

FIBEROGRAPHY

MY GARDENS ARE MY ORIGINAL CANVAS. THEY ARE WHERE I CREATE VISUAL BOUQUETS OF COLOR, TEXTURE, AND DEPTH. FIBER IS MY CHOSEN MEDIUM. HEAVILY INFLUENCED BY MY FAVORITE ARTIST GEORGIA O'KEEFFE, I AIM TO SHARE THE BEAUTY AND PEACE I OBSERVE DAILY IN MY GARDENS WITH OTHERS THROUGH MY PHOTOGRAPHY.

by Christine Guernsey

THE ARTIST

Christine Guernsey is a Texas-based fiber artist, photographer, and avid gardener whose work bridges the boundaries between nature, image, and structure.

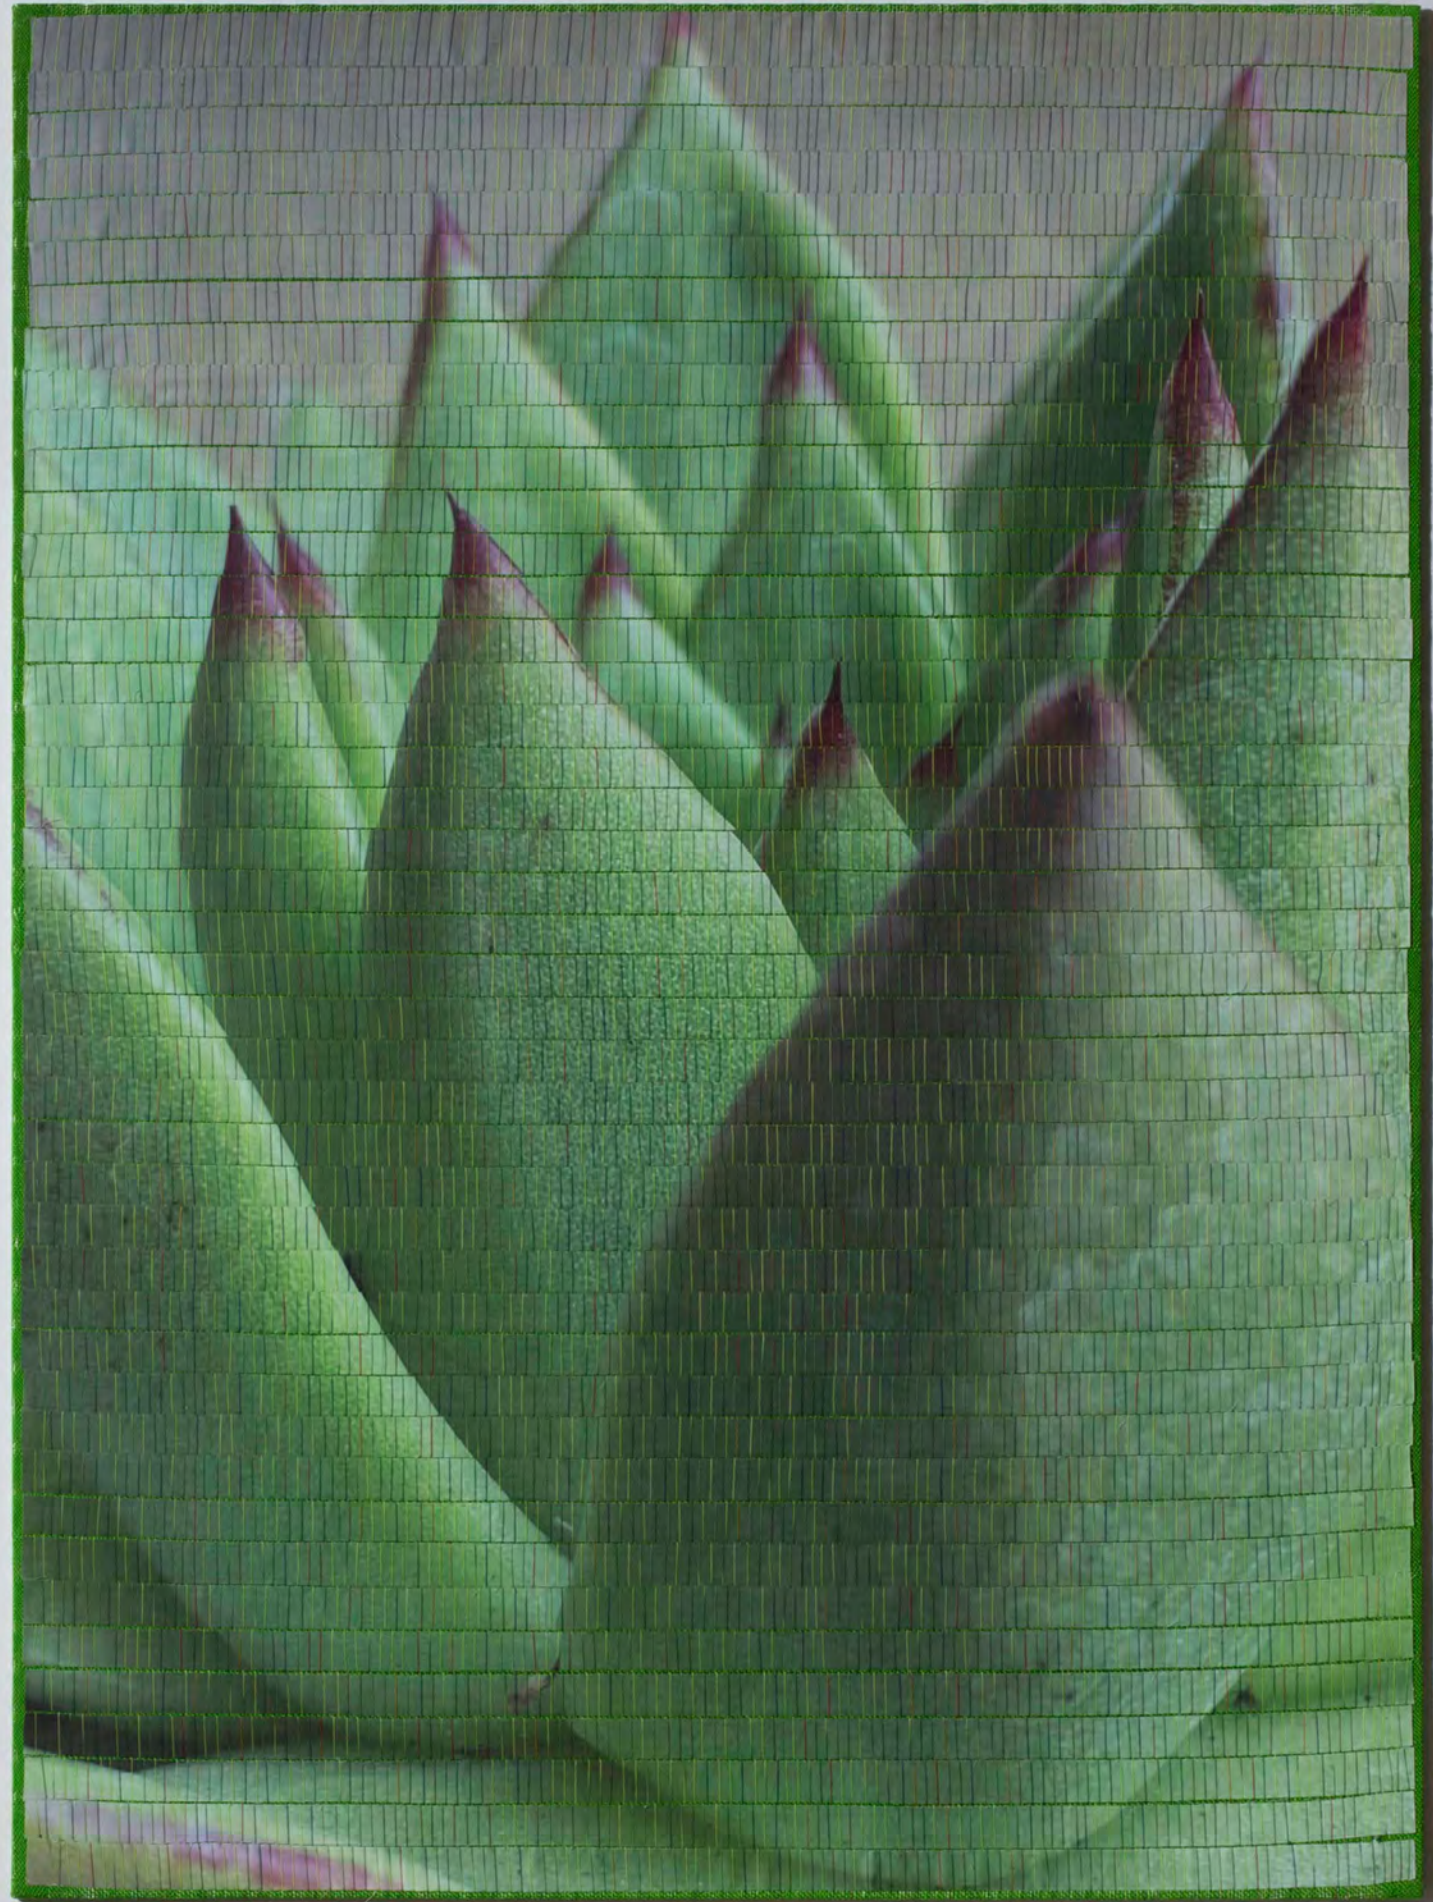

In her gardens, she observes and photographs fleeting botanical moments – the brief bloom of a perennial, clusters of blossoms, or the intricate patterns of leaves. From these images, Guernsey enlarges, crops, and abstracts details before printing them on large sheets of cotton fabric. She then weaves the printed surfaces on a traditional four-harness floor loom, using more than 900 multi-colored sewing threads as the warp. The resulting works are not reproductions but reinterpretations—where image and structure become inseparable, and the natural world is both preserved and transformed.

Her works have been widely exhibited in galleries and art spaces throughout Texas.
