

On bonfire night

make sure it's only the rockets that scream

⚠ When building a bonfire, remember you're also building the house every hedgehog dreams of

🔥 If you must have a bonfire, build only on the day of lighting

🔥 If you have to build in advance, you **MUST** erect a hedgehog-proof fence around the bonfire area

⚠ Please remember hedgehogs don't run when they feel threatened, they curl into a ball and hope the danger passes
