

918M1 Hitachi 6T Hi-Rail Excavator

Control you can count on

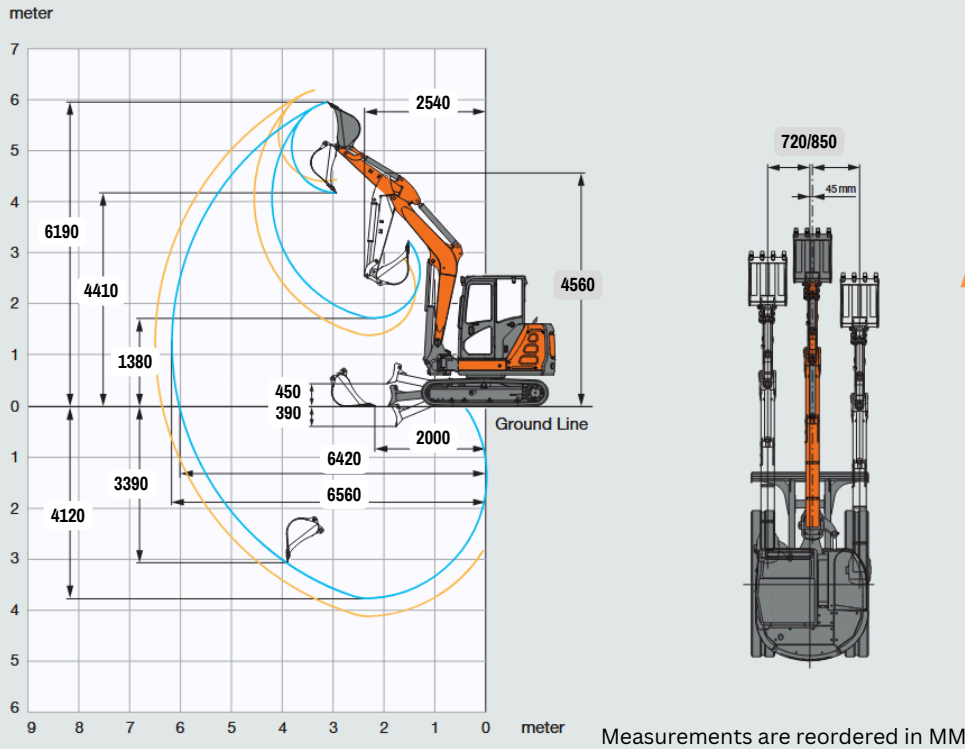

Our machine is designed for ultimate safety and efficiency. The zero swing feature ensures precise maneuverability, even in confined spaces. It's certified to tow our Hi-Rail trailer, making transport materials and rail seamless and reliable. With ROPS and FOPS integrated, you get added safety

in challenging environments. High-quality surround work lights mean uninterrupted productivity, no matter the weather. Enjoy a fully enclosed cab for maximum operator comfort. Plus, the 530kg rail-rated safe work load

adds confidence to every job.
