

# 2026 WINTER CODE UPDATES

Wisconsin's regional inspector associations, in cooperation with Wisconsin Code Officials Alliance and the Wisconsin Department of Safety & Professional Services are offering virtual and in-person training sessions in early 2026 about Wisconsin's Electrical Code, Uniform Dwelling Code, Plumbing Code and Commercial Building Code. These courses can provide continuing education credits for Industry Services administered inspection and DCQ credentials. Fire inspectors, designers, contractors, and others with an interest in Wisconsin's codes may also benefit from the programs.

**Registrations for all courses will be online using the following link:** <https://www.eventsquid.com/event/30091>

## **CLASS HIGHLIGHTS**

- All training sessions are available both virtually (online) and in-person.
- All in-person sessions include lunch.
- The price for each training session is \$150.
- Training sessions provide 6 hours of continuing education credits – see credential approvals below.
- Training sessions begin at 8 am and conclude at 3:30 pm. There will be a morning and afternoon break and a one-hour lunch break. Doors open, registration and check-in begins at 7:00 am.
- All class information and registration instructions are found online at the link listed above. All class materials and handouts will automatically show up on your dashboard prior to class.
- No evening classes are being held.

## **GENERAL COURSE OVERVIEW AND APPROVALS**

**Commercial Electrical Code** – This program will review changes that affect electrical installations to comply with the newly adopted 2021 Wisconsin Building, Energy, Mechanical, Accessibility Codes and more. We will also have our annual Code Panel discussion reviewing issues that have arisen in the past year around the State. Approved for Commercial Electrical Inspector, Industrial Journeyman Electrician, Journeyman Electrician, Master Electrician, Registered Electrician, Residential Journeyman Electrician, Residential Master Electrician, and UDC-Electrical Inspector.

**1 & 2 Family Electrical Code** – This program will provide guidance for navigating the NEC and SPS 316 to help beginning and veteran electricians find answers in the Code. We will also look at inspection fundamentals for new and seasoned inspectors or other electricians looking to become inspectors. Our annual Code Panel discussion will discuss issues that have arisen around the State in the past year. Approved for Commercial Electrical Inspector, UDC-Electrical Inspector, Industrial Journeyman Electrician, Journeyman Electrician, Master Electrician, Registered Electrician, Residential Journeyman Electrician, and Residential Master Electrician.

**Uniform Dwelling Code** – This course will take a deep dive into separated building design. We will look at several plans, from 2 separated duplexes (4 dwelling units) all the way up to 4 separated duplexes (8 dwelling units). We will walk through plan reviews and view onsite photos of common framing issues. A wide variety of topics will be covered including treated wood foundations and shallow frost protected foundations and cover gas venting requirements and HVAC duct installation issues. Approved for UDC Building Inspector, Dwelling Contractor Qualifier, and UDC HVAC Inspector. This class does **NOT** cover any of the 4 hrs. of required legal training for Dwelling Contractor Qualifier credential holders.

**Commercial Building Code** – This course will assist participants in implementing the transition from the 2015 IBC to the 2021 IBC and will include the Wisconsin's that alter the 2021 IBC. This interactive training will focus on the key changes that are found in the 2021 IBC. Approved for Commercial Building Inspector and Dwelling Contractor Qualifier.

**Plumbing Code** — The morning session will cover a mock UDC Plumbing Inspector exam in small breakout groups followed up with open discussion to review the topics. We will discuss any possible code updates and cover issues with indirect and local waste piping. The afternoon session will cover "What to Expect when You're Inspecting" and finish up with a water calculation worksheet and venting dos and don'ts. Approved for Commercial Plumbing Inspector, UDC Plumbing Inspector, Journeyman Plumber / restricted appliance-service, and Master Plumber / restricted appliance-service.
