

Hamilton Medical Ventilator Workshop. Hands-on training for EMTs

This workshop is designed to help the provider dial in the concepts of mechanical ventilation and increase confidence with the HAMILTON-T1. It is a four-hour workshop, including a 30-minute break. Multiple instructors and ventilators will help each participant to get the hands-on skills needed to improve proficiency and master the ventilator.

March 8, 2025 from 0800 – 1200

Cost: \$25

This workshop is part of the NWA Fire EMS Conference & Expo 2025. Learn more here:
