Penalties

Wrong Number of Tiles: If a player has more than 13 or fewer than 13 tiles, that player forfeits the right to win the current hand.

Indecision: If a player calls for a discard but can't meld the set or vacillates, that player is penalized 100 points to be paid to the winner of that hand. No penalty with a drawn hand.

Missed Mahjong: If a player fails to claim the tile which would complete his hand, he may not go out any subsequent, identical discard until his next turn.

False Mahjong: If a player declares mahjong and the hand is invalid, that player's hand is dead. If another player throws tiles in, that player pays 250 points to the other player and 500 to the dealer. The hand ends in a draw.

Insurance Penalties: If a player has exposures that could be part of a limit hand, the player who discards the winning tile pays for all players.

Big Three Dragons	2 exposures
Big Four Winds	3 exposures
All Honors	3 exposures
All Terminals	3 exposures
All one suit	3 exposures
