This Trust Indenture and these covenants are applicable to the entire WOODLAND LAKES subdivision and all plats thereof, and shall run with the land and shall be binding upon all parties hereto and all persons claiming under them including lot purchasers and owners. The use and enjoyment of each lot in the subdivision is subject to the rights and of the Trustees and Trusteeship established in this instrument and these restrictive covenants, or as same may hereafter be amended. The provisions of this Trust Indenture and these restrictive covenants are mutually enforceable by the Trusteeship and each lot purchaser or owner and shall be applied uniformly to every lot.

2. There shall be four (4) types of property located within the subdivision, identified as:

a. "Common Ground," being all strips and parcels of land delineated as and constituting the drives, lanes, circles, streets or roads on the plats of the subdivision; the lakes, dams, swimming pool and related facilities; and all other land, lots and facilities designated as common ground on any subdivision plat or owned, maintained, operated and/or constructed by the Trusteeship for the use or benefit of all lot owners;

b. "Commercial Lots," being the lots upon which this Indenture and these restrictions permit a commercial or business use, to-wit: Lots 1-12 and 63 and 64 of Block 1 in Section 11;

c. "Camping Lots," means any lot within the subdivision (not owned by the Trustees or Trusteeship) being less than 15,000 square feet in area. The intended use of camping lots is for temporary recreational enjoyment versus the establishment of a residence. The placement or erection of mobile homes, modular homes, or permanent residences are prohibited as they would violate the "camping" nature of said lots.

d. "Residential," being all lots or land within the subdivision not owned by the Trustees or Trusteeship and not falling within the definition of "Commercial Lots and "Camping Lots". Residential lots shall be designated as "Building" and "Multi-Purpose."

Unless otherwise permitted on the plats of the subdivision, no structure or improvement shall be placed or constructed on any residential lot other than one (1) permanent single family dwelling. Constructed dwellings must have not less than 1,000 square feet of heated living area exclusive of porches, patios, garages, basements and attics on lots designated as "building only". Constructed dwellings must have not less than 720 square feet of heated living area on lots designated as "multi-purpose". Mobile homes or modular homes shall be allowed on residential lots unless expressly prohibited by the plats of the subdivision and if so authorized, shall contain no less than 720 square feet in size of enclosed, heated living space.

All constructed dwellings shall face the street or road upon which the lot fronts and no part thereof shall be nearer than twenty-five (25) feet from the front lot line, and the distance from each side of the dwelling shall be no closer than five (5) feet from the side of the line of said lot. When the lot topography is not conducive to these limits, the Trustees may allow a variance therefrom. All such dwellings shall be constructed of new materials. There shall be no shed roofs and all buildings shall be finished and painted or stained on the outside. No basement shall be occupied until living accommodations are completed. Any improvements shall be completed on the exterior within six (6) months after construction starts. All other structures shall be in the rear of the living accommodations and shall be sightly of neat construction, and of a character to enhance the value of the property. A garage may be constructed separately or attached to the dwelling, but must be of the same construction material as the living accommodations and the exterior of it must be finished in the same manner as the living accommodations (except in the case of mobile homes). No building shall be constructed below the flood plain elevation line notwithstanding other provisions herein. All structures, buildings, fences, swimming pools and other improvements must be approved by the Trusteeship prior to their construction or placement on any lot within the subdivision and all plans for such must be submitted to the Trusteeship for approval at least thirty (30) days prior to the date of commencement of construction or placement.

3. All lot owners shall have the right to use the roads, streets, drives, lanes and circles within the subdivision as a means of ingress and egress and all other common property within the subdivision, subject to the reasonable rules and regulations promulgated by the Trustees pertaining thereto. Property owners not in good standing shall be denied vehicular ingress to the roadways and common areas of the subdivision and shall be prohibited from operating vehicles while in the subdivision. Exceptions may be made by the Office Staff or any one Trustee to grant entry by single-entry pass for specific purposes including, but not limited to: to secure property after any property damage or removal of personal items from the lot. Property owners in good standing, who violate the rules for common ground use may be fined at the rates listed below. In addition, at the discretion of the board of trustees, the violator may be prohibited from operating motorized vehicles within the subdivision. Should the nature of a rule violation warrant it, the Board of Trustees reserve the right to waive the first, second and third penalties as noted and proceed with immediate action including but not limited to: maximum fine amounts, suspension of common ground privileges and/or legal action.

- First offense -- \$50.00 fine and a warning

- Second offense -- \$100.00 fine and a temporary revocation of privileges
- Third offense -- \$200.00 fine and revocation of privileges

Guests repeatedly violating the rules for common ground use may be required to leave the subdivision, and denied entry in the future.

Any fine assessed will be added to the property owner's assessment account and must be paid in full before automobile stickers and owner identification cards will be issued. Fines for violations of guests will be added to the property owner's assessment account. Interest will accumulate at the same rate as the assessments.

4. No signs may be placed or maintained on any lot other than the name or address of the owner, which signs shall be no larger than two (2) feet long and one (1) foot wide. Each lot must be mowed and kept free of weeds and underbrush for the general appearance of the subdivision and prevention of fire.

5. No debris, trash or unsightly accumulation of materials or junk shall be allowed to remain on the premises and outside storage facilities will be permitted only if prior approval thereof has been obtained from the Trustees in writing.

6. No animals shall be kept, maintained or raised on said premises except house pets, which shall be kept on a leash when on said premises when not in an enclosure. No poultry or livestock such as horses, cattle or pigs shall be allowed within the confines of the subdivision. No noxious or offensive activity shall be carried on any lot nor shall anything be done thereon which may be or become a nuisance or annoyance.

7. Before any dwelling, modular, or mobile home is placed on any lot within the subdivision, the lot owner or purchaser must first apply for and obtain a permit for the installation of both a water well and for the installation of approved sewage or wastewater disposal facilities from the Trusteeship. Approved sewage or wastewater disposal facilities and water well must be installed and in operation before a dwelling, modular, or mobile home is occupied. The Trustees approval of any wastewater facilities shall not constitute any representation or warranty by the Trustees that such facility will operate properly or in accordance with applicable law.

8. Water wells installed by lot purchasers or owners must be cased and sealed with grouting or other appropriate material. Written evidence shall be provided to the Trustees by the lot purchasers or owners that individual drilled wells conform to these standards and applicable law. If connecting to an existing well owned by another, an agreement must be provided by the water well owner, expressing their willingness to provide waver to another. Should the agreement be terminated, the well owner must notify the Trustee Office immediately and another connection or individual well completed within thirty (30) days. Current residents not in compliance as of October 6, 2001 shall be given six months to come into compliance or face revocation of the permits issued for their dwelling, modular, or mobile home.

9. This amendment is required by the rules and regulations of the Department of Natural Resources and the Washington County Health Department. The Washington County Health Department is the governing authority, with respect to Woodland Lakes, for all onsite waste-water treatment (septic) systems including holding tanks that receive less than or equal to 3,000 gallons per day of domestic wastewater. There shall be no new onsite waste-water treatment systems including holding tanks of any nature placed on any lots designated as "camping" lots. No permit for any waste-water treatment systems for "Residential" lots shall be issued without an approved permit from the Washington County Health Department and a soil morphology/soil evaluation having been performed, at the lot owner's or purchaser's expense, by a professional engineer registered in the State of Missouri indicating that effluent shall be contained on the lot as required by the rules and regulations of the Missouri Clean Water Commission, Department of Natural Resources. The size, design and construction of an aerator shall comport with applicable laws.

- a. To become a permanent resident on a residential lot, you must first have a well, State approved waste-water treatment (septic) system and a home of the appropriate size for the lot designation.

- b. There shall be no permanent residences including cabins or other structures that could be used for residential purposes allowed on camping lots. Only camper-type vehicles or sheds no more than 420 sq ft are allowed on camping lots. Usage of camping lots are limited to no more than 180 overnight stays per 12-month period. Lot owners shall have year-round access to their lot and other amenities within Woodland Lakes for maintenance and enjoyment purposes.

10. In the event that any Residential lot does not pass a soils and site evaluation, then the lot purchaser or owner shall contact the Washington County Health Department to determine if a holding tank is a viable option under their permitting authority. The size of said holding tank shall be of a design and construction as required by law and approved by the Washington County Health Department. Each lot purchaser or owner shall be required to cause said holding tank to be regularly pumped by any person, firm or corporation approved by the Trustees in order to assure compliance with applicable law.

11. No new onsite waste-water treatment (septic) systems including "holding tanks" of any size or nature shall be placed or installed on a camping lot, except those contained within a commercially manufactured camper-type vehicle.

12. The Trustees shall maintain periodic inspections of all sewage disposal facilities. Upon the failure of any lot purchaser or owner to properly maintain any sewage disposal facility in accordance with the standards set forth in this Article or in the permit for construction granted by Trustees, the Trustees shall then and there, on behalf of all the other owners, take such action as shall be necessary to restore the facility to approved standards, all at the expense of the owner, including the costs of an action for injunctive relief.

13. Any structure, building, or mobile home or camper must be approved by the Trustees before being built or located on a lot. Recreational vehicles and mobile homes shall be of commercial manufacture. Pending the construction or placement of a mobile home or constructed dwelling, lot purchasers may, upon approval of the Trustees, use a motor home or camper of an approved character on a temporary basis. Permanent or temporary structures including but not limited to camping cabins shall be permitted in the part or parts of the subdivision designated as "multi-purpose lots" with the expressed written approval of the Trusteeship via the permit process upon such terms and conditions as the Trusteeship determines.

Sheds shall not exceed 420-sq. ft. on lots designated as camping
only lots.

Camping cabins shall not exceed 520-sq. ft. on lots designated as Multi-
Purpose.

14. If any lot owner or purchaser shall violate or attempt to violate or omit to perform any covenant or restriction contained in this instrument, then the Trustees may proceed in law or in equity against the person or persons violating or attempting to violate or omitting to perform such covenant either to prevent it, or them from doing so or to recover damages or other dues for such infringement or omission. In this event, the Trustees shall be entitled to the cost of court, including reasonable attorney's fees, in addition to any damages or remedies found by such court, should it be determined by such court that a violation, infringement or omission had occurred. Should a property owner allow property or structures to fall into a state of disrepair or become unsightly, or should a property owner construct a structure or use a structure in violation of permit requirements, the Trustees shall have the power to cause the removal of the property or structure from the development at the property owner's expense, or at the Trustees' option, the Trustees may cause the repair or improvement of the property or structure to bring it within an acceptable condition. Removed property considered by a reasonable person to be trash may be disposed of by the Trustees.

15. These covenants are several. Invalidity of any of said covenants by judgment or court order shall in no way affect any of the other provisions, which shall remain in full force and effect.

16. It is in the best interest of the community as a whole to preserve the Subdivision as a community in which the lots are occupied and utilized predominantly by the owners. Accordingly, the purpose of this Article is to foster owner-occupancy, improve stability among residents, inhibit transiency, and protect property values. This Article pertains to all lots in Woodland Lakes with the exception of Commercial Lots and Common Ground.

- a. An Owner may lease/rent his or her lot only if the lot contains a permanent residence (a permanent residence is defined by a home of appropriate size for the type of lot for which it is placed that also has a functioning, state approved well & septic system) if:
 - i. The owner provides the Trusteeship with a copy of the executed lease with a term of 12 months together with the names and contact information of the tenant and all occupants.
 - ii. Any renewal or extension of the lease is provided to the Trusteeship, in writing, at least ten (10) days prior to its commencement date.
 - iii. Resident tenants will have the opportunity to get windshield decals for their vehicles, purchase family and guest passes in the same manner as property owners.
 - iv. Owner retains the right to vote, the duty to pay assessments, fines and other charges by the association and the obligation to maintain the lot.
 - v. If a lease is terminated for any reason, it is the property owner's responsibility to inform the Trusteeship, in writing.
- b. No lot other than those that contain a permanent residence may be leased/rented.
- c. No lot may be leased on a nightly, weekly, or monthly basis.
- d. No lot may be conveyed under a time-sharing plan. The leasing/renting limitations of this Article shall be deemed a reasonable restraint on alienation and not a change in the use of lots, which shall continue to be used for single-family residential purposes.
- e. The Board of Trustees may adopt such rules, regulations, and forms as it deems reasonable and necessary to implement the provisions of this Article.
- f. If an Owner signs-in different guests and the Board of Trustees reasonably believes that the Owner may be abusing the privilege of guests accessing and using the amenities of the community to evade any provisions of this Article, the Board may, after notice and opportunity to be heard, suspend, or limit an owner's privilege to have guests' access and use the amenities in addition to any other remedies at law or equity.

17. RIDE IN GUESTS/FAMILY: Property owners who intend to leave their family and/or guests (that rode into the development with the property owner or in someone else's vehicle) unaccompanied inside Woodland Lakes for any reason or any length of time must first register their guest/family at the gate before departing.

The primary governing document for the Trusteeship is the *Trust Indenture and Restrictive Covenants*, also referred to herein as the 'Trust Indenture', which takes precedence over these procedures in case of contradiction.

Once the procedure handbook is adopted, all revisions shall be indicated in the revision record upon approval by the Board of Trustees. An exception to this policy shall be that resolutions adopted by the Trustees may immediately be incorporated into Appendix A of this document without creating a formal revision to the document.

Within three months of any election of any new Trustee, the sitting Board of Trustees shall ratify this document as the official procedures for the Trusteeship, concurrently making any required revisions.

Copies of this procedures document shall be maintained in the Trustee Office, in the gate house, and in the maintenance facility for easy reference by employees and property owners. Any property owner may obtain a copy for his or her personal use from the Trustee Office.
