August 2021 -- June 2022

It is the start of our **40th year!** at TRI-TOWN GYMNASTICS. We want to thank all of you who have grown with our programs during these wonderful years. We have enjoyed watching your children develop their gymnastics skills, especially the multi-year children we have worked with.

To facilitate both the learning and teaching process we have continued our "end-of-the-year" fun routines. We have found them very enjoyable and the students enjoy performing for all their relatives and friends. These routines are similar to evaluation-of-skill charts levels 1-5. We strongly encourage participation by all students. Mastering these routines is the culmination of a full years work.

Our Mission Statement:

Growth through participation has been Tri-Town's mission throughout these many years. Enjoyment, physical fitness and coordination are some of the benefits involved in taking part in our regular gymnastics programs.

Many of our parents have expressed how these benefits have enhanced their children's development in many of their everyday challenges outside of gymnastics. This makes us very proud here at Tri-Town Gymnastics.

For the competitive athlete, we have boys and girls team programs. This involves a full year of practice with gymnastics meets. Please ask Debi or Frank for information regarding our team programs, about the commitments and the benefits this may have for your child.

OPEN HOUSE:
