## Fresh Flowers & Artificial Flowers

With over 25 years experience as a Wedding Florist, Maria Vamvatsoulli isn't just a 'florist', she is what we call 'A designer of flowers!' Creating nothing but gorgeous designs with her innovative ideas and passion for flowers in a unique way or contemporary with traditional arrangements understanding the importance of professionalism, climate, budget and finish, but never compromising a service or need. Just as importantly we understand that not every bride wants fresh flowers and some prefer the artificial silk arrangements, so we have showcased a small selection of the range for brides looking to keep their arrangements to take back home with them. Please remember that this is a guide to detail prices , styles and designs - bespoke arrangements and quotations are available upon request.

A close-up photograph of a bride holding a large, round bouquet of flowers. The bouquet features a mix of white and light blue flowers, including what appear to be ranunculus and hydrangeas, interspersed with greenery and long, thin, feathery grasses. The bride's hands are visible, holding the bouquet, and she is wearing a white wedding dress with lace detailing. Her hair is styled in a long, intricate braid. The background is softly blurred, showing other people in wedding attire.
