NCRS Annual Board of Directors Meeting

Meeting Notice for March 17, 2023

Our annual Board of Directors Meeting will return to being a stand-alone event for the elections and appointments of the officers, managers, and employees of NCRS, Inc. We will be conducting this annual Board meeting via Zoom. This virtual manner will allow for increased membership participation and provide sound fiduciary responsibility from your Board of Directors. Please contact your Regional Director for any item that you may wish to have placed on this agenda. We are willing to discuss anything of concern to our membership but your Board of Directors must be adequately prepared to do so in advance. Thank you for your understanding and we hope you can join us for the annual Board Meeting at 11:00 am EST. The Zoom link and meeting passcode are available on page 2 of *The Driveline*.

National Virtual Town Hall Meeting

SAVE THE DATE

On Friday, January 20, 2023, we will be conducting our very first Virtual National Town Hall Membership Meeting at 7:00 pm EST. This is offered to allow our members to discuss the current state and future of what YOU believe is important for the NCRS. This town hall meeting is an organization-wide meeting where we will report the results of a recent strategic business planning initiative and allow our members a chance to ask questions and engage with the Board of Directors, officers, managers, and employees in a new format designed to serve you better. The link and passcode are available on page 2 of *The Driveline*.

Do you know we are on social media?

Many of our members are familiar with Facebook. You may have noticed we have been going live from our events. But did you know that we have multiple Facebook pages? Our main Facebook page is available to everyone. We also offer two pages that are restricted to NCRS members only. These include a general NCRS group page and an NCRS parts swap page. You might be able to find that information and/or part that you have been searching for just by asking fellow NCRS members. If Facebook is not for you, check out our Instagram page where you can scroll through photos of Corvettes that you might not have seen in person at our events. Either way, you can enjoy us even more when you can not join us in person. Consider following us on these private pages to make sure you do not miss something important. Click the links below to visit these private pages and utilize the icon links for our public accounts at the bottom of this newsletter.

September 14-16, 2023

Texas Regional

As this year comes to a close, the UK chapter of the NCRS is finishing its 25th-anniversary celebration. They were the first chapter of the NCRS outside of North America

established on May 12, 1997. Trevor Rogers continues to serve as their chapter chairman and was one of the founding members along with Barry Morris and David Posner. They are self-described as a "friendly club united by our appreciation of the Corvette." We would like to raise a pint to our friends across the pond for their ongoing success for decades to come. If you would like to find out more about this chapter or find a chapter near you, please click the link below to visit the respective websites.

(Frisco, TX)

NCRS National Gallery at the NCM

I can confidently state that the final display of NCRS Corvettes at the National Corvette Museum's 70 Years of Corvette with General Motors will be truly amazing! We will transform the Skydome in a way that has never been presented before. It will be an exhibition that cannot be missed. We have received several applications for this NCRS National Gallery. We do have some holes to fill as we hope to represent every generation of Corvette and every award class that the NCRS offers including Sportsman, American Heritage, and Challenge Car Awards. Unfortunately, our members will not be able to participate in both our National Convention in French Lick and the NCM National Gallery Display during 2023 since it will run from June 29, 2023, through January 1, 2024. We could not be more honored to display our Corvettes for this once-in-a-lifetime display and it is only fitting that the NCRS will stand proud among our many members in the NCM Hall of Fame.

NCRS Gallery Application for Museum Display

General Motors News to Know

Ever since Chevrolet first revealed the 2023 Corvette Z06, fans, enthusiasts, and prospective buyers have been excited to see this high-performance machine in all its colors and configurations. GM Authority recently captured this Z06 Coupe with blue racing stripes. Looking good indeed. A little birdie told me that as of December 13, 2023, 611 of these beasts are now roaming in the wild and our friends at the Bowling Green Assembly Plant are ready to make you even more.

More exciting changes in store for 2023

We have to admit that we are working on more than just one surprise coming for you in 2023 and beyond. We hope that you will enjoy some of these exciting changes and awesome opportunities exclusive to the NCRS that we are creating for our membership into the New Year. Thank you for being a valued member and from our family to yours, Happy Holidays! Keep calm....you will also be able to drive your Corvette soon.
