

Gifford Pinchot State Park

Memorial Bench Program

It is an honor that Gifford Pinchot State Park is being considered as a place to memorialize a life that has passed. The cost of a bench is a generous contribution to the improvement of the park. This \$800 donation to the park's associated non-profit group, the Friends of Pinchot Park, allows for the purchase and installation of a standard-designed six-foot bench, which would include an affixed placard.

Maps with pre-approved bench locations are available at the park office. Please stop by or contact the main park office for more information.
