perceived as a “defaulter” or its first cousin, a liar. AND THERE YOU HAVE IT - THE MULTI-MILLION €€€€\$\$\$\$€€€€ TRAP. You have been hoodwinked into the debt trap.

Hoodwinked

Now, if someone had really lent you money and you couldn't wouldn't or refused to pay it back then that's one thing BUT *"what if"* this lender had not lent you someone's money at all BUT merely TOLD YOU HE'D LENT YOU SOMEONE'S MONEY? Would that be right?

OK sure, you see figures entered into your account when the LOAN/CREDIT has been "approved" and yes, you can take out a limited amount of notes to pay for things, which is NOT money, but promissory notes issued by the Central bank by the way and should ONLY BE BEING used within the confines of the Central Bank's Clearing system and NOT spilling out onto the public sidewalk, but that's another story.

What all banks want – Debt!

Conversely to logical thinking – that which the bank does NOT possess is deemed its greatest value its asset base is its DEBT book and NOT its funds on deposit – which are its liabilities. Ergo, when you hand a valuable document into the bank, let's say, something like a mortgage loan application, do you think they deem that as an asset or a liability? Well, as they enter it in order to produce a minus (-) on your side of the ledger they must first enter it as a plus (+) on the original bookkeeping no?

When you go to the bank and physically put cash or coin into the bank the bank manager (in the Wild West days) takes it and puts it into a safe for safekeeping. You see, for a bank deposits are a liability. They do NOT want them, they must guard them, pay interest upon them and insure them – it all costs money! They need to get rid of it asap. How do they do that? They find a BORROWER, someone who they tempt, like a drug dealer tempts an addict, into trying out some of that "excellent top-quality credit" to mainline.

Once the loan is made then they have an asset which they enter onto the book of the bank. Welcome to Alice in Wonderland World of Adventure where NOTHING, and I mean NOTHING, is as it seems.

Now, what banks have been savvy to for many, many, years is lending what they do NOT have, and it's called FRL (Fractional Reserve Lending) or The Goldsmith's Trick. Please go and read up on it as I have insufficient time or space to cover it here. How that takes place in the modern economy is simply by you asking to borrow they create a BOOKKEEPING ENTRY to show, as you asked, then so they created, and there's the key word CREATED not APPORTIONED. There never was a DEPOSIT and this is easily proven by the fact that there is nowhere near enough money in the form of NOTES, COIN or CASH (M0) to provide anywhere near a workable financial market – everything is bookkeeping entries.

What banks don't want! Cash in the safe and....

...for you to discover now, that in fact it was you who provided SECURITY/MONEY, in the form of goods and services, for the loan agreement when you took it out. It was YOU who in effect SOLD or PLEDGED (which so ever you prefer to call it), a 5, 10, 15 or 25-year futures contract of immense value, to the bank on the day you signed the agreement. Now, this is analogous to taking something of value to a pawn shop or taking foreign notes to a bureau de change. When you go and pawn your watch, the pawn broker takes a look at it, evaluates its worth, and decides to give you a price on it. You agree and out you walk with the cash.

This is an exchange, is it not. The pawnbroker holds a valuable watch and you have the notes. If you wish to take repossession later all you do is return the notes and he returns the watch.

But in the Alice in Wonderland bank, things are different.

What does the banker (successfully so in 99.9% of the cases) attempt to make you THINK you gave to him when you asked for the loan/mortgage advance? When he has “generated on the computer screen,” those imaginary, virtual digits called “extension of credit (not money) does he make you realize that you first gave wealth before you received it?”

Well, he makes, you think that YOU GAVE NOTHING OF WORTH WHATSOEVER AND THAT THEY GAVE YOU SOMEONE ELSE’S DEPOSIT MONEY which must be repaid and if it is NOT then someone, a granny, or farmer or retired General loses everything, (or they would if the bank did NOT step forward and guard and protect their interest from the likes of you!)

The lender/bank then added something called an allonge, an alteration, without your knowledge or consent which changed your Promissory Note into a cheque/ money loan from you to the lender/bank to pay off the outstanding mortgage and the previous owner if there was equity.

Part 2

WeRe Bank’s Debt Solution

Access the ARC of the Covenant

A.R.C = Ancestral Reparations Claim

The Solution - Is Easy

WeRe Bank of England offers to buy your debt from you. Simple.

You are the CREDITOR – You are the Beneficiary Under the Trust

You have been led to believe that you are the borrower and that the bank is the lender but in fact it is you who has provided the value for the contract.

You have done so in one major way and one minor:

The Major way is that your Global Account Trust Fund indicated by your ancestral birth-right and energy value is held in trust for you. In effect you are operating in a system of “pre-paid” trust accounts.

The Minor way is that it was you, yes you who provided the money/value when you signed the loan contract with the lending institution – they deceived you and your parents and theirs in turn that you provided nothing

So, we see that you have all been tricked, like innocent children, well-intentioned but somewhat naive, into thinking that you have borrowed “someone’s money” and that you must pay it back. You have done no such thing. If you do not get another thing at all in the remaining years’ you have still left to live on this planet you

MUST GET THIS! You have been hoodwinked and have been duped by the Venetian-Genovese-Florentine double entry demonic black-handed banking families into thinking you owe. The signature on the document is ALL THE WORTH THERE IS ON THIS PLANET – a man's promise to pay. Former times it was called an OATH and once given it could never be broken. The penalty was DEATH and today it is a knife held to your throat and called "financial death".

Along Comes Freeman Legal Services and WeRe Bank

The solution is now present before you and there is much to learn but to save time I will now outline the solution.

You have been allowed to act and behave like a mentally retarded teenager, the government has stepped in and taken care of you as it is apparent that you cannot do this for yourself and have not asked to do so. That's the Official View, Perspective on you.

Since the UK was taken off the Gold Standard in September 1931 (the USA in 1933) and Europe in 1945, then there has been no lawful money for you to spend. In effect you were promised (Bretton Woods Agreement 1944) a *"line of credit from your trust-fund"* but it was never produced. In the previous 3 to 5,000 years you could, with the aid of a time machine, have travelled anywhere along and back of this timeline and found that a castle or herd of cattle in 3,000 BC was around the same price as in 1935. A horse, a saddle, a pair of fine shoes, sandals, a top of the range suit of clothes for the era, the purchase of a ship or boat – all would have been the same price in gold – wherever on that timeline. BUT that all ended after WWII – that's because now all the world's gold supply had been confiscated by the *"Annunaki Place Holders"* on Earth – the Zionist Khazarian-Ashkenazi Banking Cartel Mafia. From that point on you were introduced to interest, inflation and taxes on a scale never before witnessed. Debt slavery was here – and it seems it was here to stay!

The Price Stability – Central Bank Mantra Lie

Now how strange that the European Central Bank, The World Bank and the IMF and the FED all parrot the same mantra, **"we aim to ensure price stability"**, when they ensure anything but.

For example, from 1919 to today in the USA the value of the US Dollar has decreased 98% of its purchasing power. Once the gold standard was abolished then the CREDIT TRAP was sprung. Prices rise because of the Fractional Reserve Lending and the DEBT NOTES which the bankers circulate and for no other reason.

Banking is genocide – banking is war crime and banking is parasitic to all its hosts if interest is charged!

NEWS

The author of this work has spent many years looking to unravel the inner workings of the corrupted financial system of global banking and regulation and finally come within striking distance of the summit or apex of the climb.

It is discovered that there are various secret and secretive treaties and conventions and governmental agreements which allow citizens debt to be laundered via the system.

The technique is sensitive but relatively straight forward to understand BUT that does NOT mean it is easy.

We need people and are only wishing to take people forward on this if they feel eager for the fight or the contest. *Freeman Legal Services* can and does do most of the work BUT ultimately you have to be responsible

and show strength and believe, through information, education and knowledge that what you are doing is correct and will work. Belief is everything.

Finally, as for the phrase “Legal Tender”

Legal Tender is both a noun and an adjective

Money and Legal Tender are of 2 types

Pre and Post 1931 (UK), 1933 (USA) and 1945 (BRD)

No PAYEE (utilities provider, tax office, local council, phone company bank or other institution) on the corporate privateering side can stipulate to you “*what you have pay in/with for the goods and services which you have supposedly taken from them*”. Why? Because no one has a definition of legal tender sufficient to cover all instances and “if they cannot cover all they cover none” (See the Report of the Legal Tender Euro Expert Group*). http://ec.europa.eu/economy_finance/articles/euro/documents/elteg_en.pdf The Report page 4....

“Nevertheless, it was agreed on the Union level that although bank transfers were a perfectly valid means of payment to settle a monetary debt (i.e. have 'pouvoir libératoire'), their acceptance has not been made universally mandatory so that they cannot benefit from legal tender status;”

Further proof?

Try 12 United States Code (USC) i.e. Title 12, Chapter 3, Sub section XII, para 411: **Issuance of reserve bank: nature of obligation redemption**

“Federal reserve notes, to be issued at the discretion of the Board of Governors of the Federal Reserve System for the purpose of making advances to Federal reserve banks through the Federal reserve agents as hereinafter set forth and for no other purpose, are authorized. The said notes shall be obligations of the United States and shall be receivable by all national and member banks and Federal reserve banks and for all taxes, customs, and other public dues. They shall be redeemed in lawful money on demand at the Treasury Department of the United States, in the city of Washington, District of Columbia, or at any Federal Reserve bank.

(Dec. 23, 1913, Ch. 6, § 16 (par.), 38 Stat. 265; Jan. 30, 1934, Ch. 6, § 2(b)(1), 48 Stat. 337; Aug. 23, 1935, Ch. 614, title II, § 203(a), 49 Stat. 704.)

The same is also true for the UK and Europe and Asia and so on, and all hidden in plain sight by presumptions, just like paying taxes, but hang on a moment. There are two types of legal tender are there not? Yes, indeedy, there are. One is the Pre-1931 UK, Pre-1933 USA and Pre-1945 Germany legal tender and one Post these dates.

Is there a difference? You bett’ya.

An example metaphor: In 1930’s in England, 1932 in New York I am selling cartons of orange juice for \$£1.00 per lot.

Everyone knows what is in the carton/lot – it’s full of orange juice and people buy the carton for drinking, also for storing or saving or trading. We call this LEGAL TENDER; it indeed was the Gold Standard and gold was the ORANGE JUICE and the CARTON “the promise” of the juice to come. Some people preferred to just carry the

carton with the PROMISE that juice would be re-filled in it when demanded – it was lighter and easy to transport. The commodity of the carton of orange juice comprised of three parts –

ONE, the thing which identified it, the packaging-promise,

TWO, that which was inside the value (orange juice/gold) and

FINALLY, the price of that carton + contents combined.

The packaging was the promise to pay and the stuff inside was the “promise itself”, the gold or juice, which had a known value – either as a metal or calories. Remember! A promise always implies that the thing itself is NOT available or undeliverable.

However, with **the Gold Standard Amendment Act September 1931**, suddenly and without anyone knowing, the cartons of orange juice were now being sold and traded WITHOUT ANY ORANGE JUICE INSIDE and people just had to accept the PACKAGING AS THE ENTIRE AND TOTAL REAL THING. The Central Banks were now offering empty cartons instead of full and no one was to bother with the details.

So, the promise itself, BECAME the thing of value and this was the trick. If it is a trick, then it is dishonest and if it is dishonest it is a fraud and it is a fraud!

It is a fraud because no one, no one ever makes good on the promise because 1. They cannot and 2. It is backed by nothing, zero, nada!

So, if the PAYEE (your payee) is stipulating that you must pay in LEGAL TENDER THEN HE IS ASKING YOU TO PAY ON AN IMPOSSIBLE CONTRACT AND IMPOSSIBLE CONTRACTS ARE NULL “*ab initio*” due to the fact that errr, they’re impossible.

Now, if you would consider paying in legal tender pre-1931/1933/1945 then it would be an interesting proposition because the *one thing the world had prior to these dates*, before the world was taken off the gold standard, before the printing presses could pay for anything and fund wars off paper [and non-asset backed at that], then we had PRICE STABILITY! Period. We had price stability for some 3-5,000 years. What this meant is that up and until circa 1972 you could go back in your time machine to any point along the timeline and pay for the same goods and services with the same “weight in gold!” Now that’s incredible and says something very damning about the bankers. With endless credit of account and fractional reserve printing they could now (post 1945) pay for anything with nothing and so before that date, no dictator or King could wage a war without the necessary shiny gold stuff or raising funds by selling his cattle or people in return for favours. However, post 1931/1933/1945 “money” no longer existed as money, it was just “a specie of money” called currency and the one thing currency is NOT is money, but money can obviously be currency. Extension of credit became the norm – slowly but surely. Issuance of bank money today is the extension of CREDIT and credit is NOT money but “debt” and the subtly is lost on everyone.

And so, this is the position your parents found themselves in and you now find yourself in today. Post 1931/1933/1945 your money supply was no longer available. Before you had privity – and absolute bedrock tenet of The Law of Contract – “Finality of settlement on the spot of time” is what you had. You paid Joe for his apples with what you agreed upon. No one else involved BUT the moment you allowed a 3rd party to intervene and be the arbiter of what you got paid and when it got paid then you and yours were already sunk. You were forced from the Private side and onto the PUBLIC side of the accounting ledger and that has massive consequences.

“Why this Solution Works”

The Global Accounts are being prepared for payment instructions which will result in a global debt jubilee being pronounced. WeRe Bank of England is central and pivotal to this end.

What WeRe Bank of England has done is set itself up as “alternative service provider” (ASP) to the corrupt and failed banking slavery entrapment system – High St. banks supported by the fake news media and the Judiciary and regulatory bodies.

WeRe Bank of England has been allowed to act as lead Administrative bank in this debt forgiveness cycle as it was the first bank in the world (2015) to begin to disprove the criminal banking system via its promissory note backed LLT/cheque clearing system – SWALLOW.

The facts are as follows:

A bank has credit lines and in the olde days real physical money it could hold and lend at interest.

When this system was switched to full criminal usurious extortion and fake note issuance in 1945 then “money supply” was placed into the hands of the 300 Families who control the world’s economy and finances – hence you.

What has been done is criminal and a crime against humanity and these individuals are being called forward, as you read this, and prepared for the rendez vous with their Creator.

The CREDIT agreements which have been foisted upon you are exceptionally difficult for you to acquire (cash money) and exceptionally difficult to pay of (loans/mortgages credit agreements etc) once you have been entrapped by them.

The trickery and deception has worked for them very well and been very effective for millenia – however, though their schemes may be fool proof they are not God Proof and God has shown a way through.

The best analogy would be to describe the loop hole as follows:

A bank is a grand institution with millions of ££\$\$\$€€ available for CREDIT issuance. The front of the building is luxurious, fine, the building grand and opulent. It is impossible to rob it these days and the money is virtual – but NOT your obligation to pay the “debt” back.

The banks assets are NOT though this front of office CASH or CREDIT business - no sir, it is what’s around the back of the bank building where the worth is parked or dumped.

The back of the metaphorical Glistening Bank building has all its dirty, filthy toxic debt leaking into society – parked or dumped there leaking into society awaiting collection by voracious secondary market verminous hyenas and carrion birds which devour it and punish you further – these are called baillifs, collection agencies , enforcement officers, judges, court officials etc.

WeRe Bank of England has uncovered a secret method to eradicate the rotting pile of debt which has your name upon it stored behind Glamour Bank, which is as simple as it is genius.

The Method is simply for you to assign this debt (so called) to a 3rd party and allow them to pay it off/dispute it/handle it or otherwise do whatsoever they will with it leaving you free and clear of all responsibility.

How can this be?

Very simply answered by two facts.

Fact one GAAP

Fact two You are the Creditor and NOT the Debtor on the agreement/contract

The Steps through the Debt Assumption & Assignment Service are now outlined and explained as simply as possible.

Precise details of the Procedure will be given to you when **Freeman Legal Services** has confirmed that **WeRe Bank** will accept your debt and you have paid any fees required to Freeman Legal Services. Providing this information prior serves no purpose as you have more than enough to concentrate upon with what you already must do.

Please note that this document has been paid for by you. It is NOT to be photocopied or circulated to anyone without the author's express permission. Various security features are included within to allow us to track the source of leaks. Each document has been provided with a deliberate mistake on one or several pages. We have insisted that you make a small payment so that we can tag your payment history with the document and hence the **Confidentiality Agreement** which you will/may need to sign.

This is being done to avoid mass distribution of the material as we have found that the "system's gatekeepers" will allow certain, well prepared cases to clear through the TDA or Global Accounts if properly handled.

The Steps

All procedures MUST be satisfied before WeRe Bank will accept/purchase your debt. Please follow these instructions precisely. Make sure you keep copies of everything and all mail should be sent RECORDED - SIGNED FOR. The information in this Info sheet is NOT comprehensive. It merely goes to provide a sketch outline of the processes involved. To make it otherwise would make it too cumbersome for those wishing to simply understand what is being offered here.

NOTE

You must become a "private banker" before beginning any of these processes. Join the **International Association of Private Bankers (IAPB). Being part of an association is always a better method. It gives you support and adds volumes to your communication and correspondence.**

<https://removement.net/the-shop?olsPage=products%2F12-months-membership-iapb>

With the purchase of this information pack you are now on the road to writing off the debt (so called) which has been burdening you for some time. The necessary steps are as follows.

Brief Mechanics of The Plan

1. Change your status.... so that you become a private banker. This changes your jurisdictional competence
2. Complete the paperwork supplied to you by Freeman legal Services.
3. WeRe Bank of England buys the debt from you – alleviating your responsibility under the contract you have supposedly made with Scam Bank International (fraudulent). WeRe Bank steps in then in several mutually exclusive guises as “Guarantor”, “Referee”, “injured party” and “plaintiff”.
4. WeRe Bank of England’s position is supported by The Bills of Exchange Act 1882 **Section 15** (Referee in Case of Need) and **Section 68** (Payment for Honour Supra Protest).
<http://www.legislation.gov.uk/ukpga/Vict/45-46/61>
5. Please note that the original contract between you [the Originator of the Loan (so called)] and the lending institution was fraudulent and in contract law, fraud undoes everything.
6. Refuse all further communication with the mortgagee, lender, financial institution.

More Detail

Differs in that we simply have you sell your mortgage contract note to WeRe Bank. WeRe Bank will buy the note from you and at the same time enable two other safety measures to hold the transaction. The first is a Deed of Assignment of the debt (so called) to WeRe Bank and the second is for WeRe bank to subrogate all your responsibilities under the loan contract. This method or approach has you simply maintain that “you have sold your rights to a 3rd party” and so is contrasted in that with Route 2 in that you simply “wash your hands of the whole affair.”

Another important difference between Routes 1 and 2 is that with 1 you are ordering HM Treasury to make the payment and in Route 2, you are simply telling the current mortgagee (lender) that they are no longer dealing with you as you have SOLD ON THE CONTRACT NOTE as is your right, under contract law. They will claim otherwise BUT we can prove that it is you who are the CREDITOR on the action and they are the DEBTOR. Route 1 you stay involved and Route 2 you sell and walk away.

What this means is that they are involved in criminal fraud and can no longer claim plausible deniability. This means then that WeRe Bank becomes the “holder in due course” on the mortgage promissory note which you signed and becomes the plaintiff in an action for criminal wrongdoing and civil claim for damages based on the fact the lender made fraudulent misrepresentations, originally to you, but now to WeRe Bank if they persist.

Freeman Legal Services (FLS) provides the legal paper work and law <http://www.freemanlegalservices.com>

Route 1. - WeRe Bank purchases your debt contract and FLS handles the rest. You pay FLS for the service. In effect here, we first **PROTECT** you by becoming SURETY/GUARANTOR on your NOTE and then **DEFEND** and **DISSOLVE** your previous position by obviating the “FRAUD in the FACTUM” on the original agreement, by 1) Stating that WeRe Bank is now HOLDER IN DUE COURSE on the NOTE following your endorsement and 2) Seeking damages on behalf of a fraudulent transaction and agreement

Either way you first must become a “private banker”.

Change Your Status Change Your Payment Method Entitlement

If you can't beat them – Why not JOIN them?

- **The Bank of England** (£ prom note) Issues Monetary Unit of Account (£ prom note) - **Private Bank**
- **The New York FED** (\$ prom note) Issues Monetary Unit of Account (\$ prom note) - **Private Bank**
- **The European Central Bank** (ECB) Issues Monetary Unit of Account (€ prom note) - **Private Bank**
- **You as a member of the I.A.P.B.** (£\$€ prom note) Issues Monetary Unit of Account (£\$€ prom note) as a **Private Banker** – Legal Tender = Money (gold silver coin)

Before you undertake any of these procedures we will require you to change your status from “private citizen,” “subject,” “asset” or vassal/Ward of Court/pauper/lunatic, to that of “**private banker.**” It may also be best for you to issue a Living Will as this proves you are of majority, of sound mind and living. This you need to do for several reasons. It was initially thought that only those going with the International Promissory Note (IPN) Route 1, would need to do this but information has come to bear that shows it is much less of a bumpy route if all take this option.

For those using FLS **Route 1** – they invariably signed the loan agreement with the bank or financial institution in the name as it appears on their birth certificate or married name. In this respect they are assumed to be acting as a “person” under **Article 6 of the Universal Declaration of Human Rights**, and or a “legal corporate strawman” fiction legal entity and NOT a beneficiary under the Global Trusts.

The Remedy – Private Banker – Transfer Ownership to a 3rd Party

You restore yourself to the position of providing your own money. As you do not have gold or silver in quantities enough to function in this post 1931/1933 death house, you have the absolute right to do the following:

1. Take responsibility for your financial affairs.
2. Reject the offer of payment structure from both the Government and the Central Bank [and by association the Payee PIRATE PRIVATEER CORPORATIONS operating under the “Letters of Marque” issued by The Crown Corporation].
3. Become a private banker under national and international laws
4. Pay off all and every debt (so called) by making an offer of payment in....

**THE SAME SPECIE OF “MONEY” WHICH WAS CURRENT
WHEN THE OBLIGATION WAS FORCED UPON YOU.**

FURTHERMORE:

Please do NOT forget that all the contracts which you labour under are classed as “Adhesion Contracts”. You have little choice in taking them out. You may think you can choose but you cannot and as all the multi nationals own each other and everything under them whether you choose Virgin Mobile, O2, Vodafone, Telecom, SFR, Orange etc., it makes no difference – you need these “goods/products/services” to live and operate so you have NO CHOICE UNLESS YOU DROP OUT OR GO OFF-GRID. No choice is not free choice, it is not “informed consent” and it is not morally acceptable, see:

“The Network of Global Corporate Control” by Stefania Vitali, James B. Glattfelder, and Stefano Battiston.
https://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf

Break Free

The choice now, as we go forward, is to fully expose the nature of the falsity of the requested payment structure demanded – show the impossibility of making a payment that way – paying in a manner which honors the so called “obligation” while at the same time recognizing and flagging up that you will ONLY PAY IN THE SAME SPECIE OF MONEY WITH WHICH THE OBLIGATION WAS CREATED and that is “monetary unit of account issued via a private bank/banker”

The Non-Assignability Clap Trap Argument:

It is also the practice of the bank or other financial institution, to claim that you do not have the right or authority to hand over your contractual liability (so called, even though, as it was born of fraud, nothing can come of it) without their express consent. This is nonsense both under basic Law of Contract (equanimity of terms and rights) (contract law) and because ONCE YOU BECOME A PRIVATE BANKER you are acting in a totally different and superior capacity than if you were writing, speaking or otherwise communicating with them as “registered, social security numbered person” in your former capacity. In addition, as CREDITOR and no longer DEBTOR, you have the very rights which they claim THEY HAVE but YOU DO NOT. It’s called a 180 move and its bomb-proof.

*(See An **assignment** (Latin *cessio*) is a term used with similar meanings in the law of contracts and in the law of real estate. In both instances, it encompasses the transfer of rights held by one party, the assignor, to another party, the assignee. It can also be a transfer of a benefit, including an equitable interest, according to established rules (at common law or in equity). The rights may be vested or contingent. The details of the assignment determine some additional rights and liabilities (or duties).*

Typically, a third party is involved in a contract with the assignor, and the contract is, in effect, transferred to the assignee. For example, a borrower borrows money from a local bank. The local bank receives a mortgage note and can thereafter transfer that note to a financial institution in exchange for a lump-sum of cash, thereby assigning the right to receive payment from the borrower to another entity. Most home-owners don’t know that they Pre-Paid their mortgage when the Lender or Bank “closed” the deal, two to three days after your closing (exchange of contracts). Therefore, it is called a “Closing”! This means that your note and mortgage contract loan was paid by your debt signature and the bank received their money!

Mortgages and lending contracts are relatively amenable to assignment since the lender’s duties are relatively limited; other contracts which involve personal duties such as legal counsel may not be assignable.

A Summary Now Follows - 8 Step Procedure

ONE. Become a member of **The International Association of Private Bankers** and become a “private banker” under The Bills of Exchange Act 1882, and UCC (Uniform Commercial Code Article 31 Section 5312 (1)(2)(a). This changes your status. IAPB Link attached <https://removement.net/the-shop?olsPage=products>

TWO. Once you have become a member of the IAPB you will need to collate the data from your loan agreement(s). You will fill in the attached form [Form either on-line or physically sent - OPTION]. We will need all details of the loan which you expect WeRe Bank to purchase listed. (See form WB001) Registration - Form

THREE. Freeman Legal Services will upon receipt of your completed APPLICATION FORM (Registration Form) (DAS) (Debt Assignment Service) form, check it and ensure it satisfies the parameters required. If so then the next step 4 follows. Initially the form is enclosed in the Info Pack email – it will soon become a Fillable Pdf. On the website. The form should/could also be with this email.

FOUR. The fee charged by **Freeman Legal Services** will be communicated to you and this fee will be paid into the Freeman Legal Services account prior to us agreeing to handle your case. The cost is £500.00

FIVE. WeRe Bank will then be contacted and informed of the amount and the payment. WeRe Bank will then send to you a PRE-SIGNED CONTRACT stating it is buying the DEBT FROM YOU for 1gram 99.9% fine gold coin/lawful money [*as opposed to debt backed extension credit money of account*]. You will sign the contract and once it is received by WeRe Bank, the “real money” will be delivered to you at your stated address.

SIX. Once you have received the symbolic PAYMENT IN REAL MONEY (your part in the operation is in effect, over. There will possibly be incidental communications offered to you via the previous lender (so called) but they will be advised NOT to communicate to you further otherwise complaint will be made to the Police. All mail received after the assignment date is to be returned, unopened with a white label attached to sender: RTS = Return To Sender.

SEVEN. *Freeman Legal Services* will now write to the bank [or other financial institution] informing them, that a “transaction between private bankers” has resulted in WeRe Bank of England now being in possession of the loan agreement/promissory note/negotiable financial instrument. WeRe Bank of England being now the *HOLDER IN DUE COURSE* on the note (promissory note) is requesting the Deed of Trust (Mortgage Deed).

EIGHT. There is expected to be then the usual “to-ing and fro-ing” as the bank tries to say what it wants to happen as opposed to what is “going to happen”. This is of little concern to you.

Freeman Legal Services and WeRe Bank will jointly then initiate the following:

A verification from the Land Registry to see if the Mortgage Deed [and note] has been registered and to whom.

Establish whether the mortgage deed and the promissory note security for the Deed have been separated from each other and if this is so, renders the Deed and Loan Application worthless.

A “fraudit” to prove that the bank/lending institution has in fact fraudulently entered your original loan application as an “asset” but then rendered it back to you as a “loan” and has breached the *Generally Accepted Accounting Principles* (GAAP). In effect the lied about the nature of the contract security. For this we will use a competent accountant who will be able, if necessary, act as an expert witness.

The bank’s/financial institution’s audit firm will be put on notice of the fraud as they have signed off the Annual Report as being “fair and accurate”.

The law firm (in house or external) which represents the bank/other financial institution will be informed that they have participated in fraudulent misrepresentation and fraud pure and by continuing to hold their position cannot claim a defence of ignorance.

In any court action you and FLS must ensure that you are the PLAINTIFF and not the defendant.

Final detailed instructions sent to you to deal with any further communication from the old lender (so called) this involves RTS all mail arriving through your letter box.

Peter of England
