

# ECO COOL ROOF

SOLER HEAT REFLECTING COATING

75%  
natural  
minerals

ASTM STANDARDS

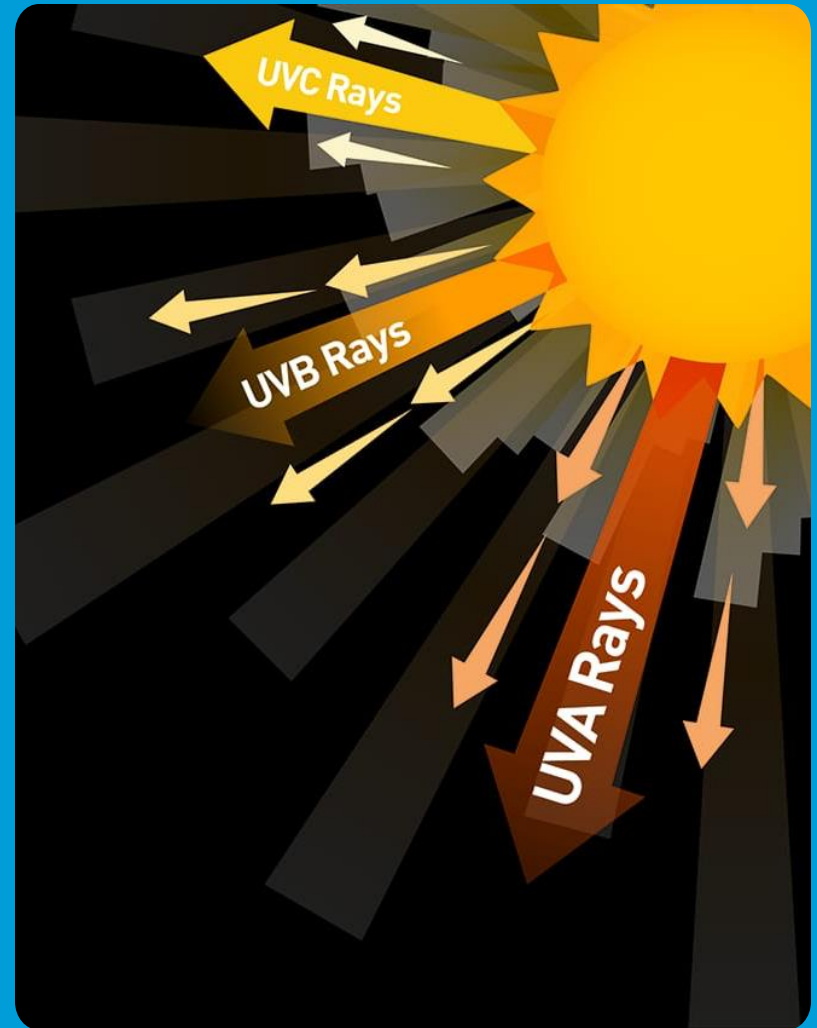

# Keys

- **High SRI Value 112**
- **Reflects 85% of UV and 90% of IR ray:**
- **Cleans with Rain & Water**
- **Low VOC Eco Friendly**
- **Reduces Energy Cost upto 40%**
- **Reduces Roof Heat Upto 20°**
- **Low cost Application & Maintenance**
- **Dust & water Repellent**

# Bye bye to summer heat with Eco cool

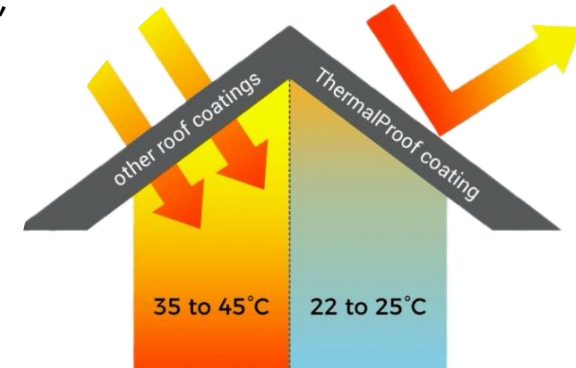

## Product Descriptions

Eco Cool roof is a high SRI II2 ready to use coating, Eco Cool when quoted on the roofing materials, reflects sunlight to greater extent and prevents the roofing material from getting heated up, even during peak summer afternoons .since it work on the principle of continuous rejection of UV and IRA rays the roofing substrates itself does not get heated up.so the air bellow the roof never get hot, keeping the room cool and comfortable, this protect the building for a longer period extending the life of the building and prevent expansion contraction

## USES:-

Eco Cool was specially developed for extending the life of new or existing built-up metal, concrete and composite roof by providing a white reflective top coat, the high reflectivity of Eco cool coat, keep the roof substrate cool, which not only prolongs its longevity, but also saves on energy cost, Eco cool 's rich consistency, uniformly covers the textured, profile of various substrates forming up permanently, flexible monolithic membrane Providing protection from natural weathering, aging, and UV exposure.

## Durability & Advantages

Life of Eco cool will be 7+ years under standard and normal weather condition.

- Building remain cool even during peak summer
- Improve working environment, resulting in improve efficiency of workers
- Reduction in humidification and air-conditioning cost up to 40%
- Reduction of roof heat about 8°C to 20°C
- 90% of solar IR rays and 85% of rays

## Benefits of Eco Cool coat

- ❖ Energy saving
- ❖ Building cooling
- ❖ City cooling
- ❖ Low maintenance
- ❖ Compatible with other environmental friendly roofing strategies

## Eco certified
