GLUDES | Global Leadership University ... a Nozer Buchia Initiative

GLUDES, a Global Leadership University for Development Entrepreneurship and Strategy is the dream-child and vision of internationally acclaimed Speaker, Author, Entrepreneur and Transformational Business & Life Coach... Nozer Buchia.

GLUDES has been founded with a unified conviction to leverage the knowledge and best practices of today's thought leaders with the intent to council and prepare the next generation.

Our aim is to provide an ethical leadership education experience that coerces behavioral change to revolutionize results. It is our observation and belief that long-term success is directly proportional to the quality of the leadership.

We pride ourselves as being the vanguard; the educator and thought leader for leadership, development, strategy & entrepreneurship... thanks to our decades of industry best practices and established track record of successes and failures.

We develop and shape the much-needed leaders of tomorrow, those with robust functional knowledge, attained talent and the vision to navigate change.

We nurture leaders that will anticipate uncertainty, overcome complexity, and motivate teams for a shared single-minded purpose of creating a stellar organization with a commitment to value and success.

GLUDES is a dynamic learning facility where individual students, entrepreneurs and corporations work together to address and continually advance the evolving challenges faced by our business and our society. We achieve this through the development of one of the greatest dominant qualities required today ... **LEADERSHIP**.

GLUDES | **Global Leadership University** ... a Nozer Buchia Initiative

VISION | MISSION

Our Vision... to eliminate “Educational Leadership Poverty” across the globe.

Our Mission... to eradicate the notion of creating followers... our undertaking is to develop Leaders.

PURPOSE

Through the promotion of solid business & leadership practices and an advocacy of ethics in every aspect of the business, our purpose is...

To develop the aspiring individual and entrepreneurial & business community and enable them to emerge as leaders in their endeavors

To recognize and build effective leadership and promote its impact by diligent personnel selection and the importance of recognition as prime motivators of people

APPROACH

At **GLUDES** we understand that the demands of being a successful leader in today’s complex business environment, requires more than just a set of prescribed traits and talents. It requires a constant thirst for betterment and advancement based on an open mindset for progressive learning through successes and failures. Our extensive and industry proven best practices curriculum for successful leadership, addresses the needs of those that are preparing to take the next step in their careers.

Our initial program is also a result of the selfless contributions of some of the best industry frontrunners; twenty-five plus entrepreneurs, successful professional leaders and CEOs who enlightened us with their successes & failures and their thoughts & ideas on building leadership skills.

Leveraging the insight of these leaders our courses are facilitated by some of the best business minds in the industry, those with a passion for teaching the business skills that they’ve learned through experience in their respective field.

These same contributors have since become our most enthusiastic supporters and we thank them for their time, their efforts and their contributions in our success. They have since enabled us to provide quality education and pursue the quest for knowledge.
