

Song Structure Overview

Substitute by The Who

4/4 Time

This one is tricky because it has multiple places where the 8th measure of the 10 measure chorus sections have only 2 beats instead of the typical 4 beats. So as you're counting, you need to cut that measure short and start counting measure 9 on what would have been beat 3 of measure 8.

Chorus	10 measures (but 8 th measure is only 2 beats)
