

Electrical Permit Form

Electric Installation Requirements

The permit you just filled out has to be approved by the Trusteeship before work can begin. Please give us at least 4 days to process your permit. The office will contact you once your permit has been approved. It is your responsibility to pick up and post your permit on your lot. Please notify the office once work has been completed.

You must contact Dig Rite (811) and receive conformation from them that all utilities have been marked before you start your electric installation.

If there is to be trench work crossing a road, please notify the office 5 days before the work is to begin.

Once you have all your work complete for the electrical installation, and everything is in place. Verify with Crawford Electric that the trench may be filled in.

Electric pedestal must be placed at least 15' from the road and at least 5' off each property line.
