

Preserving the health and scenic beauty of Sunset Lake and its surroundings

Sunset Lake Association
P.O. Box 135
Hampstead, NH 03841

The Sunset Lake Association Board of Directors, Delegates, and Alternates, would like to thank you for being a member of the SLA in 2025. Our organization is dependent upon annual membership dues to support our mission of protecting the health and beauty of Sunset Lake for current and future generations.

The SLA organization continues to be very healthy with our number of members increasing in each of the past 6 years reaching 126 total members in 2025. We want to give special thanks to the 40% of our members who contributed at our Loon Lover, Weed Watcher, or Lake Leader levels in 2025. These levels help to support our special project initiatives including loon preservation, invasive species monitoring and mitigation, and more.

We have had great participation in our events in the past few years and in 2026, we will offer a similar schedule of events. Our 1st BBQ with live bands on the lake in August of last year was a great success, so we will hold that event again this year. You can find more details about these events on our web site www.slahampstead.org or by following our Facebook page www.facebook.com/slahampstead. We hope to see you at one or more of our events this year!

Thanks to everyone's efforts on the lake, Sunset Lake continues to be free of invasive *aquatic* plant species as confirmed by our 2025 aquatic plant survey performed by Pondweed Pursuits. We hope that everyone will continue the diligence required to keep the lake free of these invasives. We continue to make progress on mitigating the two *shoreline* invasive plant species; Purple Loosestrife and Common Reed (Phragmites). We want to thank the SLA members and landowners who have helped us to mitigate these plants. We are making great progress and we hope to be free of these two invasives in the next couple of years.

We also hope that you will consider participating in the NH Lakes LakeSmart Lake-Friendly Living Program which NH Lakes is improving for 2026 to make it easier and more engaging. This program is a voluntary education and recognition program with the goal of encouraging property owners to maintain their homes and property in ways that protect lake water quality, wildlife habitat, and property values.

Thank you again for your membership in 2025 and we hope that you will choose to renew your membership in 2026. Please visit <https://slahampstead.org/> for membership information and to join.

As always, your input is greatly appreciated. If you have any comments, questions, or suggestions please do not hesitate to contact me or contact the association at info@slahampstead.org.

Sincerely,
