

## Preserving the health and scenic beauty of Sunset Lake and its surroundings

Sunset Lake Association  
P.O. Box 135  
Hampstead, NH 03841

On behalf of the Sunset Lake Association Board of Directors, Delegates, and Alternates, I thank you for your SLA membership in the past. The annual dues and lifetime memberships of our community help to sustain our organization and allow us to protect our lake for current and future generations.

The SLA organization is very healthy with our number of members increasing in each of the past 5 years reaching 122 total members in 2024. 42% of our members decided to contribute at our Loon Lover, Weed Watcher, or Lake Leader levels in 2024. These levels help to support our special project initiatives including loon preservation, invasive species monitoring and mitigation, and more.

We have had great participation in our events in the past few years and in 2025, we will offer a similar schedule of events. Our decorated boat parade has seen less participation in recent years, so this year instead of the boat parade we are going to have a BBQ with live bands on the lake in August. You can find for more details about these events on our web site [www.slahampstead.org](http://www.slahampstead.org) or by following our Facebook page [www.facebook.com/slahampstead](https://www.facebook.com/slahampstead). We hope to see you at one or more of our events this year!

Thanks to everyone's efforts on the lake, Sunset Lake continues to be free of invasive *aquatic* plant species and we hope that everyone will continue the diligence required to keep the lake free of these invasives. We continue to make progress on mitigating the two *shoreline* invasive plant species on the lake; Purple Loosestrife and Common Reed (Phragmites). We want to thank the SLA members and landowners who have helped us to mitigate these plants. We are making great progress and we hope to be free of these two invasives in the next couple of years.

We also hope that you will consider participating in the NH Lakes LakeSmart Lake-Friendly Living Program which NH Lakes is improving for 2025 to make it easier and more engaging. This program is a voluntary education and recognition program with the goal of encouraging property owners to maintain their homes and property in ways that protect lake water quality, wildlife habitat, and property values. We encourage everyone to consider taking the evaluation and you can visit <https://slahampstead.org/are-you-lakesmart%3F> for more information.

We would love to welcome you back to our association and thank you in advance for your support. Members can join using the easy-to use online membership option on our website. Alternatively, if you do not want to join online, you may also print and mail in a membership form and check. See details for both options at [www.slahampstead.org/membership](http://www.slahampstead.org/membership).

As always, your input is greatly appreciated. If you have any comments, questions, or suggestions please do not hesitate to contact me or contact the association at [info@slahampstead.org](mailto:info@slahampstead.org).

Sincerely,
