Questions You Can Ask Your Child's School

Returning to school will continue to look different this school year. As a parent or guardian, here are some suggested questions you can ask your child's teacher or school leader to help your children return safely and confidently:

- ➡ What steps has the school taken to help ensure the safety of students?
- ➡ How will the school support my children upon return?
- ➡ How can I support school safety efforts?
- ➡ Will students be allowed to participate in sports and after-school activities?
- ➡ How will the school communicate changes to safety policies?
- ➡ What are the requirements for guests visiting the school?

Through your engagement, you can help your children have a successful school year back in the school building with classmates, teachers, and a caring school community!
