

MEMORANDUM

To: Residents of the Town of Cochiti Lake

From: Corey Trujillo, CEO, CCDC

Date: November 2025

Subject: Public Service Announcement – Well 1 Upgrade Schedule

This memorandum serves as a Public Service Announcement to inform residents that **Well 1 repairs and system upgrades will begin on November 22 and continue through November 24.**

During this repair period, we ask all residents to continue following previously issued guidance regarding **water conservation** and the **recommended boil notice**. While the boil notice is not mandatory, it remains strongly encouraged as a precaution to reduce potential risk during the repair and upgrade process.

Water levels and system pressure are expected to remain stable, and no interruptions in service are anticipated. However, we still recommend ongoing water conservation to help maintain system balance while Well 1 is offline.

Repairs are anticipated to be completed by **Monday, November 24**. If additional time is required or if new impacts arise, an updated notification will be issued promptly.

Thank you for your cooperation and patience as we continue improving the water system for the community.
