

ENROLL ENGAGE ATTEND

A Few Questions to Accompany the Student Attendance PPT

Consider sharing the Student Attendance PPT at a parents' night. After the PPT, spend a few minutes and ask parents to share how they are supporting their students' engagement and attendance – making this a peer learning and sharing event. This allows parents to not only hear new ideas from fellow parents, but to focus on what is working well and to encourage your parents to keep it up.

1. What are your most successful routines to make sure your children attend school on time?
2. Sometimes our children can wake up discouraged and do not want to attend school. How do you stay positive when your children say, "I don't want to attend school today"?
3. Have you designated someone who can help get your child to school if he/she misses the bus or you aren't able to take them to school?
4. What do you think motivates your children to attend school every day?
5. How do you celebrate your child's successes?
