### Participant Criteria:

- Ability to ski/board green and easy blue terrain (e.g. Sunshine, Showcase, Silver Queen).
- Ability to load, ride and unload chairlift with no or minimal support.
- Desire to ski with others and explore more blue level terrain.
- Ability to follow simple directions, get along with others, and remain with the group.

**Beyond BASE Objectives:** Provide an opportunity for participants to ski/snowboard with peers and/or caregivers in a minimally structured group setting while exploring beginner and intermediate terrain at Bogus Basin. Participants will meet new friends and practice skills in a supervised, supportive, and fun environment.

**Note:** This is not ski/snowboard lessons. The club's focus is not on practicing drills or improving technical skills. BASE instructors will organize, lead, and support Beyond BASE activities through selection of appropriate terrain and assistance if a participant is struggling or needs support while participating.
